

DEMOCRAT
 BROWN & CO.
 PUBLISHED WEEKLY.
 Entered at the Post Office at Bennettsville, S. C., as second class matter.
CANDIDATE.
Governor of South Carolina,
D. R. TILLMAN,
 OF EDGEFIELD.
 In support of the notion of the Democratic State Convention.

ANOTHER INFAMOUS CUT.
 The latest infamous cut at the farmers is the proposed increase of tariff on cotton ties from 35 to 103 per cent. Well, if the rascals succeed in their wicked purpose to raise the price of cotton ties, the only remedy is a return to rope. Make the bales smaller and have sworn samples ready for inspection at the sales of each lot. The devils can be whipped in this game if the farmers stand firm.

POLITICAL CHAT.
AT HOME AND ABROAD.
 man carried every county in the State.

South Carolina's new Governor is from Edgefield, and his name is D. R. Tillman.

The salvation of the Republic depends upon gaining the control of the Southern States. It is a lead dog fight now.

TEX AND SCISSORGRAPHS.
 Barnwell county leads off this season with the first bale of new cotton.

C. B. Craighead and H. N. Snyder have been elected to fill vacancies in the Professorships at Wofford.

William Kemmler, the notorious wife murderer of New York, was executed by electricity on Wednesday morning of last week. He was dead in 17 seconds.

Whitfield Murrell, of Edgefield has been sentenced to be hanged on September 26.

The post office at Lucilin, Florence county has been discontinued—mail to Ellingham.

President Harrison has dismissed Hawkins, the colored coachman who has driven the White House carriage twenty-five years without an accident and employed a white man in his place. And thus the Northern Republicans continue to love the colored brother at a distance.

Murray Hall, a fine hotel at Pablo Beach, Florida, has been burned. Loss \$225,000.

The Sam Jones meeting at Wilmington begins on the 15th, September.

Two evangelists by the name of Tillman—father and son—are doing a great work in Georgia. These Tillmans are great people, and there seems to be magic in the name.

Tom Jones carried Alabama by 100,000 majority for Governor.

Rev. Dr. Primrose tells us that the actual strength of the Presbyterians, counting the Welsh Methodists, Waldensians, &c., is 8,000,000 in the world.

A TWO SIDED BILL.
 It created a Tremendous Sensation in the Treasury Department.
 There was received at the treasury department one of the most peculiar bank notes ever seen among the millions upon millions of currency notes printed by the government. It was a \$20 note or a \$10 note, just according to which side was up, for by some remarkable mistake the one side was printed with the figures and devices of a \$20 bill, while the other had all the figures and devices of a \$10 bill.

The note was returned to the treasury by the cashier of the First Washington National Bank of Jersey City, who sent it with a rather sarcastic note, intimating that his bank was not going into the freak business, and added that as the treasury had counted that bill for \$20 he would trouble them to send him an ordinary \$20 note. The affair created a sensation, for no one had ever seen such a wonderful note before. This matter was referred to the department of issue, from which the note had been sent out to the Jersey City bank. The mistake was promptly corrected and an immediate investigation begun.

The investigation was prosecuted with vigor, and Gen. Meredith found the cause of the trouble. It seems that the four notes printed on a sheet are not all of one denomination. There are always three of one kind and the fourth of another; thus, in this case, three tens and a twenty. It was an easy task to learn just when this bundle had been printed, and by which plate printers. They were examined, and it developed that one sheet of four notes, after having been printed on one side, had fallen off the bundle to the floor. The assistant who picked it up by some unfortunate oversight turned the sheet upside down when she placed it on the bundle.

The rest is easily understood. This sheet was printed on the second side with a 20-fine on the reverse of a ten, and one of the three 10-fines on the reverse of the one 20 of the sheet. Hence there were two "10 20s" in the lot. Thus the mistake was corrected. But no good explanation was offered, or can be offered, why these two bills, passing through a score of hands, each one of whom is supposed to examine every bill most carefully, should not have been discovered.

Every person in the bureau who handles a note is held responsible in the strictest way, and it is almost incredible that none of these people should have discovered the mistake. In the department of issue are not less than six counters, whose business it has been for years to count the notes before issuing them to the banks. They are considered the most expert counters in the world, and yet all six of these wonderful experts allowed such a bill to pass through their hands. No trace has been found of the second hybrid, so that it must be wandering around the country. The two notes will be kept in the treasurer's office as curiosities.—Baltimore Sun.

Experiment with Rope and Wire.
 Some interesting experiments have been made by a recent graduate of a college, to determine the strength, elasticity and tenacity of round and flat ropes of hemp and also, and of iron and steel wire. In these investigations there were employed a horizontal hydraulic press and weighing apparatus consisting of a steel yard and sliding weight by which tension of 130,000 pounds could be recorded, and for higher pressures a gauge on the body of the press was used. Specimens were fastened by winding each end on a grooved pulley of special construction, the usual length of the specimens being thirteen feet.

