The massacre of the Jews at Bialystck the first of last week must have been something awful. The correspondent of the New York American visited all parts of the town, taking evidence from both Jewish and Christian residents. Here is what he says:

The massacre was essentially offi-The police, military holligans and the Black Hundred played subordinate roles in ever case. At a period when a mass of butcheries occurred the police and soldiers either actively assisted or encouraged the butchers.

There are many autenticated cases of soldiers themselves perpetrating slaughter. In the Byare district, where the worst massacres occurred, the soldiers of the Ugiitsky, Sixty. third Regiment, accompanied by two cfil sers, massacred seven Jews at Gep ner's saw mill. Full details of this tragedy were given me by the surviv ing manager. Ween the soldiers were occup ed with looting, their victims sought refuge in a small wooden hou: on which at 6 o'clock on Friday evening the soldiers fired suddenly

-Many Jaws of this district, especialgirls, b came insane. The officers ordered the inmates to come out one by one. Five of them were shot dead as they emerged from the house and six were hacked to pieces by sabres. One remained in the nouse, an old woman named Kautsch, seventy years of age, and the soldiers burned the house and she perished in the flames.

In other cases the soldiers were merely onlookers. In Souvoroff streets a prosperous Jew named Podlatcheff kept a leather workshop. The proprietor, his relatices, named Firstmapp, and six others were slaughtered I inspected the dabbled with pools of blood and fragments of flesh and hair are sticking to the walls. Firstmann was the first killed. He was s lot by a gendarme named Schultze. Then the Hooligans stripped the corps; carved pieces out of the breast

and drove nails into the nose. Four frightened employes took shelter in an outhouse the Hooligans broke it open and beat them to death. The soldiers locked on, and the Hooligans were unmolested. The young son of the proprietor was saved by the sol-

Outside this house I saw a younth wearing the blood-stained clothes of a s aughtered mother. In many cases whole families were exterminated.

I visited a house in old Boyare death by Hooligans underthe command of a disguised police officer while soldiers were present. At first the soldiers fired into the house and a police man ordered the family to save themselves in the fields. Throughout town for two days the massacres continued. Fiendish tortures and nutilation of the corpes invari ably followed the masacres with active or passive co-operation of authorities In many cases the polica tacibly auth rized the buthery by ordering the Hooligans to spare particular individuals. I interviewed two person who escaped by bribing the soldiers. One girl, living on Alexander street, after her father had been bayonnetted, paid a soldier 20 roubles that she might be

The complicity of officials, soldiers and police has been established by uncontrovertable evidence, and will unquestionably be confirmed in the official report. the massacre was planned days in advance. For instance, when the Jew-ish deputation on Tuesday saked a police officer named Sheremeticff for Massacre of Jews by the Offimamed Dergatchoff, Sheremekieff cynically answered, "You'll get an answer on Thursday," which was the first day of the killing. Dargatchoff was a clever and humane man, be loved by Jews and Christiaus, His murder by the Jew batters gave his

> LAID TO THE GOVERNOR The Governor of Grodno Province is equally guilty. He arrived Thursday evening and stayed only two nours. He did nothing to stop the massacre, and worse violence follow ed his visit. The appointment by the Duma of an inve-tigating c m mission caused a cossation of slaugh

ter. The small proportion of wound ed to killed shows the impurity with which the murderers were allowed to finish their victims. Some of these were thrice killed by bullets, knives and oudgels. Every ravaged house I visited shows that the raiders were left in possession for hours. A re markable feature of this messacre is the absence of outrages on the women. Though thirty were killed, there is no authenticated case of outrage discoverable. This is explained because the Hooligans and troops got their orders only to "kill."

The precise number of deaths can not be learned. There are eighty-six dead now in the Jewish hospital and seven in the Christian hospital, but the corpses of those dragged from the train and killed were buried without being counted. The material des truction is enormous. In four important streets nearly every window, door and shutter is broken, except in the Christians houses. Many of the wealthier Jews escaped, owing to the iron gates of their court yards, but the soldiers fired through the windows. In one house I saw thirty rifls bullet holes in the windows, though there was nobody within save an old lady and a woman servant.

The houses into which the mob broke were litterally destroyed. Even the wallpaper was tora down The rioters stole everything portable; even children's toys were smashed. The heavy furniture and the unsmashable things were thrown out of the windows. The merchants' account books were burned, and only the bare walls were left.

