A stopped Watch
 One that will not go AT ALL—does not cause as much bother as one that runs now fast, now slow, in an erratic fashion.
 The first you don't pretend to depend upon—the other is a constant source of annoyance.
 Most people can afford a watch, but no one can afford an uncertain fast and slow one.
 And when our repair department is so close at hand there is really no excuse for carrying anything but an accurate timepiece, no matter what the first cost was.
 Consult us about any watch troubles that may arise. We guarantee work.

 Horses Do Get Sick.
 When a horse and mules are poor it is not always and indication that they do not get enough to eat. Many ailments, just like human beings, have indigestion of the system is all run down and a tonic is needed. It is not the amount of food eaten that makes muscle and fat. More depends upon the proportion or assimilation of the food has yet been discovered. Nothing has a horse or mule better than Ashcraft's Condition Powder, as the only remedy in its class sold under the name. Ask Mr. Smith Newton, Bennettsville, for it—the kid put up in doses.  THE NEW YORK WORLD
 Thrice A Week Edition.
 The Most Widely Read Newspaper in America.
 Time has demonstrated that the Thrice A Week World stands alone in a class. Other papers have imitated its form but not its success. This is because it tells the truth, impartially, whether that news be political or otherwise. It is in fact almost a daily at the price of a weekly.
 In addition to news, it publishes first-class serial stories and other features suited to the home and fireside.
 The Thrice A Week World's regular subscription price is only \$1.00 per year and this price for 15¢ papers. We offer this magnificent newspaper and the Democrat together one year for \$1.67.

Killed by Lightning
 During an electric storm Monday afternoon at McColl, lightning struck the residence of Mrs C. E. Whitaker and killed her daughter Lillian and severely injured her sister.
 Mrs Whitaker is a daughter of the late M. C. Webster, the noted millwright, and once a resident of this town.

THE LIMIT OF LIFE.
 The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period, that determines its duration, seems to be between 50 and 60 years of age. The body during this decade cannot be too strongly urged; carelessness than being fatal to longevity.
