Several deaths have occurred which are attributed to the worm in the cabbage. Who knows whether the shipped cabbage has them or not? Examine what you buy and keep a lookout for these worms.

Three Months -OR- During the War!

TALKING IS CHEAP! We often say things in an Advertisement which are evasive. **But seeing is believing!**

If I can't **SELL** you Furniture *Cheaper* than any *House in Bennettsville* I will make my competitors sell at prices *not* to their liking. Note my advertisement in the other paper.

I claim to be selling some lines at cost, and the balance of my stock at greatly reduced prices, and I know these prices are lower, *very much lower*, than others are selling at.

I think I can suit you as to Quality. If I do not have the article you want, I will order it at 10 per cent above cost and show you the Invoice.

I mean business and don't forget it!

Ideas in Millinery are realized in Hats. Our display of FALL AND WINTER MILLINERY never loses its attractiveness. The collection is kept up to a high standard of excellence in beauty and quality. New creations, more charming perhaps, take the place of Hats which have been selected. White and light colored felt are shown in great variety. Their lines are softened with quills, braests and pom-poms, together with the draped scarf of silk and broad ribbon.

Mothers Read This.
"We hope that all the mothers of our community have read the advertisement of Dr. Moffett's teething powder (Teethina) that has been appearing in this paper, as it comes to us highly endorsed by the best people of the land who have used it.
Teethina is not a patent medicine but a favorite prescription of Dr. C. J. Moffett who graduated at Jeffersons Medical College, Philadelphia, Pa., and has had much experience in the treatment of children, and his Teethina becoming so popular he was forced to abandon the general practice to devote his time to the manufacture of these powders that have saved the lives of thousands of children. - It is claimed that nothing equals them for the irritations of teething and the summer troubles of children of any age and no mother with small children should be without them.
