BANKS CAN HELP CROP SITUATION

Commissioner in Alabama Tells How the Banks May Do This

SHOULD EXTEND FARMERS' CREDIT

After July First Farmers May Sell at Profit if Acreage is Reduced.

There may yet be some cotton farmers who are ignorant of the true situation regarding the price of their product. Some of them doubtless think that the low price is due to one thing while others think that it is due to entirely different causes. Some of them will doubtless fail to carry out what is the sensible thing to do under the conditions as they now exist.

There is much information contained in a circular letter, or statement, recently mailed out by M. C. Allgood, Commissioner of Agriculture in the State of Alabama. In the State of Alabama the boll weevil has caused the cotton farmers to reduce their cotton acreage and to plant other things in place of cotton. The weevil has been in existence there for many years, so long that farmers have forgotten how they use to depend on cotton. Mr. Allgood has the matter figured out, we believe, in a truthful and actual fact way.

Among the facts that he states are the following: From 1892 to 1898 cotton sold for from four to six cents and at that time southern farmers planted cotton to buy the necessities of life. The farmer bought his supplies at high prices and gave the merchant a mortgage that he failed to pay and thus the cotton farmer ran on the credit system. To remedy this, country banks were organized so the farmers could obtain cash and trade at cash prices. He then changed from a credit to a cash system and has been able to pay the banks until the crash came in 1920. Some people are blaming farmers for not selling their crops. They should not be blamed for this because they should not be expected to sell what they have raised at less than what it cost them to produce it, unless obliged to do so. Cotton at one time in 1920 was selling at around 40c per pound. This caused about five million bales to be placed on the market and this brought the price down to twelve cents; and if the remaining eight million had been placed on the market at the same time cotton would now be bringing as low as five cent per pound. With five cent cotton now we would go into this coming fall market on a five cent basis also, and again experience times like those of the nineties. As the banks relieved the farmers from the furnishing system they can now avoid the bankruptcy of all the farmers in the South. They can do it by extending farmers' payments until July 1st, at which time the Government Acreage Report is made. If the Report shows that the acreage has been cut throughout the south from forty to fifty per cent then cotton will go up and farmers can well on an advancing market. If the report shows but small cut in acreage, the banks can force the farmers to sell for whatever they can get as it will be good policy to sell the old cotton before the new crop comes in. Continuing the report says:

In 1914 many farmers were ruined because they could not be financed. Those that were financed sold 1914 cotton for twelve cents in 1915 and were saved. I rejoice that there has not been a bank failure the past season in Alabama, and I am as desirous as the bank officials, stockholders and depositors that this record be maintained, and I believe if the banks of the south would unite on a policy of absolutely not lending

money to farmers to grow cotton this year, and agree to force sale of cotton after July if reduction is not forty per cent they can save the south from five cents cotton, or they can call loans now and drive cotton down to five cents and this would certainly help reduce the acreage but would break thousands of farmers. It looks like the bankers and farmers cooperating can save the day or with bankers calling loans now or with farmers refusing to reduce one-half throughout the entire south there is destruction now and hereafter.

BANKRUPT SALE

By virtue of the Order of the Court duly made in the matter of R. C. Anderson, Bankrupt, the undersigned Ed L. Smith, as Trustee of said Bankrupt estate, will sell at public auction to the highest bidders for cash at eleven (11) o'clock in the forenoon on the 4th day of March, 1921, at the R. C. Anderson store at Horry, South Carolina, all and singular all of the stock of merchandise of R. C. Anderson consisting of various articles usually carried in a general store, including all of the furniture and fixtures used in and about the said store.

Terms of sale cash. ED L. SMITH, Trustee of R. C. Anderson, Bankrupt. Dated February 17th, 1921.—Adv. 11

SALE UNDER EXECUTION AND ATTACHMENT.

By virtue of an execution issued upon the judgment rendered by the Court in the case of J. W. Carter Company, Plaintiff, against J. E. Harbour, Defendant, and dated October 2nd, 1920, and by virtue of a Warrant of Attachment issued before that time in said cause and duly levied by me upon all of the following property:

I have levied upon and seized all of the property of the Defendant, J. E. Harbour, and will sell at public auction for cash before the court house door at Conway, in the county of Horry and state of South Carolina, within legal hours of sale, on salesday in March next, it being the 7th day of said month, the following described property, to-wit:

First: All that certain tract of land of 500 acres, more or less, on the northeast side of Lumber River, in Horry County, South Carolina, bounded north by Coleman Worley land, east by Gardine Floyd, south by Jas. Battle land, and west by said Lumber River; being the same tract of land conveyed to J. E. Harbour by W. L. Bryan, Clerk of Court of Common Pleas, September 1st, 1919, excepting, however, from the above stated boundaries twenty-five acres thereof conveyed to J. R. Battle by the Defendant on December 2nd, 1919, and also one hundred and twenty-five acres thereof of which he conveyed to H. J. Floyd, December 2nd, 1919, as will more fully appear by reference to the records of Horry County.

