THURSDAY, DECEMBER 13 1906

Let us stop kicking at nothing and kick at something.

A cotton seed oil mill established here the sequence is a cotton mill.

The Conway merchants will do as well by traders as the merchants of any other place.

There is lots of work to be done for Conway during the next twelve months, and it is up to the business men of Conway to do it.

Every little bit helps, then let us have the cotton seed oil mill. The farmers are willing and what say the business men of Conway? It seems to the Herald that the proposition is up to them now.

The future of Conway is indeed bright, but, then, faith without work is dead. You, business man; you citizen, pull off your coat, roll up your sleeves and show your faith by your works.

There is no county in the State that is so rich in natural resources than is Horry. Fertile lands, progressive people, excellent educational and religious advantages the home seeker can find no better place on God's green footstool than Horry in which to pitch his tent.

In unity there is strength and with all elements of our population united for the common good of our county and town there is no logical reason why our country cousins should not be more prosperous and the business of Conway more than double itself during the next year.

Do you know that Conway has a back country, say in round numbers, of 30 miles in every direction from which to draw trade? Why not the business men of Conway make an effort to bring the trade of that territory here. This will be THE work of the Board of Trade when organized.

A board of trade (or chamber of commerce) pulling harmoniously together with the city fathers, the board of internal improvement and the board of health, reinforced and strengthened by the individual efforts of the citizen, will produce results for the betterment of Conway and Horry over which we can all rejoice.

If the only object of the organization of the business men is to shake its gory finger and rattle its dry bones at some poor unfortunate who is too poor to pay his honest debts or too mean to do so, then the organization might as well put up its shutters, lock its doors and throw away the key for all the good it can do toward the development of Horry and the future of Conway. There is a more important work for them to do and the business men of Conway are just progressive enough to undertake this work and keep hammering at it until the desired end is accomplished.

ORDINANCE.

There is real pleasure in chewing the best tobacco grown where the best tobacco grows—in the famous Piedmont country

CHEW WHAT YOU KNOW ABOUT

Only choice selections of this well matured and thoroughly cured tobacco is used in making SCHNAPPS. That's why SCHNAPPS and other of the Reynolds' brands, as shown by the Internal Revenue statistics for a fiscal year, made the wonderful growth of six and one-quarter million pounds, or a net gain of one-third of the entire increased consumption of chewing and smoking tobaccos in the United States.

Made from thoroughly cured leaf grown in the Piedmont Tobacco belt

Schnapps

Has less sweetening than imitations

Evidently, chewers cannot resist the flavor and they cheer SCHNAPPS because SCHNAPPS cheers them more than any other chewing tobacco and every man that chews SCHNAPPS passes the good thing along—one chewer makes other chewers—until the fact is now established that there are many more chewers and pounds of tobacco chewed, to the population, in those States where SCHNAPPS tobacco was first sold than there are in the States where SCHNAPPS has not yet been offered to the trade.

AND KNOW WHAT YOU ARE CHEWING

SCHNAPPS is like a cup of fine Java coffee, sweetened just enough to bring out its natural, stimulating qualities. SCHNAPPS pleases all classes of chewers: the rich, because they do not find a chew that really pleases them better at any price; the poor, because it is more economical than the larger 10c. or 15c. plugs and they get their money's worth of the real snappy, stimulating flavor so appreciated by tobacco lovers. All imitations contain much more sweetening than SCHNAPPS. They are made that way to hide poor tobacco improperly cured.

For the man who chews tobacco for tobacco's sake, there is no chew like SCHNAPPS.

Sold at 50c. per pound in 5c. cuts. Strictly 10c. and 15c. plugs.
