

Local and Personal

W. F. Stackhouse, of Marion, was in Conway the middle of last week on his way from his farm in Socastee township. He was travelling by automobile.

The greatest determination of any people on earth lies with the American soldiers. We knew this long ago, and it did not have to be proved by the fighting in Europe which has already taken place and put thousands of Germans to rout. The Germans are nothing but a set of cowards at last, as everything will finally prove. And let's not forget that the Horry soldier boys are the bravest among the brave "over there."

D. H. Russ was called home one day recently by one of his children to kill a mad dog that had been discovered near the house and evidently bent on mischief. Mr. Russ made quick work of the animal.

R. M. Brown, one of the best farmers of Socastee township, visited Conway on last Wednesday.

Dr. G. I. Lewis was at Aynor last week on professional business.

Never ask a favor of a friend unless you are obliged to do it. Asking favors of your best friend has a tendency to turn him in to an enemy.

J. W. Luper, formerly of Marion County, now a citizen and farmer of Horry, visited Conway last week on business.

One of the best things for the Horry farmer is the wheat crop. Let thousands more of the farmers get in line this time and make a record crop for harvest next spring. This same wheat will help win the war.

Many of them appeared in Conway at an early hour ready to undergo the examinations. The board is composed of Dr. H. H. Burroughs, member of the local exemption board, and Dr. J. A. Stone and Dr. A. D. Lewis. Last Friday was a dark rainy day.

L. L. Holmes, of Hammond, S. C., spent some time in Conway on business one day last week.

It is bad enough to have to buy and use flour that is partly that and partly something else. It is good when the farmer has it of his own. How will it be if it should become impossible to buy flour, even adulterated, before the war is over? All this should cause the farmers to plant wheat and grind their own flour. Then they will have the pleasure of using the real article and starvation will be a long way from the door. If some can be raised for the neighbor who perhaps cannot plant wheat, it will be that much the better.

LOST—One cow, light yellow, with little darker head. Tennessee holstein Jersey, butt-headed, medium size, unmarked, about 5 years old. Anyone finding same will please notify me. W. E. Benton, Allsbrook, S. C., Route 2, Box 47—adv.

John T. Duncan is in the race again this year, and there is hardly anyone who can tell why he is.

MAKES GOOD SALES.
Harrison Rowell last Friday sold 738 pounds of leaf tobacco at the price of 41 cents, making one of the best sales of the week considering the quantity in the lot.

NOT YET TESTED.
The city water has not been passed on by the chemists. The first sample sent off some time ago was evidently lost in transit as Dr. Parker writes the Board of Health that he never received it.

Another sample taken from five different points in the city went off last Friday and as soon as this has been analyzed the report on it will be sent in here. The people are advised not to use the water for drinking purposes until the board of health says that it is perfectly safe.

TOBACCO SALES END THIS MONTH

The tobacco sales continued heavy all last week, except as prevented by rainy weather, at all of the tobacco warehouses at Conway; the farmers bringing the weed in quantity and getting very high prices for all that they brought. Thursday of last week was a good day at the warehouses, the quantity sold being large and the prices very good. The day was rainy from about noon until late in the evening making it inconvenient for the farmers in that respect.

The statement was made last week that the sales would continue until late this month. The bulk of the crop is being cured and brought in rapidly ever since the season opened and there would not be enough to keep the warehouses running after that date.

Mr. and Mrs. J. W. Sparks went to Columbia recently to visit their daughter, Mrs. Morrell. Mrs. Sparks is now visiting friends and relatives in North Carolina, from where she will go to Baltimore on a business trip. Mr. Sparks returned to Conway Tuesday.

There were frequent showers of rain last week, making the atmosphere damp and full of moisture. The rain the first of last week, in some sections interfered with the handling of the tobacco crop.

GROW WHEAT.
While the present price of flour compared with the prices of other farm crops may not be a convincing argument to sow wheat in cotton and tobacco-growing districts, yet the fact that you may not be able to buy flour at all, as has been the case in a few instances, and that you are limited as to quantity purchased and then cannot buy a 100 per cent wheat flour, should be a sufficient argument to make every farmer endeavor to grow enough wheat to meet his own demands and some to spare. To be sure of growing enough for this double the acreage you think necessary to grow enough for home consumption so as to provide against bad seasons or other mishaps next spring.—Progressive Farmer.

WILLIAM H. LONG GONE TO REWARD

Long Life of Great Usefulness Has Come to an End

LOVED BY NEIGHBORS
CHERISHED BY FRIENDS

Active in Religious Work
Almost to the Very Last Year.

William Hickman Long died on Wednesday July 31st, 1918, at the hour of 4:45 in the afternoon. He was born on December 6th, 1833 and was in his eighty-fifth year at the time of his death. He was interred at the Bellamy cemetery in Simpson Creek township on August 1st, 1918, in the presence of a large number of relatives and friends. He was a member of Conway Lodge No. 65, Ancient Free Masons, and the interment was carried out according to the rites of this ancient order. He belonged to the Ebenezer Methodist church of which he had been a faithful member for many years, and was superintendent of the Sunday School for a period of forty-seven years, being absent only twice in that time on account of sickness. He was remarkably active for his age, until about December 11th, 1917, when he was taken sick with the illness which finally caused his death.

He is survived by eight children as follows: Mrs. Nancy M. Hardee, wife of W. L. Hardee; George M. Long, Mary P. Stevens, wife of L. D. Stevens; Ella F. Bellamy, W. L. Long, Mrs. Sallie E. Gore, wife of D. B. Gore, Emma L. Bellamy, wife of D. O. Bellamy; J. Hiram Long.

He served in the civil war as a faithful and devoted follower of the Southern cause. He is entitled to the distinction of being one of the best citizens Horry County ever had. He was known far and near as a peace maker—one for which the people would send in case of any trouble. Many a case of typhoid fever was nursed back to health and strength by him without a cent of pay or other earthly reward. The children of the Sunday School where he taught so long showed how he was loved by the people. They met him and flung their arms about his neck. No more useful man ever lived and died among a people.

In his last days he seemed to have already entered into a higher state. Many times he spoke of the angels about him.
