

CLUB PRIZES ANNOUNCED

Clemson College.—First and second prizes in corn, peanut, cotton, pig, and calf club work and certain special prizes, the total amounting to \$795.00, are being offered to members of boys' agricultural clubs in this state this year, according to announcement by L. L. Baker, supervising agent of boys' club work, who has just completed the prize list. This list of attractive prizes is made possible, says Mr. Baker, through the liberality of bankers, fertilizer companies, seed houses, livestock associations and others who believe in the great value of club work. Below are the prizes and donors.

Corn Club Prizes.
1. Gold watch (value \$50.00) W. H. Mixon Seed Co., Charleston; Twenty-five dollars, Geer Drug Co., Charleston.

2. Twenty-five dollars, H. G. Hastings Seed Co., Atlanta; One ton 8-3-3 fertilizer, Ashpoo Fertilizer Works, Charleston.
Special prizes for largest yield on one acre regardless of cost. One ton 8-3-3 fertilizer, Planters' Fertilizer and Phosphate Co., Charleston.

Peanut Club Prizes.
1. Fifty dollars, H. G. Hastings Seed Co., Atlanta; Half ton 8-3-3 fertilizer, Ashpoo Fertilizer Works, Charleston.

Cotton Club Prizes.
1. One hundred dollars, Soil Improvement Committee, Atlanta.
2. Twenty-five dollars, H. G. Hastings Seed Co., Atlanta; One ton 8-3-3 fertilizer, Ashpoo Fertilizer Works, Charleston.

Pig Club Prizes.
1. Twenty-five dollars, Geer Drug Co., Charleston; One ton 8-3-3 fertilizer, Ashpoo Fertilizer Works, Charleston.

2. Twenty-five dollars, S. C. State Bankers' Association; Eastman Kodak, Lanney's Art Store, Charleston.

Special Prize, for best record with Duroc-Jersey pig. Fifty dollars, American Duroc-Jersey Swine Breeders' Association.

Special Prize, for best record with Poland-China pig. Twenty-five dollars, Shuler Bros., Vance.

Calf Club Prizes.
1. Twenty-five dollars, S. C. State Bankers' Association; One ton 8-3-3 fertilizer, Ashpoo Fertilizer Works, Charleston.

2. Twenty-five dollars, Geer Drug Co., Charleston; Half ton 8-3-3 fertilizer, F. S. Royster Guano Co., Columbia.
The South Carolina State Bankers' Association has contributed \$400.00 to promote club work and \$350.00 of this will be spent in training the team and paying its expenses to attend the Southeastern Fair in Atlanta, Ga., Oct. 19-21, to take part in the International Club Judging Contest.

SOIL IMPROVEMENT PAYS

Clemson College.—Some people who are more interested in the sale of commercial fertilizer than they are in soil improvement would have the farmers of South Carolina believe that it is impossible economically, to solve our nitrogen supply for field crops by means of legumes; but some of our best farmers are proving, beyond a shadow of a doubt, that it can be done, says N. E. Winters, Extension agronomist, who cites the experience of Mr. Wade Drake, a leading Anderson County farmer.

By means of the systematic use of summer legume catch crops of velvet beans, soybeans and cowpeas for plowing under, and of winter cover crops of rye and vetch, oats and vetch, and crimson clover for hay and green manuring along with the use of ground limestone to go with the legumes and organic matter, combined with the intelligent use of commercial fertilizer, Mr. Drake has consistently increased his yields of corn, cotton, oats and wheat, for the last ten years. This has been done on soil which ten years ago was no better than the average soils of the Piedmont section of South Carolina, having an average yield of less than one-half bale of cotton, eighteen bushels of corn, twenty bushels of oats, and ten bushels of wheat.

As a result of soil improvement methods Mr. Drake's yields of these crops during the last three years have averaged about seventy bushels of corn, six bales of cotton, over fifty bushels of oats, and over twenty bushels of wheat per acre. In 1920 Mr. Drake applied nitrate of soda at the rate of 600 pounds per acre in a strip through his corn field to see what the effect would be. This was done at the suggestion of S. M. Byars, county agent, who had suggested to Mr. Drake that he was wasting money in the use of nitrate of soda as a top dressing for corn with his methods of farming. Three of us went over this farm in August, 1920, and it was impossible to tell where the nitrate of soda had been applied.

The reason for this is perfectly simple. By means of large amounts of organic matter, Mr. Drake has filled his soils with humus, which is holding a large supply of nitrogen for the use of growing crops, and there was no need for nitrate of soda in this case. We have other examples in South Carolina almost as striking as this one which will prove the fact that we can produce crops much more economically than we are now producing them if we will give more attention to soil improvement.

The "Liberty" Age.

Liberty day is usually thought of by Americans as July fourth and Liberty year is recalled from our histories as 1776, but statistics indicate that the liberty year of men and women differs. The average age of men seeking divorce is thirty-four and the average age of women on the same quest is twenty-nine.