Second: All and singular, all of the certain timber which was conveyed to the Defendant, J. E. Harbour, by W. A. and M. A. Prince, by deed dated July 10th, 1917, and recorded in Book C-4, page 215, records of Horry County, said timber being on 135.73 acres of land in Green Sea Township.

Third: All and singular the following described personal property: 40 head of cattle.

J. A. LEWIS, Sheriff of Horry County. H. H. WOODWARD, Plaintiff's Attorney. Dated February 15th, 1921.

MORTGAGE SALE.

Under and by virtue of a chattel mortgage executed and delivered to George J. Holiday by J. B. Jones, dated May 29th, 1920, I have seized and will offer for sale to the highest bidders for cash at the place or places where the property is now located near Aynor, South Carolina, at eleven o'clock in the forenoon on Saturday, March 5th, 1921, all and singular the following personal property, to-wit: One (1) mule, one (1) bay mare, seventy-five (75) bushels of corn, one half (1/2) bushel of peas, two hundred and fifty (250) pounds of fodder, five hundred (500) pounds of seed cotton, twenty-five (25) bushels of cotton seed.

J. A. LEWIS, Agent of Mortgagee. Dated February 16th, 1921.

The Quinine That Does Not Affect the Head Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the nature of E. W. GROVE. 30c.

MAIL ORDERS

Send us your orders for printing by mail, being sure to enclose a copy of the work you want done and giving an idea of the kind of paper, unless you wish to leave this item to us. All mail orders will get prompt attention and printing will be shipped as soon as it is finished.

Why waste time washing and re-washing your hands? Get a package of Kernelgrit at the Herald office and see how it cuts the dirt.

PALMAFESTA GIRLS PARADE

Band and Governor and Staff to Lead Auto Parade of County Candidates.

The big feature parade of Palmafesta week in Columbia, March 28 to April 2, will center around the young ladies now being chose to represent their respective counties in the state-wide contest for Queen of Palmafesta. A flower-decorated automobile will be provided for each county in the state, the name of the county being worked out in flowers in the decorative scheme. In these cars will ride the 45 young women representing the 45 South Carolina counties.

The Palmafesta Association has just closed a contract with the world-famous Scotch Kilts band of 45 pieces. This organization will lead the automobile parade of county delegates for Queen, and will furnish two programmes of music daily during the big week. The governor of South Carolina and his staff have been invited to participate in this parade.

With every county in South Carolina now actively interested in selecting a delegate in the Queen Contest, and with more than 50 daily and weekly newspapers printing the voting coupons, the Palmafesta Association is planning for the biggest get-together week in South Carolina's history. \$10,000 will be spent in decorations and in equipping the State Fair grounds and buildings, and more than \$25,000 in amusements and other special features. One specially designed fireworks set piece, the Battle of Fort Sumter, which is part of the historical display to be put on by the International Fireworks Company of New York, is to cost more than \$1,000.

FARM CROPS

Stable Manure Supplies Many Plant Food Elements and Adds Humus to the Soil—Calcium Should be Applied

Howard Eldridge, Porterville, New York, writes as follows: "I am a farmer living in Erie county, New York. The soil raises very good crops in everything excepting wheat and oats. The average yield of this grain for the past few years has been fifteen or twenty bushels to the acre, as compared to fifty bushels to an acre a few years ago. How can this land be improved?"

The principal plant food elements are nitrogen, phosphorus, potassium, and calcium. These are necessary for the production of crops. If any one of these elements is deficient, it will mean that the crop production will be lessened. Continuous cropping without rotation, combined with poor cultivation, is bound to result in decreased yields.

The nitrogen can be replenished by growing leguminous crops, such as clovers, cowpeas, soy beans, vetches, etc. Also, by applying stable manure, or plowing under a legume as a green manuring crop. By doing this you not only supply nitrogen to your soil, but you improve its physical condition by adding vegetable matter.

Very few soils require potassium. This is especially so of sandy soils, although if the soil is not in good physical condition, the potassium may not be available, but if you supply the vegetable matter either in the form of green manure or stable manure, it will tend to make the potassium available.

It may be necessary to supply phosphorus in the form of a commercial fertilizer, which may be done by using finely ground phosphate rock, providing the soil is in the proper physical condition. The phosphate rock will cost you only about half as much as contains practically twice as much phosphorus as acid phosphate. The best way of handling rock phosphate is to spread it in the stables with the bedding or to scatter it on the manure pile. The decaying of the stable manure will tend to render the phosphorus available.

The other principle element, which is especially important if you expect to grow leguminous crops such as clover and alfalfa, is calcium. This may be supplied by the use of finely ground limestone rock. The need of calcium is shown by the presence of horse sorrel, and the failure of legumes to grow.

There is another way of determining the acidity of the soil or the lack of calcium by the use of litmus paper, which may be purchased at any drug store. Place the moist soil around the litmus paper for ten or fifteen minutes. If the blue paper is turned to a pinkish or reddish color, it will indicate that your soil requires lime. Finely ground limestone may be applied at the rate of from one to eight tons to the acre,

NOTICE OF SALE.

