Teething is not a patent medicine but a favorite prescription of Dr. C. J. Moffett who graduated at Jefferson Medical College, Philadelphia, Pa. and has had much experience in the treatment of children, and his Teething becoming so popular he was forced to abandon the general practice to devote his time to the manufacture of these powders that have saved the lives of thousands of children. It is claimed that nothing equals them for the irritations of teething and the summer troubles of children of any age and no mother with small children should be without them.