The result of all the tests gave for the average tensile strengths of ropes the following: White hemp, 10,500 to 11,200 pounds per square inch; tarred hemp, 7,700 to 8,400; white manila, 9,800 to 10,600; white aloes, 5,600 to 7,000; flat tarred hemp and manila, 7,800 to 8,400. A factor of safety of four, or even three in some cases, is considered a safe rope. A rope of unannealed wire has an ultimate strength of about 55,000 pounds per square inch of section of metal. When annealed the ultimate strength is reduced to about 45,000 pounds; but the elongation is nearly doubled, being nearly 12 to 15 per cent. In annealed wire. The best wire ropes for mining purposes have a much higher tensile strength.—New York Telegraph.

Equal to the Occasion.
 Boston Thief—I assure you my offense was but the result of a slight mental aberration occasioned by the gastric emotions that arose from my becoming cognizant of the existence of an unproven aggregation of nutritive substances in my immediate vicinity.
 Boston Cop—In that case I supplicate your pardon and trust you will not think too harshly of me for having abraded the epidermis of your perianium by the sudden propulsion against it of my ligneous wand of office.—Town Topics.

Cyclamen Growing Rare.
 The prefect of Savoy has recently prohibited the gathering of the cyclamen in the woods of his department. Notwithstanding its abundance in the locality this beautiful plant has been threatened with total extinction from the enormous numbers gathered each year for sale in the markets of Chambéry and Aix-les-Bains. It is the old story; collectors are everywhere; and the edelweiss and possibly the primrose will soon become rare, if not extinct.—Exchange.

LOW-QUARTERED SHOE FOR MEN—hand-sewed, calf, extra made and easy.
 Bristow & Everett.
 May 6th, 1890.

Breeden's Stalk Cutter.
GREATEST LABOR SAVING INVENTION EVER USED ON THE FARM.

Returns to the Soil What Has Always Been a Loss to the Land.
 Believing that I have secured the greatest boon of the age for the benefit of my brother farmers, by which they cannot only save time and money, but an invention that will greatly assist in the preparation of land for the crop as well as restore to the soil what has always been a waste to the land. My machine has been on sale only a short time, and we take pleasure in giving some of the testimonials kindly furnished us by those who have tried it.

TESTIMONIALS—
 JULY 24, 1890.
 W. M. Breeden—Dear Sir—This is to certify that I bought one of Mr. W. M. Breeden's Cotton Stalk Choppers. It has given entire satisfaction. Would not be without same for twice the worth of it.
 J. W. NEWTON.

ADAMSVILLE, S. C., July 24, '90.
 W. M. Breeden—Dear Sir—In answer to your inquiry as to how I am pleased with your Stalk Cutter, I with pleasure state that it gives entire satisfaction in every respect.
 Yours truly,
 J. B. GREEN.

BENNETTSVILLE, S. C., June 12, '90.
 W. M. Breeden—Dear Sir—In reply to your inquiry about your Stalk Cutter that I used last spring, I will say that the work was very large and it did the work perfectly, not only cutting them but burying most of them in the ridge, leaving the land in nice order for the plow.
 Respectfully,
 J. B. HEUSTESS.

PEARSON, S. C., Jan. 22, '90.
 W. M. Breeden—Dear Sir—The Cutter received this afternoon. It works finely. Inclosed find check for same.
 Respectfully,
 B. E. and P. B. MOORE.

TATUM, S. C., 1890.
 W. M. Breeden—Dear Sir—Having rented one of the Stalk Cutters manufactured and patented by Mr. W. M. Breeden, of Marlboro county, S. C. the past season, I can truly say that it is a great invention and so far surpasses anything of the kind attempted before, or should have one. It not only cuts stalks completely and leaves land in fine condition, but enables the farmer to throw back on the land so much vegetable matter that is frequently burned. Cuts stalks any size.
 J. D. WATSON.

McCOLL, S. C., July 21, 1890.
 W. M. Breeden—Dear Sir—Last winter I had about twelve acres of cotton stalks that were very large. The rows were five feet wide, and the stalks were lapped. I procured one of your patent Stalk Choppers and cut them. The machine did the work so thoroughly that the stalks were not at all in the way in plowing. I consider it the best stalk chopper I have ever seen.
 Yours truly,
 J. F. McLAURIN.

BENNETTSVILLE, S. C., July 25, '90.
 W. M. Breeden—Dear Sir—We have your Stalk Cutter and find it a great improvement over the old style.
 BRIGHTSVILLE, S. C., July 22, '90.
 W. M. Breeden—Dear Sir—I have used one of your Stalk Cutters and it is all I claim for them and would not be without the use of one for twice the price you ask for them.
 Yours truly,
 SIMON GIBSON.

BENNETTSVILLE, S. C., July 22, '90.
 W. P. Breeden—Dear Sir—After using your Stalk Cutter last spring I desire to say that it gave perfect satisfaction.
 A. Y. MOORE.

BENNETTSVILLE, S. C., July 22, '90.
 W. M. Breeden—Dear Sir—I used your Stalk Cutter the past winter and was well pleased with it, finding it a success in every particular. The stalks were cut clear and hidden and the ground looked as if stalks had been picked up, and take great pleasure in recommending it as a success.
 R. E. TOWNSEND.

