Colleton county (places to be designated)-Sept. 4. The report of the committee was

adopted. The committee agreed to leave to the members of the committee from the

Seventh district the work of canvassing the returns and declaring the results. There was considerable discussion over a proposition by Attorney General

Bellingor not to assess the candidates anything so far as the county commissioners are concerned. He held that the assessments by both this committee and the county commissioners was tantamount to ruling a poor man out assessments, and there were contest expenses, newspaper advertisements, etc. He told something of the way the thing worked in his own experience. He warned the counmittee that this was leading to debarring any man who was not wealthy from every race for con-gross. He was opposed to leavy an unnecessary assessment.

Mr. Tatum agreed somewhat with Mr. Bollinger and Mr. Martin thought that the commissioners should make the assessments.

Mr. Appelt thought that several counties would need money. Mr. T. Y. Williams fayored Mr. Bellinger's motion. He said this power of

county commissioners was abused in many counties. Mr. Leo suggested that the success

ful candidate be required to pay \$500. Let the man who gets the honors and empluments of the party pay the ex

Mr. Appelt wanted to amond so that no' county could assess a candidate over \$50 each.

Mr. Bellinger said that the committee must decide not to make any as. sessmonts itself loaving it to the counties, or vice versa. Some counties did in the harbor here resulted in the death

to go into the second class car where Dr. Kilgo was seated and approached him in a courteous manner, as he was not angry and had no idea of having a personal encounter, and stated to Dr.

raoy.

it, but there was a way to do it.

ed him. Therefore, be it

tontion.

Kilgo that his letter was very unsatis factory. Dr. Kilgo said that his (Orawford's) letter was also unsatisfactory to him. Mr. Crawford then said to Dr. Kilgo that his attack on his father in the aforesaid speech was unwarranted and cowardly. Kilgo retorted: "You are the biggest coward in the State," whereupon Mr. Orawford struck Dr. Kilgo and several blows word passed before they could be separated by the passengers. They did not hurt each(other boyond a few slight bruses, and Mr. Crawford expressed sincere ro gret over the occurance, but felt that to be called a coward was an insult which should be rescated then and there. Dr. Kilgo was asked for a statement but declined to have anything to say about the matter. Mr. Crawford is a graduate of Trinity College and is well known

here. He is a prominent business man in Winaton Salom where he has residod for several years. He also is prominent in Church circles, holding several official positions in Grace Methodist church, of his town.

Who Is He?

The State received information of the accidental drowning at Pawloy's Island on Sunday week of a Mr. Dan Mc

Guinis, a machinist employed by the Atlantic Coast Lumber company, and the people of Georgetown are anxious to accrtain whether he had any relatives. Every effort has been made to locate the young man's people or his home, but thus far without avail. It is generally thought that he came originally from Boston. He had no papers that lead to his identity. The fatal ac-cident occurred on Sunday afternoon last about 3 o'clock. At that hour Mc-Guinis attompted to welk scross a narrow inlet between Pawley's Island. and of the race. The counties put on other the next one where the current is always very strong. The tide was too strong for him and he was swept under and drowned before anything could be done by his companions to save him. The

#### body was taken to Georgetown. Will Be There.

The New York State commission to the South Carolina Exposition has decided to creot a splendid building on one of the most favorable sites in the Exposition grounds. The plans accopted call for a structure 200 feet long by 60 feet wide and averaging 65

feet in height. The main entrance will face upon the river and the huge porch will extend out over the water. The architocture is in keeping with the gonoral design of the Exposition, the plans for the new State building being designed by Braaford Gilbort, the supervising architect. The style is old banish.

Fifteen Killed.