S. S. ASSOCIATION HAS BIG JOB

York, S. C.—The great big job of the South Carolina Sunday School Association is to interest people in Sunday School work—to bring the attention of the people to the importance of the Sunday School in every way possible. Hundreds and thousands may be reached through the state fair and the county fairs that are to be held this fall and for that reason an exhibit showing Sunday School conditions and progress throughout the state will be given by the South Carolina Sunday School association at a number of fairs including the state fair in Columbia this fall.

"This exhibit," says Leon C. Palmer of Spartanburg, association general superintendent, "will include samples of the best work done by each department in the Sunday School. Sunday schools of all denominations are invited to participate in the exhibit. Samples of new methods for Sunday school work together with the best modern supplies will be exhibited.

South Carolina is said to be one of the first states in the country to have exhibits at state and county fairs showing Sunday school progress. Charts will be displayed, showing the condition of Sunday school work in the various counties and the relative efficiency of the Sunday Schools. An expert Sunday School worker will be in charge of the exhibit prepared to explain any feature to those interested. Literature showing improved Sunday School methods will be distributed.

SELECTING AND CONDITIONING BIRDS FOR THE SHOW

Clemson College, S. C.—The fall shows are coming. Are you going to take your birds to the poultry show room and bring home the blue ribbon? If not, why not? asks N. R. Mehlich, poultry specialist, who advises that there is ample time to get the birds in good condition for exhibiting purposes, and that the preparation for the show consists in selecting, conditioning, training, washing, and cleaning.

Too much stress cannot be laid upon selection, which should take place very early in a chick's life, the earlier the better. With every selection one is able to develop and mature the birds for the show room with greater certainty and uniformity. The birds should be typical of the breed and variety according to the Standard of Perfection and should have no indications of disqualifications.

Conditioning deals with the birds while they are in training quarters when they are fed for growth and maintenance, and for the development of healthy feathers, appendages of good color, and strong, vigorous, robust health throughout the body. The adults should be cooped about six weeks before the show, and the younger stock put in about two weeks later. Hard grain mixtures are fed, for they tend to keep the digestive system active and in good condition. Mashies are fed sparingly. Training requires patience and care. To be a winner the birds must be well trained so that they will show off their good points, when the judge is around. In training, punks friends with the birds, so they won't be frightened, teach them to hold a pose, and handle them often so they will be accustomed to the manner in which the judge will handle them.

One of the simplest and most effective methods of washing and cleaning is as follows: First wash the feet and shanks with warm soapy water and then do the same with the wings, heads and combs. These parts should then be thoroughly dried with a soft cloth, especially the head parts. A little application of oil will greatly improve the texture and condition of these parts. In washing the plumage secure three tubs. In the first tub, with water 98 degrees F. and very soapy, the birds are thoroughly washed, soaped, and cleaned. In the second tub, with water somewhat cooler and without any soap, the birds are rinsed and all the soap removed. Then place them in the third tub, which contains a speck of bluing and allow the water to penetrate to all parts of the plumage. Remove the birds from this tub, and squeeze the plumage as dry as possible, and then stroke in the direction that the feathers are to dry.

Place the birds in a room with a temperature of 96 to 100 degrees F. and have them in coops that are clean and well supplied with clean shavings. It will take about 24 hours for the birds to dry. Sometimes it is necessary to fan the plumage to hasten drying. Select strong shipping coops, thoroughly cleaned and disinfected, large enough for the birds to have a good supply of fresh air and so that no parts of the plumage will stick out of the coops. Fasten securely, address to the secretary of the show, and send by prepaid express.

Muskellunge Gamest of Fish.

Well named the Tiger of the Fresh Water, the muskellunge is today the most sought after big game-fish of the country. Anglers do not feel that they have graduated in the science of fishing unless they have scored at least one of these giant pike to their credit. Their range is limited to the northern, northeastern and central sections of the country, where they are each year, according to statistics, steadily increasing in numbers. Farm Life says.

SOUGHT TREASURY'S HELP IN FINDING HIDDEN WEALTH

Man Sent to Washington For Locating Instruments When Gold Was Lying Within His Grasp.

Extraordinary demands for information and assistance are continually being made upon the Treasury Department, but seldom have the members of the department been more thoroughly helpless to comply than with a request from Copeland, Kansas. The letter asks for unflinching processes of locating hidden treasure and reads:

Treasury Department, Washington, D. C.
Dear Sir:
I would like to get some information in regard to your Treasury Locating Instruments that will locate buried treasure and etc.
Can a person obtain these instruments of you people and if so, please send me a catalog and the circulars of them and please send me also your Treasury Book of Hidden Treasures. Please send it at once.

This communication finally was turned over to the director of the Savings Division of the Treasury. "It is perfectly true that hundreds of millions of dollars in hidden treasure exist in the United States," he said. "But it is the money which is hidden in teapots, and under mattresses and in old

socks. The only way to locate this treasure, uncover it and make it of use to its owners and to the nation is to inculcate in the people of this country knowledge of safe and profitable investment."

