We see it stated in the papers that the California Fish Commission have procured a large number of black bass and turned them loose in the German carp infested rivers in the hope that they will destroy the carp. If they succeed we think our Fish Commission should get a lot and turn them loose in Pee Dee if they would preserve the shad and redhorse, which are fast becoming depopulated in this river, once noted for its supply of both, especially the redhorse, so much relished by our people. The carp will never become as popular as the shad or redhorse and the sooner we was a president after a long illness. people. His success was the salvation of our country from the despotic rule of ambitious and unprincipled demagogues whose only aim was to subvert the to aid them, to keep up the roads.

This is all wrong and a remedy has been suggested by one of our public spirited men and an enthusiast on this burning question of importance to the people of Marlboro. It is this, that a county convention of delegates from each township desiring better roads to each township desiring better roads to meet at Bennettsville and organize for co operation with the supervisor in putting every road in the county in good condition. The suggestion commends itself, and with such an organization complaints against the plowing ization complaints against the plowing ization
