Crops That Convince

Virginia-Carolina
Chemical
Co.
Increase Your Yields Per Acre

"We will convince you that you can increase your yields per acre and you won't have to keep it a secret, either. Read what Messrs. Wherry & Son, of the Magnolia Fruit Farm, Durant, Miss., write: 'From two acres of strawberries, on which 1,000 pounds of Virginia-Carolina Fertilizers per acre were used, we cleared a profit of \$75.00 per acre more than the other 14 1/2 acres of strawberries which had only 500 pounds of this fertilizer.' Thus double the quantity of these fertilizers on each acre of any crop, and more than double 'increase your yields per acre.' Be sure you buy only Virginia-Carolina Fertilizers."