The savings securities of this government, issued first during the war and continued since that time, have done more to uncover hidden treasure and make it profitable and useful than all the diving rods and treasure maps, collected since the days of Captain Kidd. The best instrument to secure treasure that the writer of the letter could find are \$1 Treasury Savings Stamps bought regularly every week. So he really went to the right shop for his information after all and the United States Treasury was able to supply both the information and the instruments needed.

habitual Constipation Cured in 21 Days

LAX-FOS WITH PEP-SIN is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It Stimulates and Regulates. Very Pleasant to Take. 60c per bottle.

666 cures Malaria, Chills and Fever, Bilious Fever, Colic and LaGrippe, or money refunded.—adv.

Church Directory

Conway Baptist Church, Myron W. Gordon, Pastor.

Services every Sunday.

Sunday School Exercises 10 a. m.

Morning worship and preaching 11:15 a. m.

Evening worship and preaching 8:15 p. m.

Prayer meeting services every Wednesday evening at 8:15.

Strangers and visitors cordially welcomed to all these services.

Kingston Presbyterian Church, J. M. Lemmon, Pastor.

Services every Sunday morning.

Sunday School at 10 a. m.

Morning worship and preaching at 11:15 a. m.

Prayer meeting services Tuesday 7:30 p. m.

We welcome one and all to our services.

Conway Methodist Church, J. C. Atkinson, Pastor.

Services every Sunday.

Departmental Church School 10 a. m.

Bible Class for men only 10 a. m.

Morning worship and preaching 11:15 a. m.

Evening worship 7 p. m.

Prayer meeting services Wednesday evening 7 o'clock.

Welcome extended to everybody to attend all services.

To Stop a Cough Quick

take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues.

A box of GROVE'S O-PEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup.

The healing effect of Hayes' Healing Honey inside the throat combined with the healing effect of Grove's O-Pen-Trate Salve through the pores of the skin soon stops a cough.

Both remedies are packed in one carton and the cost of the combined treatment is 35c.

Just ask your druggist for HAYES' HEALING HONEY.

Rub-My-Tiam is a great pain killer. Relieves pain and soreness, Rheumatism, Neuralgia, Sprains, etc.—Adv.

How's This?

HALL'S CATARRH MEDICINE will do what we claim for it—cure Catarrh of the Head caused by Catarrh. We do not claim to cure any other disease. HALL'S CATARRH MEDICINE is a liquid, taken internally, and acts through the blood upon the mucous surfaces of the system, thus reducing the inflammation and restoring normal conditions. All Druggists, Circulars free. F. J. Cheney & Co., Toledo, Ohio.

COPY

SUMMONS FOR RELIEF (Complaint Served) STATE OF SOUTH CAROLINA, County of Horry.

Court of Common Pleas, Virginia-Carolina Chemical Company, a Corporation, Plaintiff,

vs. C. B. Dusenbury, Southern Life & Trust Co., a Corporation, J. W. Holliday, and Burroughs & Collins Company, a Corporation, Defendants.

TO THE DEFENDANTS ABOVE NAMED:

You are hereby summoned and required to answer the complaint in this action, of which a copy is herewith served upon you, and to serve a copy of your answer to the said complaint on the subscriber at his office at Conway, S. C., within twenty days after the service hereof exclusive of the day of such service and if you fail to answer the complaint within the time aforesaid, the plaintiff in this action will apply to the Court for the relief demanded in the complaint.

Dated August 17th, 1921.

H. H. WOODWARD, Plaintiff's Attorney.

To Southern Life & Trust Co., Absent defendant:

TAKE NOTICE That the complaint in the foregoing stated action and the Summons of which the foregoing is a copy were filed in the office of the Clerk of the Court of Common Pleas in and for Horry County, at Conway, S. C., on the 30th day of August A. D. 1921.

H. H. WOODWARD, Plaintiff's Attorney.

W. L. BRYAN, (I. S.) C. C. C. P.

NOTICE OF DISCHARGE

Notice is hereby given that the undersigned J. M. Horn, as administrator of the estate of J. L. Horn deceased, will apply to the Judge of Probate in and for Horry County at his office at Conway, S. C., at 11 o'clock in the forenoon, on the first Monday in October, next, for a final discharge as such administrator.

Dated Sept. 1st, 1921.

J. M. HORN, Adm'r., of J. L. Horn, Deceased.

Out of the more than 5,000,000 Ford cars in use about sixty per cent have been sold to farmers. Probably no other one thing has brought to the farm so much of comfort and profit as has the Ford car. It has enlarged the social life, doubled the facilities for marketing, brought the town next door to the farm, multiplied for the farmer the pleasures of living, and by the token the Ford touring car has brought just as much pleasure to the residents of the towns and cities, because it is an every day in the year utility, answering the demand of quick transportation at low expense. A family car without an equal in low cost of operation and maintenance. We solicit your order for one. We have the full line of Ford cars. We carry the genuine Ford parts, and assure you the best in mechanical service and the most reasonable prices.