BENNETTSVILLE, S. C., July 25, '90.
 W. M. Breeden—Dear Sir—I used your Cotton Stalk Chopper on part of my plantation 1 year, and take great pleasure in recommending it to my fellow farmers as the greatest labor saving machine that has ever been invented on plantation. It does its work perfectly, and no farmer can afford to do without one.
 Yours respectfully,
 C. M. WEATHERLY.

NEW ARRIVALS
A T
KIRKWOOD & CO'S.

We have just received a very pretty line of Gingham, Satens, Hats and Ribbons, which we will sell you very low. COME AND SEE US when you are in need of any thing in the line of Ladies wear.
Will Sell You ON TIME on as Favorable Terms as You Can Ask.
 We have just received the **Surin Sewed Shoes** for Ladies which has the following points of excellence and will command itself to all the ladies.
 1st. The shoes are elegant and stylish in appearance, none but the most skillful workmen who have had years of experience on the finest class of work being employed.
 2nd. It is a sewed shoe, with a perfectly smooth interior, without laces or nails to injure the feet, or wax and thread to ruin the stockings.
 3rd. None but the finest quality of material is employed in the manufacture of these shoes and the greatest care has been taken in its selection, with special reference to its wearing quality as well as to its beauty and finish.
 4th. The soles are flexible, rendering the shoe exceedingly easy to the foot.
 5th. Any lady wearing a pair of these shoes will find that her feet will be rendered much smaller in appearance than with ordinary boots. This is accomplished by Mr. Smith's special method of designing patterns and last.
 6th. We also have a large stock of Ladies and Gents' Underwear.
 May 2nd, 1890.

GRAND OPENING OF
THE HOTEL ROBERTS,
MT. AIRY, N. C.
 THIS magnificent structure, situated on the highest point of Main street in the beautiful Mountain City, will be opened for the reception of guests, June 10, 1890, and will be conducted in connection with the hotel at the famous White Sulphur Springs, which will be in charge of Mr. Rufus Roberts, owner and proprietor.
 THE HOTEL ROBERTS contains one hundred chamber rooms, furnished in the latest style with all modern conveniences, and can accommodate 500 guests. (The Hotel at the Springs can accommodate 150 guests in addition.)
 Buses will meet guests at the train and convey them to the Hotel Roberts five of charge, where guests for the White Sulphur Springs can remain over night without extra charge, their board commencing at the time of their arrival at the Hotel Roberts.
 The Hotel will be furnished with fresh water from the Springs every day.
 The road to the Springs has been put in the best condition and first-class conveyances will run to and from the Springs several times every day.
 The windows of the Hotel Roberts command a magnificent view of Mountain Scenery as far as the eye can reach, in two States, Virginia and North Carolina. For terms and particulars to J. R. REYNOLDS, Manager Hotel Roberts, RUFUS ROBERTS, Proprietor White Sulphur Springs.

THIS EARLY CROCUS
 is not one of the flowers that bloom in the spring, but the blooming barn-yard bird that with his shrill clarion notes stirs up the sluggish and slumbering with the news that's time to WAKE UP! That's why he is figuring in a cut and cutting a figure at the top of this "ad." This time to wake up to the fact that even a large stock may be exhausted and tardy buyers miss the timely bargains. Don't you forget, that while it's the same old rooster crowing for the same old store, he's not crowing for the same old crowd, but a newer, nicer crowd than he ever crowed for in any past season. When you are wide awake to your interests, come to
 SIMON STRAUSS.
 May 16, 1890.

RAILROAD NOTICE.
ALL FREIGHT TO BE SHIPPED must be at depot properly marked, and ready for shipment by 5 P. M. Any goods presented later than that hour cannot be received, unless a release is signed for same in accordance with notice of General Manager.
 Freight charges must be paid on all freight when delivered to consignee, as I am not authorized to deliver any goods until charges are paid.
 Goods received must be filled in "Order" and must always present bill of lading properly endorsed, otherwise I must refuse to deliver goods to them.
 Your careful observance of the above will save you trouble, and myself the necessity of seemingly refusing to accommodate you.
 Respectfully,
 E. S. CARLISLE, Agent.
 Bennettsville, S. C., June 26, 1890.

BADAM'S
WILLIAMS
KILLER.
 The Greatest Discovery of the Age.
OLD IN THEORY, BUT THE REMEDY RECENTLY DISCOVERED.
CURES WITHOUT FAIL GASTRIC, CONSUMPTION, ASTHMA, HAY FEVER, BRONCHITIS, RHEUMATISM, DYSPEPSIA, CANCER, SCROFULA, DIABETES, BRIGHT'S DISEASE, MALARIAL FEVER, DYPHTHERIA AND CHILLS.
 In short, all forms of Organic and Functional Disease.
 The cures effected by this medicine are in many cases
MIRACLES!
 Sold only in Jugs containing one gallon. Price three dollars—a small investment when Health and Life can be obtained.
 "History of the Microbe Killer," Free.
