NO. 45.

ON THE RIGHT LINE.

Judge Parker Makes Trust and Corporation Corruption the Issue.

THE REPUBL'CANS W. RRIED

Because All the Big Trusts Have Con tributed Liberally to Their Campaign Fund as Charged

by Parker. A dispatch from Washington says It is understood there on good authority to be the serious intention of Judge Parker to have the Democratic managers make the paramount and closing of trust and corporation corruption in publican national committee. So many favorable comments have been made on the sprech delivered recent ly by Judge Parker, in which the trusts were charged with contributing heavy sums to the Republican campaign that they might be benefitted by the continuation of the Republi-can party in power, that Judge Parker has come to the conclusion that the country is aroused to a high pitch over what appeals to him as nothing more nor less than the purchase of immunity from a great political

party.
That speech has created consternation among Republicans in Washing. ton and elsewhere, and is regarded by persons close to the president as furnshing an issue that may in the last few weeks of the election change the entire tide of affairs, as now running The notorious fact that nearly every great trust and corporation in the country has contributed heavily to the Republican campaign has never been so authoritatively and powerfully emphasized as in the arguments presented by Judge Parker. At the same time his bold utterances give the lie to the recently circulated story that the Standard Oil and other big interests have lately put up much money to the Democratic national committee. It is admitted here by Republicans that what promises to be damaging to them is rapidly spreading information, which was not ac cepted for a long time as accurate, that all the trusts and corporations have made peace with the administration and will support Roosevelt.

To offset this the literary and news-paper headquarters of the Republican committee have been deliberately giving out s'ories that the Standard O.l people have put up money for use in the close states in the last few days. The fact that this is false is shown in the personal support of Roosevelt by bional bat ..., ol'New Ye the City Na tution owned and controlled by the Standard Oil people. President Stillman is one of the men who lunched with the President durir g the summe and who came out for him. As Stillman is the banker for the Standard Oil interests the story is regarded here as being a clum-y attempt to deceive the people, as Judge Parker states the Republicans have done all along on the trust question.

ALL ONE PEOPLE.

from a Chicago Paper.

The Chicago Tribune makes this

admirable saying: There are some Northerners who roow more about Germany and about Italy and perhaps about "the roman-tic and picturesque Balkan peninsula, than they do about Georgia and South Carolina, and Texas. Conse-quently, they show more sense when tuey are talking about lese majesty, or about the temporal power of the Pope, or about Turkish oppression than they do when they are talking about the right of the negro to vote. It is so easy to think that just besuse you live in a country you must issue of the campaign on the question understand it. The Southerner and the Northerner are fellow citizens. They owe all eglance to the same flag.

> to settle the negro question. The fallacy in this logic is that be cause of the presence of the negro the social condition of Charleston, S. C., d ffers from that of Boston, Mass., more than that of Boston, Mass., dif-fers from that of London, England. row cell she screams out: And a citiz n of Boston gets on better in London than he does in

Charleston. The negro question is greater than any other question in America. And it is not only greater but more delicate. It is a matter of social as well as of political and industrial life. So, more than almost any other question that could be imagined, it needs per-

sonal experience. The occasional negro of the North is not an adequate basis for studying the pegro of the negro rule.

Therefore, Northerner, if you have niac, and a mere ikeleton. time and money to visit new scenes, visit the South. Some of your fe'. lows have gone to the South and have |" lived there for a few years. They don't feel now quite as you do. See if you can find out what it was that known to modified their opinions.

Go South and watch the descendants of Washington, Madison, Jackson, Marshall, Jefferson, Clay, Cal-tigress in human form to escape legal houn, Polk, and Lee while they, bone execution. of our bone and flesh of our flesh, are working out, with errors of mind and with errors of heart, but with American pluck and hope, the greatest domestic problem that ever ate into the heart of a civilized people. Come back, and if you still think that they are wrong you will say so in a differ-

'That is said in a truly American spirit and its tone should pervale the whole land. What a pity that we have not, at this especially opportune lime, at the head of the nation a mar with this catholic view of his coun-

Goes for Roosevelt.

But now the wisdom of the insanity experts and of the courts has its fair

right to consideration. Nature, through God, in its own way, is working a punishment more terrible than m diavial torture could have devised up in this woman, who dared to violate one of the great Ten commandments:
"Thou shalt not kill!"

Day and night she is living over the crimes she committed.

Sometimes the wing in which she is

confined is aroused at night be placed in the bar and the Fire, fire."
It is Jane Toppan in her cell imagining that some one is setting fire to the bed on which she is sleeping.

Four times she set fire to houses where she was living-at Professor Wilson's, in Cambridge, in the hope that the shock and excitement would kill weak, sickly Mrs. Wilson. But this plot failed. Again at the Dakin cottage, at Cataumet, on Cape Cod, she started a blaze in a closet to destroy aged Mr. and Mrs. Alden P. Davis. This attempt also failed, so she poisoned both of them a few weeks later. On two other occasions she is tims roast.

others are trying by burn her alive. Week by week Jane Toppan is growing weaker as her crazed mind is acked by torments.

