Chairman Irby has rendered valuable services to the Democratic party in the last campaign and election and has managed the matters with excellent care and perfect impartiality. By his watchfulness and forethought white supremacy in South Carolina has been saved and the blessings of a white man's government has been secured to the people for a long time to come. The last hope of the whiskey ring and the reckless political time server has departed, and the free white people of this State can live without dread of their baleful influence.

WILL RELIEF COME?

The result of the last election is affording food for reflection and the people of the South have lit-spirit or inclination, either to mourn or to rejoice. Republicanism has been tried and failed to satisfy the country, and Democracy has been given a fair trial, and the people of the United States have just repudiated it and gone back to seek relief at the hands of the Grand Old Party. Mr. Cleveland led the party to victory, but had not the wisdom to profit by it and secure the blessings expected by his triumphant hosts. He lost the opportunity, the only chance, which he or any other Democratic leader will ever have to establish the principles of Democracy and make them perpetual in the laws of the land. It is a great pity that he allowed his evil spirit to blind him to the possibility of making his name illustrious in the history of the country, as a true patriot and benefactor of his people, but he forgot his followers and neglected to redeem his pledges. He has two years yet, but he is powerless to save the party from inevitable destruction, should he repent and try to retrieve the losses to the Democratic party.

Mr. Cleveland was warned of the certain result of his policy and his disregard for the distress of the country, and will have little sympathy in his humiliation and disgrace. The defeat and ruin of the party is a severe rebuke to him and may afford his enemies inside the party a good opportunity to upbraid him and to remind him of his selfishness and petty tyranny, but there is little consolation in the thought that Cleveland has pulled down the Democratic temple on his own head and is among the slain.

His outrageous abuse of the federal patronage and his other modes of controlling legislation and defeating the will of the people will cause the suffering and toiling millions to hate his memory, but what hope have they for a change in their condition through Republican management of governmental affairs. The local interests and election will engage the attention of the people of the South and for a time will divert their minds, but the truth must come home to them that relief through national channels will be long delayed if it ever reaches them.

THE ELECTION.

The Republicans have swept everything before them in the national election, having both branches of the national legislature. Their majority in the House will be 112, not counting the contestants who will evidently be seated by the Republican vote. In the State it will take the official count to satisfy the extreme conservatives, that the convention has carried. There is no longer doubt that the majority for convention will be at least three thousand. Evans is elected governor by a handsome majority and the official count will silence Pope the remainder of his life.

In the county the official count is as follows:

For Congressman.
A. C. Latimer, 735
Robert Moorman, 32
H. H. Evans, 32
For Governor.
J. G. Evans, 718
Sampson Pope, 174
For Lieutenant Governor.
W. H. Timmerman, 725
Other State Officers, 746
County Officers, 779

Convention.
Yes, 518
No, 408
Total number of votes cast, 970.

Cotton Seed for Hogs.

Many of us can remember when hogs were fed on cotton seed, boiled and also the supposed disastrous effects from their use. As our people have been discussing the use and value of cotton seed of late, we give one more suggestion from a correspondent of some paper. He makes a strong case in favor of feeding them to hogs:

"Contrary to prevailing opinion, cotton seed, if properly mixed with other food, so as to make a properly balanced ration, is the cheapest hog food we possess and perfectly safe. They are to be found on every farm, and are now being sold at one-half their value considered as a stock food, as compared with the market value of corn. There is an abundant crop of sweet potatoes, which can neither be marketed nor preserved to advantage. Cotton seed and sweet potatoes mixed in proportion of one of the former to three of the latter, and boiled together, will give a hog food superior in every respect to corn and absolutely safe.

"To those not having potatoes and using corn as a sole fattening ration, I would suggest to mix cotton seed and corn bushel for bushel and grind together or cook.

"Fed according to either method, every bushel of cotton seed is worth to the farmer as much as a half bushel of corn, or at the present price of corn 35 cents per bushel, while their present market price is less than half."—Cotton Plant.

From Liberty.

The Old Folks Musical Association met at Liberty Baptist Church Sunday Nov. 11th. Notwithstanding the inclemency of the day, the crowd was very large, far beyond the expectancy of any. The church was filled to its utmost capacity, besides a large number outside. The singing was grand, and all seemed delighted. The next and last meeting of the association for this year will be held at Cross Roads church the fourth Sunday in Nov. 25 at 9 a. m. All who have not availed themselves of the opportunity of attending the association are respectfully invited to meet with us. By order of Association.

J. M. PORTER, pres't.

E. J. PRINCE, Sec.

Alfred B. Shepperson, the well-known cotton statistician and author of cotton facts, has given his opinion as to the probable size of the cotton crops and the future of prices. He thinks the estimate that the present cotton crop will amount to over ten million bales has no basis, although the crop will be a large one. He thinks there is no evidence that the average is any larger than in 1890 or the weather condition more favorable. He thinks that the tendency to reduce acreage next year will cause cotton to go back to eight cents in the spring, after the farmers have sold all their crop.

ROLL OF HONOR.—Tyler Moore, Andrew Anderson, Edward Thayer, B. D. Garvin, A. L. Pace, Daniel Mills, W. C. Martin.

The above is a list of the Journal subscribers who paid during the second week in November. We will continue to publish the names of those who pay, and each week we hope the list will grow. At the end of the year we will publish the names of those who are two years and more in arrears, in order to let them know that fact, and save us the trouble of writing to each one of them, as directed.

W. A. McGuire, a well known citizen of McKay, Ohio, is of the opinion that there is nothing as good for children troubled with colds or croup as Chamberlain's Cough Remedy. He has used it in his family for several years with the best result and always keeps a bottle of it in the house. After having la grippe he was himself troubled with a severe cough. He used other remedies without benefit and then concluded to try the children's medicine and to his delight it soon effected a permanent cure. 25 and 50 cent bottles for sale by Dr. G. W. Earle, Pickens; C. N. Wyatt, Easley; Hall, Sloan, & Co., Fort Hill; Hunter, & Boggs, Liberty; L. R. Eaton, Central.

Nice Cream Cheese at Lewis & Sons.

The cotton crop in Texas. The recent cold weather has killed the plant and nearly all the crop has been harvested and will soon be sold. The farmers will not plant more than one-half the present area another year and will devote their attention to wheat, corn, oats and prairie hay. They are not in debt and the low prices will not trouble them so much.

Married, on the 11th instant, by Rev. L. Jones, Miss Lizzie Porter to Mr. D. Lewis.

L. R. Durham went to Columbia Wednesday, with the Federal election returns. Mrs. Durham accompanied him to Abbeville, where she will visit relatives for a while.

W. A. Hamilton was appointed manager for the State election and went to Columbia Wednesday.

Mrs. Joe Person's Remedy will Cure any Form of Blood Impurity if the Bitters and Wash are carefully used together.

"Four or five years ago I had a breaking out on my nose and face; it would come in hard knots which would become raw sores. The trouble extended to the eyes and weakened them; the lids became sore and discharged. The face began itching, stinging, and burning, as if needles were pricking the surface. Nothing I tried gave me any relief. Some one sent me a pamphlet of Mrs. Joe Person's Remedy, and I concluded to give it a trial. I bought her Remedy and Wash, and began to improve at once. It soon made a perfect cure, and I have never been troubled since. I also found it a fine tonic and appetizer."