An explosion Wednesday of petroeum on board the American schooner Louise Adelaide, Capt. Orr, which left Portland, Mo., June 24 for Stookholm, not pay any election expenses. The counties inimical to a candid second assess him out of the race. If o un-tics were allowed to sec. Sales un-move to reconside or's crow and four Sweedish customs officials. Two of the crew ware saved. The explosion set the schooner affre and the blazing petroleum enveloped the vessel and those on board.

you will. What I want now is for you to pass the resolution and let all Demo-orats go forth labeled, so that they may be known to all." Senator Tillman here referred indirectly to remarks made carlier by Mr. LaFitte, having understood bin to say that he had re could not stand for the Kansas Oity platform should be allowed to run. That was the only badge of Damo-

Mr. Appelt said suppose a Demograt understood him to say that he had rewanted to go before the people and convince them that the Kansas City platpudiated the 16 to 1 plank. Mr. LaF.tto explained that he had

form is wrong; would they in this free country rule such a Democrat out? misunderstood and explained himself Mr. W. D. Evans said that the man fully on the point and disclaimed that who was elected to succeed Dr. Stokes he repudiated Bryan Democracy and would succeed a true man. If a man assorted that what he had said was could not take this eath he ought to go preceded by a statement that "if he the Spanish-American war, and hearwhere he belougs. He was sick and tired of the talk about what constitutes were a sound money Democrat" he would do so and so.

Democracy. If any man wanted to go Sonator Tillman thon said that to congress to succeed Stokes he musi man sent to congress by the Demobe a Demoorat-one about whose Demoeratic party should represent and not

oracy there could be no question. Mr. LaFitte said there were true and misrepresent the party. Another ra-dress that McLaurin had would be for tried Democrats in this State who would him and all his friends to ase all their stand here and proclaim that they would not swallow 16 to 1. All should efforts, legitimate and illegitimate, to scoure the election of commercial Dembe allowed to go before the people and ourats to the next State convention. I let them judge. We are all white peo-ple. If he had the congressman's job was for the people to be heard, and h tied his faith to the people. If the conin his pocket he wou'd take it out, vontion, perchance, could not be kept throw it down and stamp upon it betrue to Domocracy, then the people fore he himself would swallow 16 to 1 themselves could speak at the polls if he was a gold standard Democrat. in November and rectify the wrong. Dr. D.al said that this committee, he Mr. Tatum said he was from the

eventh district and favored the roso thought, had no right to pass the resoution. Any man opposed to 16 to 1 would never see the inside of the halls lution and Sovator Molaurin, would pay no attention to it, so what was of congress from that district. the use to waste time. Mr. Appelt wanted to know why not

'Sir: I am in receipt of yours of the 22ad instant, with reference to the criticisms upon you in connection with tily approve of your action under the circumst noes in asking at the hands of this department such 'action as will bring this entire matter under discussion under the elearer and calmer review of my brothers in arms." "The department will at once pro-

coed in accordance with your request. "Very respectfully, "John D. Long." wealth of possibilities.

Rear Admiral W. S. Schley, U. S. N. ACTED WITHOUT CONSULTATION. Scoretary Long acted without con-

ultation with any one and without land and enongh magnificent land uncommunicating the request of the ad miral to the president. He called into his office Rear Admiral Crowninshield planted to equal the present total output of the island. Fine forests of valand Capt. Cowles, chief and assistant chief, respectively, of the bureau of navigation, and also Judge Advocate uable timber, consisting largely of splendid native hard woods, including much mahogany, have never known General Lemly, who has charge of forthe ax and are only waiting for dovelopment to become a great source of malities of naval courts. He also sent for Admiral Dewoy. Although Rear Admiral Schley did not ask specially wealth. But Santiago's greatest riches are minoral; its vast deposits of oxide for a court of inquiry, but left the ac tion to be taken to the judgment of the of mangancese and high grade iron-oro are as rich as any in the world. There department, the secretary decided that such a court would be the best means are mountains almost made of iron which will run 60 per cent. to the ton when somelted. Lass is known about of making the investigation which the rear admiral had requested and the copper in the province, but I known three bureau officers were called in for enough to freely state that enormous doposits exist there. Besides this, Santiago province in general is good the purpose of discussing the mode of procedure in such cases. After his conference with Admiral Dewey, who had responded immediately to the farming land and offers magnificent agricultural opportunities to sottlers, It cannot he said that any part of Oubs secretary's request for an interview, the secretary said that he had not had has been throughly developed; indeed the island may be called a brand-new ime to decide upon the composition of the court, but in response to a quescountry. Of all the provinces Santiago tion as to whother Admiral Dowey probably holds the most of the undewould serve upon such a court, if reveloped wealth, its greatest resources juested to do so, the secretary said: being mineral.

