Mr. Chairman, Mr. Mayor, Governor Ladies and Gentlemen:

It is very gratifying to be welcomed to this great Southern State, thi typical and representative Stare of the South, so gordfally by the representatives of your city and your chie! executive.

I appreciate the kind words which they have spoken. I am afraid, now ever, that it is going to be very d'm oult for me to measure up to the big! opinion that they have expressed. am glad I am young for I will have longer time to endeavor to justify their good opinion You have done a much for me in the past and been a loyal to the things which I havestoo for that you have an unlimited depoit in my bank, and can draw on it whenever you require it. I shall come here whenever I can help you and i as in the part, you do no need any help, I will come here whenever you can help me. (Lughter And you can he'p me by giving me encouragement, or giving are nope, by giving me inspirat on.

I appreciate the gathering of this im mense crowe before me. "He did no mention his name, but he told then to vote for the best man and every body knows who that is." (Laughter)

When I have tried to be non parti san I have not always su cloded; but today I am not going to ary. I think you are a good deal as they were at a school house, back in '84 DAs I went in the house, a little school house, one of the D moonth whispered to me. "Hit 'em hard, there is not a Repub lican here." (Laughter) It was his idea of a good meeting (imughter) But I had a splendid obance to say a I wanted to say. TRIBUTE TO CHRISTIANITY

My trip around the world has been an instructive one, it has given me great encouragement. I was gled that this meeting was opened with prayer I have been a member of the Caris tian church since I was 14. I hope I have grown in grace, as ency say. I think I have learned to appreciat the Christian ideal more than I ever did before, for I ave seen the need it in the Orient, and I have returned with the belief that what they need in the Orlent more than anything else is the Ohristian ideal that will give them a conception of life worth living up

When in China they to'd me that they were living up to the Confuctous ideal, and that in our country we are not living up to the Christian ideal, and I told them that a man could fall short of the Obristian ideal and yet live on a much higher plane of an i man who lived up to the Confucious ideal. It is the glory of cur concep tion of life, the Christian ideal, an while it is within sight of every one it is beyond the reach of any to entirely fulfill it.

I was glad to find everywhere that democracy was growing. Damocracy means the rule of the people Wahave not visited a land but we found there evidence of growth of the democratic idea. Nothing more impresses one than the fact that there is not a na tion on earth where its seed has not been sown in places where it is not now making progress. Even in Tur key, the most backward of all those nations, a man was talking to me one day on the boat—the next day he sent me apologies because he did not talk longer. He said that he had some re form ideas, that he was under susp'e ion, that he saw a spy watching him when he was talking to me and he was afraid to talk any longer. They are talkir g reform everywhere, are working toward the Democratic ideal. It growing in this country will speak of this growth after a

I come to bring you words of en couragement in regard to the ultimate triumph of these ideas to which you have stood ac steadfastly.

Before I do that I want to dwell a litale while on a subject that has been brought before the Southern people by one of the members of the cabinet, Secretary Leslie M. Shaw, who is vis iting North Carolina, making tariff speeches, especially in districts where fend. He explained the foreigners they have small Republican majortties. I thought it worth while to call attention in the South to the speech he made, and to show how completely this speech proves to you all we contend for on the tariff question. Secre tary Shaw is one of the leading Republicans, that is, he is one of the leaders in one branch of the R publi Cau party.

REPUBLICAN PARTY DOOMED.

The Republican party is divided, and it is dividing more and more. I know what it was for Dame crats to be divided, I want to say to you who suffered terribly while that division last ed, I want to say to you who walke with fear and trembling through the valley of the shadow of death that the division brought about -- we have passed through it and our party is now united, and unit don the right side. (Applaus.) The Republican party is just entering that valley of the shade won death (Laughter) And it has to go through the same process we did. Our fight was an internal one higher price, and he mentioned sevto decide which would control the Democratic party, the voters or the corporations. That was our light, and won by the people; and we are going

SHAW CONTRADICTS HIMSELF. When a man gats through defendng high tariff he contradicts himself so often we are reminded of the felow who was travelling through the mountains - he said that he travelled road so crocked he often met himell coming back. Now after they sectare that they annually sold four millions abroad cheaper than at home ne forgets s'l about it and makes the statement which I am now going to read to you (Ar Bran read extract from Mr. Snaw's speech.) He sais in one pace we annually sell abroad four millious a year at a much ower price than at home, but in the same speech tells you that on one undred and twenty million - thirty lines as much—we give a draw back f 5 per cents., so they can sell cheap-

ar at home. They either do it, or don't do 1t. They either sell chesper abroad han at home or don't sell it cheaper. If they do not we have given them 5 per cent. to enable them to do what? For them to put money in their pockats and collect from the oreigner unless they practice fraud on the treasury department or they de sell 30 times as much abroad as Scc-

He can take whichever side he pleases, whichever side he takes it eaves him in a position he cannot deare selling here cheaper than at nome, and estimates he is selling on in average 15 per cent cheaper in his country than they do in Europe.