In a bakery, where the owner was killed, the mob soaked the loaves of bread in a pool of blood, leaving behind an ironical note. In Levin's mill, where Christians and Jews work together, the mobbites cut the cloth and yarn belonging to the Jews leaving the Christian's yarn untouched. It is estimated that the loss will amount to two million roubles. The relatives of the victims have been deprived of everything and are afraid to re-enter the houses. They are begging in the streets of the town.

#### SENATOR TILLMAN

Will Not Call on the President Until He Apologizes.

"I have been insulted there once and I do not propose to place myself in this position again if I can prevent it." tor from South Carolina. The unpleasant difficulty a few years back between Senators Tillman and McLaurin, and the subsequent withdrawal of Tillman's invitation to the reception at the White House to meet Prince Henry, then paying a visit to this country, are still fresh in the minds of the people who have fol lowed Senator Tillman's career sinc

he entered the senate. There is no notion on the part of Senator Tillman of bringing about a reconciliation with the chief ex cutive, unless such reconciliation is ac companied by an unconditional apolo gy from 'he president, and as there is little probability of this, the matter of a love feast between them is still in the air.

Those who know Senator Tillman well, know that nothing short of an apology will satisfy him. While the president is credited with having recently said that he liked Senator Tillman, and while the senator is likewise quoted as having made a statement to the effect that he believed the president to be straight, and all right, these are taken only as pa-sing remarks, made without serious conideration, and hardly worth romem pering. The utterances of Senator Tillman that he would not allow him self to be again insulted, are believed to represent his real feelings toward the president. Walle he admits he is as ready to forgive a man-whether he is president or a private citizenfor a wrong, he is not willing, accord ing to his own words, to place him self in the attitude of being wilfully insulted a second time, even though that man be the president of the United States

It was this same Mesfewi who was

to have been crucified for his tremen-

It would have been better had these same (ficials not interfered with Moroccan justice, for Mesfewi pefore he died underwent lingering torture compared with which cruci-

fixion would have been merciful. THE ARCH-MURDER'S CRIMES.

Mesfewi was a cobbler and public letter writer. Associated with him in his crimes was an old woman seventy years of age named Annah. Many girls of the city disappeared in the last days of April and the parents of one young woman traced her to the cobbler's shop. Annah was put to the torture and confessed.

She told that the girls, who came to dictate letters, were treated to drugged wine and then beheaded. Twenty decapitated bodies were found in a deep pit under the shop

and sixteen more in the garden. Annah died under the torture and patch. Mesfewi confessed. By an ancient Moorish custom he was condemned to or crucified.

His crucifixion was set for May 2, but this form of punishment was given up because of the foreign clamor, and it was announced that Mes fewl would be beheaded. His death by the still more awful process of imauthorities "blinded the eyes" of the foreigners.

Mestewi was kept in the Marakesch iail until outside attention was dulled, and then, on May 15, his torture

Daily he was led into the market place and whipped with switches of the thorny accacia. The cobbler was stripped to the waist, and while two assistants held the victim's arms outstretched, the city executioner laid son of Charles Muth, who with his on the spiked rods. Mesfewi was very thin and these dimensions gave the doomed man quite a free pace and some little air, for just as his fellow townsmen would not let nim slip away by too much flogging, 15 is reported that the trouble arose so they did not intend to smother him too quickly.

About turce feet up two staples with chains were fixed in the back of the recess in the wall and two more staples with chains were attached. The purpose of these was to keep the victim erect so that he might not huddle down out of sight of the

crowd. Mesfewi had not been told of his fate and when he was brought ort of the prison on Monday morning he thought he was being led forth to his daily whipping.

ABOUT COTTON SEED.

Some Worderfu' Uses to Which They Are Being Put,

The recent meeting of the Ootto eed Oruchers' association, at Atlanta 3a., brought out some interesting facts in regard to the ases of cotton seed, both for domestic and export purp ses. Governor Terrell, who was in early life a cotton grower, said that he remembered well when cotton seed was burned to get rid of it, but last year there were 4,500 000 tons of cotton seed bought from the Southern planters and the sum of \$75 000. 000 was paid for them, thus adding practically 25 per cent. to the value

There are probabilities of still further developments in the use of cotton seed which will increase the value of that product. Prof. J. H. Con nell, of Texas, in speaking of cotton seed meal as human food made striking presentation of its value for such uses. He gave a good lesson in the shape of biscuits and cakes made from a combination of cotton seed meal and wheat flour. They were pronounced as delicate and tasty as any product of the flour barrel by the members of the convention who were given an opportunity to partake ( the food. Another use of the seed that for fertilizer in the shape of meal