Admiral Dowey will do his duty." Gen. Hampton Leaves.

On Wednesday morning at 11:30 o'clock over the Southern railway Gen. Wade Hampton left for the mountains, being bound for the famous Sapphire country. He was accompanied by his sisters, his daughter and his niceo. The general though feeble is holding his own remarkable well for one of his age. asphalt has not yet been tried for pav-ing, but will be in Habana. Tremen-dous deposits of asphalt, indeed, exist in many parts of the island, and there are probably many which have not been discovered. There are parts of Cuba, small as the island is, which have not even been prospected. As The Southern railway officials acci-dentally heard that Gen. Hampton was to go mountainward and at once the road tendered him the use of a private car for himself and party. Superin-tendent Welle's car was used and sent around to the depot on the train. Thus the trip up was made very comforta-ble. It was a compliment that the aged warrior appreciated.

Hans Jonsen, a Dane, recently appeared before the judge of the district court held in Garnett, Kan., to be nat-uralized. At the close of the usual ex-amination the judge asked the applicant: "Hans, are you satisfied with the general conditions in this country Does this government suit you entire-ly?" "YAS, yas," answered Hans; "only I would like to see more rain." said the Loo

"good and bad in Criban politics" as there was "good and bad in the poli-tics of any country. When people ory out that there are dishonest men in politics in Cuba," he added, "I wonder if they over recall to mind the fact that there have been dishonest men in politics at home." A home thrut, in-deed, but it has been made before with-out clearing the mouths of Cuba's search and the two the control of the cuba control of out closing the mouths of Cuba's cagor consors. Gen. Wood gave this attractive summary of the natural resources for the traveler in Cuba to fear violence of Cuba, resources certain to induce a than there is need for a man to expect great immigration, a great investment assassination on the most quiet and of capital and a great prosperity: No house will stand without foundapeaceful street of the calmest village in the United States. I should not hesitions, no countay can be prosperous unless that prosperity is built upon the tate"--this with emphasis--"to put my wife and baby into a volante (a two-God-given resources of fertility and wheeled carriage peculiar to the counrichness in the actual carth which

try districts) with only the driver, and forms it. Take Cuba, province by he unarmed, and send them over any road in Cuba. They might drive from province. What State in our own land here to Santiago in this way without giving me one qualm of fear that they would be molested by robbers or other lawless persons." Could there be shows a greater variety or a greater Santiago province perhaps offers the greatest opportunity of development in

mines, in coffee, in cacao. In this one stronger testimony than this? province alone there are immense undeveloped areas of the finest sugar-

Gan. Wood expressed himself as surprised to see in American papers con-stant reports of Cuban hostility toward the United States and pronounced them "certainly not true." "We have done," said, "all that we could do to meet any just and reasonable demands of the Cuban people, and they have certainly done a great deal to show their appre-oiation of what we have done."

It was predicted by the governor general that if the commercial and agri-oultural elements of Cuba would enter the struggle of polities and accept office a good government could be formed. He believed in and had advised, he said, the reduction of duties by the United States on Cuban sugar and to-bacco, and the Cubans would be more day. than willing to give corresponding and compensating reductions on American produts, affording to the United States

'a magnificent market for almost all manufactured goods, and for the sugar machinery." It was pointed out by Gen. Wood that the Cuban municipalities were be-ing assisted, but assisted out of Cuban

lunds drawn from' customs and inter-Puerto Principo is a good cattle counnal revenue taxes. "All of the expenses of the United States troops, as to the try. There is also much fine timber standing in, its southern part, and building of comps and barraoks and much entirely undeveloped wealth in the cost of sanitary work of the whole the way of copper and iron ores. As-phalt is another source of riches in this Cuban funds." This is a fact that is

province. Much of this esphalt is so fine that it is used not for paying but for the manufacture of varnishes. The asphalt has not yet been tried for pay-out money for Uuba's rehabilitation. The State.