Within the last week the physicians at the asylum have c me to think she cannot live the year out. Nearly every day or night she

breaks out with some new phantom of One night she alarmed the patients and attendant; in the no:th wing

with frantic cries of-'Help, help-doctor-they're poi soning me.' When a nurse reached her cell Jane Toppan was dashing round the smal room with padded walls, fighting off

some imaginary assailants. 'See," she mouned to the nurse, "see how Minnie Gibbs has put mor phia into my arm," and she bared her arm to the shoulder. The blood was dripping from it where she had scratched it with her own finger nails

'saturated with the filth of years;' the water supply (which is taken from an artesian well) was 'polluted with sewerage;' the vegetables were 'rank polson." She spoke rather to the People About It. inxiously atout a general feeling of numbness, and asked what was the cause of it. She was entirely inaccessible to explanation, argument, or

even positive proof as to the impossibility of her statements. Occasionally she would burst out unexpectedly with peculiar and piercing shrieks of laughter which would seem impossible to one in her weak condition.

Many of her indiscriminate and senseless charges seemed to be rather the expression of an insane malignity toward every one than the outcome of genuine belief that they were true. But we were, at the same time, convinced beyond a doubt that she was also suffering from strong and genuine delusions of persecution by poisoning, be ause her belief in this regard so con istently influenced her conduct that her refusal of food had practically reduced her to a skeleton, and repeated forcible feedings had no effect in changing her convictions. Her persecutory ideas vary in strength from time to time, but the delusions of suspicion from which they spring remain unsbaken.

coffee and every glass of water, is

poisoned. She can see the spectres of her victims hovering over her and dropping the poison into these things just as did not rob me of the right of a citishe used to do to them.

One of her favorite methods was to dissolve an atrophia tablet in a glass of mineral water and hold it up smilngly as a draught of health.

When Jane Toppin was first committed to the asylum she was permitted to mingle with the other mildly became more frequent and she broke forth into violent tirades against the other patients and the hospital attendants, she was removed first to the inirmary and later to a secluded cell in the north wing. The windows have gratings and it is in reality a prison.

"I saw them all last night," she said one morning this week when the nurse came to her room with a tray of crust, c. ffee and bread. What do you mean Jane," asked

the nurse, as she noticed the unnatural brigatness in Jane Toppan's hollow,

"Why, all the people I have killed " concert the woman said to said the transfer of the pearing perfectly rational." They all and I concert she is so pretty"-and here the harberself, she went on:

demented creature fell back upon her cot in a paroxyi m of insane fear.

Jane Toppan is paying the penalty of her crimes by Nature's or God's own law in a way that is an apalling coral object le son-that no one can take human life, even if he escapes punishment of human law, without suffering the most awful tortunes to the end of his or her own wretchd exstence.

Summary of Cotton Ginned.

A bulletin issued by the census oureau gives a summary of the reports on cotton gianed in the United States in the present year up to October 18 shows a total of 426,883 running bales, as against 292,669 running biles re-Arkansas, Georgia, Louisiana, Mississippi, Missouri, North Carolina, South Carolina, Tenne see, Texas and Virginia. Georgia makes the largest showing with 34 counties and 196. 744 bales, as against 117,139 bales last year. The number of ginneries from which reports were received is 2,411, as against 2.342 for 1903. A ginnel. The total number of counties from which ginning was reported in 1903 was 812, and the number of

MINING DISASTER.

From Thirty to Sixty Men Tost Their Lives by Explosion.

IN AN IRON MINE IN COLOR ADC.

The Women and Children Had to be Led from the Mine to Provent Their Being Killed by Fumes.

From 30 to 60 man lost their live in a territic explosion which occured at mine No. 3 of the Rocky Mountain The aerial performance attracted the attention of thousands of persons who cheered almost continuously as afternoon. The exact number of dead boiles will be consumed. A large number of mine officials left there as tube that forms one side of the base soon as word of the accident was reoccured. He returned Friday night and gave the following account of the

affair: "I was standing not more than 300 yards fron the mouth of the tunnel when the explosion occurred. "The explosion was preceded by a

low rumbling sound, resembling an earthquake, which made the earth tremble and startled the neighbor-

"I looked toward the mine and out of the mouth of, the tunnel and two air shafts came a great volume of smoke and dust which continued for nearly a minute. Out of the two air. shaft, each of which is seven feet in diameter, timbers that were fully two to three feet in diameter were shot into the air and broken into splinters. Rocks were thrown over the camp for a distance of a quarter of smile. In fact it rained rocks, broken timbers and all kinds of debris for fully a minute and many people were injured by

being struck with these missiles. "The explosion, which resembled a volcanic eruption, caused the wildest excitement. Men, women and children rushed to the mouth of the tunnel and women whose husbands were n the mine had to be brought away by miners to prevent their being killed by deadly fumes coming from the

mouth of the tunnel." The mine in which the accident occurred employes 80 men and it is believed that at least 60 were in the for the world's fair \$100,000 prize, ploston brought assistance the exto convince the residents of St. Louis to convince the residents of that he and the world's fair vistors that he had an airship that could fly.