Under and by virtue of a decree and judgment of the court made by His Honor S. W. G. Shipp, Presiding Judge, in the case of W. F. Strickland, Plaintiff, vs. H. C. Suggs, et al., Defendants, and dated the 8th day of February, A. D. 1921, I, the undersigned, W. L. Bryan, Clerk of Court of Horry County, will sell at public auction to the highest bidder before the Court House door at Conway, in Horry county, and State of South Carolina, during legal hours of sale, on salesday in March next, it being the 7th day of said month, all and singular those certain lands situate in Horry county, and described as follows, to-wit:

All that certain piece, parcel or tract of land containing seventeen

(17) acres, more or less, in Green Sea township, Horry county, South Carolina, and bounded and described as follows:

On the north by lands of the estate of J. W. Floyd on the east by lands known as the J. W. Floyd and Sam Strickland lands; on the south by lands known as the W. P. Sarvis land; on the west by lands of Miss Mett Suggs (sister of H. C. Suggs); this land being the land where H. C. Suggs now lives and has his home, and is divided from the public road leading from Tabor, N. C., to the Sandy Bluff Road.

Terms of sale cash. Purchaser to pay for papers. Conway, S. C., Feb. 11th, 1921.

W. L. BRYAN, Clerk of Court of Horry County. H. H. WOODWARD, Plaintiff's Attorney.

Habitual Constipation Cured in 14 to 21 Days

"LAX-FOS WITH PEPSIN" is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It stimulates and regulates. Very Pleasant to Take. 60c per bottle.

APPLES ARE SUCCESS IN ABBEVILLE

Clemson College. — As an illustration of success in the Piedmont with apples on a small scale, the experience of Mr. F. E. Ellis, Level Land, Abbeville county is very interesting. In the winter of 1908, Mr. Ellis set 20 Pinson and 40 Yates apple trees of his own propagating. During the last five years he has sold from these 60 trees \$1,040 worth of apples, besides having used an ample supply in his home and having fed culls to hogs. For home use he has had apples nine months in the year, so well do his varieties keep in his section.

From two of the Pinson trees Mr. Ellis sold in 1919, \$65 worth of apples. He sells his product on the local market, not having yet been able to supply the local demand.

INDIGESTION OR UPSET STOMACH

"Pape's Diapepsin" is the quickest, surest relief for Indigestion, Gases, Flatulence, Heartburn, Sourness, Fermentation or Stomach Distress caused by acidity. A few tablets give almost immediate stomach relief and shortly the stomach is corrected so you can eat favorite foods without fear. Large case costs only few cents at drug store. Millions helped annually.—Adv

Piles Cured in 6 to 14 Days

Druggists refund money if PAZO OINTMENT fails to cure itching, blind, bleeding or protruding Piles. Instantly relieves Itching Piles, and you can get restful sleep after the first application. Price 60c.

GASOLINE SYSTEMS

Oil Tanks and Pumps, Air Compressors, Computing Scales, Floor Scales, Show Cases, Account Registers, Rebuilt Cash Registers, Safes, Store Fixtures.

MONUMENTS

SHOULD BE LASTING MEMORIALS TO THE ESTEEM IN WHICH WE HELD OUR LOVED ONES

IN SOLID STONE

Highest perfection of the stone cutter's art. I can furnish you something to last through the ages.

PRICES ARE REASONABLE

Therefore get my prices and terms and see my specimens before you buy your monuments or headstones from any other agency.

I REPRESENT THE CHEROKEE MARBLE and GRANITE WORKS of Ball Ground, Ga. Will delight in showing you prices and terms at any time.

Charles Dusenbury

Conway, S. C. 1/13/17

Plan for Profit

YOUR prosperity during 1921 depends upon growing your crops at the lowest cost per pound or bushel. This means that every acre must produce more pounds and more bushels.

The crop yield is in proportion to the plant food supplied, so be sure you supply plenty of plant food.

The increased yield from the liberal use of Swift's Red Steer Fertilizers bring you a large profit. Buy now.

Swift & Company

(FERTILIZER WORKS)

Atlanta, Ga. Charlotte, N. C. New Orleans, La.

Pure, Rich Blood Will Keep Your Body Vigorous and Healthy

When impurities creep into your blood the first symptoms are usually a loss of appetite, followed by a gradual lessening of energy, the system becomes weaker day by day, until you feel yourself on the verge of a breakdown. Nearly everybody needs a few bottles of S. S. S., the great vegetable blood remedy, to cleanse out all impurities about twice a year. It is an excellent idea to take this

precaution to keep the system in a vigorous condition so as to more easily resist disease to which every one is subject. S. S. S. is without an equal as a general tonic and system builder. It improves the appetite and gives new strength and vitality to both old and young. Full information and valuable literature can be had by writing to Swift Specific Co., 156 Swift Laboratory, Atlanta, Ga.