#### No Negroes Wanted.

The 300 negroes imported from Alabama for work in the Latrobe Steel and Couplor works at Balleville, Ill., and whose arrival in that suburb has created a matter of facts there is actually room on this island for the explorer, and many surprises lie' in wait for coming generations. The eastern end of Santa Clara prov-ince is made up of wich thereas a coffee

halp the poor, to assist those who werd unable to stand alone, purely a char-itable thing, yet how many have with-drawn from our rolls; some by death, sheer invention; that there were no banditti whatever. On this point Gen. Wood said: "There is no more need a true man in every some of the word: True to his country, true to his con-stituents, true to the alliance and true to his God. Lot us ever chorish his memory. Now, brethren, let me thauk , you for having placed the mantle of or on my shoulders as your press and on retiring from this seat I want to

assist you in electing some brother who can and will I hope far surpass all that your humble servant has done.

The alliance devoted itstime Wednesday evening to perfecting its organiza-tion, electing officers, etc., and to a general discussion of the best plan for the reorganization and rejuvenation of the order throughout the State. Looking to the revival of the alliance Mr. Orosland proposed that the directors set aside a part of the interest derived from the alliance fund, now safely invested, and pay an organizer to work up sub-alliances. This plan met with opposition on the ground that the fund and interest was a trust fund and could not be used for organizing work. It was contended on the other hand that

it would be for the good of the order and the fund. The matter was freely discussed pro and con and the general disposition was to put an autive worker in the field and organize the State alliance to take setive hold of cortain business propositions. At this point the Alliance objourned over to Thurs-

A Narrow Escape.

The firing of a shell from the battleship Kearsarge into Nowport, R. I., Wednesday indicates oulpable carelessness somewhere. It is most fortunate that the shot did no further damage than to broak a few of the stones in the new city hall. It might have caused the loss of several lives and the destruction of much property. How the gun which sent it is shell came to be loaded and how it happened to be fired are mysteries to the public which will probably be cleared up vory soon.

Heat of the Sun:

Fred H. Hicks, a farmer who raises high grade poultry at his place on the banks of the Millstone river, near Wes-ton, N. J., came to the village store ton, N. J., came to the village store recently late in the afternoon, and told how the hot sun had acted as an inou-bator, driving one of the hens of her nest and then hatching nine little ohicks out of a dozen of eggs he had placed in the nest some days before. When Hicks told his story he was laughed at, but he stock to it and said that he could bring two of his farm hands to prove the truth of his words.

The eastern end of Santa Clara prov-ince is made up of rich tobacco, coffee, and grazing country. The middle of the province and its western end con-sist of fine sugar lands. Much of this province is entiroly undeveloped. Matanzas and Habana provinces are sugar lands with splendid tobacco plan-tations in western Habana. I need make no comment on the quality of those tobacco lands. Habana oigare and Cubau Stobacco are known and coabipped from one end.

# Senator Tillman said he hoped no one would attempt "to gag us here." Mr. Appelt disclaimed any such in-Senator Tillman then rose Ohis eyes flashing and his lips quivering with suppressed feeling. He said that in debate a short time ago a circumstance had arisen that led to the tender of the

resignations of McLaurin and himself. and all knew what followed. "Now we here in this room are either Domoorats or we are not. We are the repre-sentatives of the Domooracy. Had Mo-Laurin, had this man, cast his vote in the United States senate in accordance with the will and dusire of the people of this State? Who will days stand up here and say that he has does of But I know something about He has
