The farmers of Marlboro refuse to buy a pound of lard raised in the west.
The farmers of the county raise their own molasses this year.

Some local enterprise started that will draw more trade to Bennettsville.
The population of Bennettsville increases faster.

ANOTHER OPPORTUNITY
To win a prize is offered by that very enterprising journal the Charleston Daily News and Courier, and is open to the world, to the person who comes the nearest guessing the correct number of bales of the United States cotton crop of 1889-90:
First Premium—A copy of the News and Courier, free for one year.
Second Premium—A copy of the News and Courier, free for one year.
Third Premium—A copy of the News and Courier, free for one year.
The Commercial and Financial Chronicle will be the authority for the number of bales of the United States cotton crop of 1889-90. When its statement of the 1889-90 cotton crop is published (some time in September) the first premium will be given to whoever makes the best or nearest guess on the crop. The second premium will be given to the second nearest or second best guess on the crop. The third and fourth premiums will be given to the third and fourth best or nearest guesses.
The guess number, the name (or initials) and the address of the guesser and the date of record will be published weekly in the Sunday News.
In the event of a tie of two or more similar numbers or guesses the first premium will receive the first premium. The second premium will go to the next, and the third and fourth premium in the same order.
Guessing open to every one. Any one can guess as often as desired.
You can guess monthly, weekly, daily or hourly if you choose.
There are only two rules. All guesses must be made on the ballots printed in the Weekly News and Courier.
Cut one out, fill it up and send it to the News and Courier, Charleston, S. C.
Only one guess can be made on one ballot, and each ballot must be accompanied by five cents in stamps or coin.
Every one registering a guess will get a copy of the Sunday News acknowledging the ballot.

"The Flowers that Bloom in the Spring"
May have nothing to do with the case, but that drowsy debilitated feeling with which you rise every morning, arises from impurities of the blood or a disordered liver. Almost every spring this same feeling comes over you and you are left in a thoroughly debilitated condition. You must then have something to eradicate these impurities, to regulate the action of the liver and set you on your feet again, as it were. You certainly cannot afford to keep on feeling that way when the means for working a complete change are in your reach. Dr. Westmoreland's Calisaya Tonic will restore your wanted energy and make you feel like a new man. For sale at Jennings' Pharmacy and J. T. Douglas' drug store.

FATAL BOXING MATCH.
NEWBERRY, S. C., March 15.—Two negroes in the county yesterday engaged in a boxing match for fun. One struck the other on the neck, breaking it, resulting in death.
This is but another instance of the powerful force of example, and the "buena" should not say anything.

FIRE AT BLENHEIM.
As we go to press we learn that the Baptist parsonage at Blenheim, occupied by Rev. R. Ford, was burned about 1 o'clock this Thursday morning. The fire was accidental and originated in a thought from fire left at the wash pot in the yard.
Only two days before the old homestead of B. N. Rogers was accidentally burned from a defective stove flue.

To the Sunday-School Workers of Marlboro County:
DEAR BROTHERS:
The Second Annual Conference of the Methodist Sunday Schools of Marlboro County is drawing near and it is very important that we have a full meeting. Each school is entitled to two delegates who should be elected at once and their names sent to the Secretary at Bennettsville. All ministers of the churches to be represented and Superintendents of schools are members ex-officio of the Conference and are expected to be present. Let each and every one begin to gather information and work and pray for the success of our next Conference.
Each Superintendent in his county is earnestly requested to have prepared and sent to the Secretary a full and detailed report giving all information of interest from his school for the benefit of the Conference.
JOHN MANNING, President.
S. A. BROWN, Secretary.

These are Straight Papers and Must Carry Conviction.
The value of a recommendation depends wholly on the giver of it; a spurious and alleged testimonial is plentiful as the leaves in Vallambona or the sands on the sea beach. When a gentleman of such prominence however, as the Hon. W. H. Wilder, of Albany, Georgia, speaks, his words carry weight with them. He says "I suffered fifteen years with Rheumatism and in the time I tried all the so-called specifics I could hear of. One of them cost me \$5.00 per bottle for nine bottles and yielded no relief. My grandson who runs the B. & W. Railroad finally got me a bottle of Dr. J. C. King's Microbe Killer, and I used it and it cured me. I tried it first bottle showed its remarkable effects and after using it for a short time the Rheumatism disappeared and I feel like a new man. I take great pleasure in recommending it to Rheumatic sufferers." Albany, Ga. W. H. Wilder.
