—A disgusted newspaper man gives the following philosophical reasons for retiring from the business: “A child is born, the doctor attendance gets \$10, the editor notes it and gets 0; it is christened, the minister gets \$4, the editor writes it up and gets 0; it marries, the minister gets another fee, the editor gets a piece of cake or 000; in course of time it dies, the doctor gets from \$5 to \$10, the minister gets another \$4, the undertaker gets \$40—the editor prints it and receives 0000—and then the privilege of running free of charge a card of thanks.”
—HIDE OUT, MINER.
“It seems that ‘Annamias and Sapphira’ posterity still inhabit this world. Evidence of the fact may be seen and heard every day. If the fool killer should get through his immense contracts in the Santee swamps there may be some lively times expected in less than a hundred miles of here.”
“What in the name of all that's crooked does the Journal editor mean? Is he trying to bring into disrepute our beautiful ‘Sapphira’ section, or has he taken to the Santee or some other swamps to dodge the fool killer? An explanation is in order.”—Pickens Journal.
The first paragraph above was written by “C,” the Liberty correspondent of THE JOURNAL and was written as a prelude to a sensational trial in progress at Liberty. The last paragraph was written by The Sylvan Valley News editor, of Brevard, N. C., and credited to the Pickens Journal.
We guess, from this article that the “fool killer” is running him a pretty close race and that he is so badly scared he is not responsible for his acts. He don't even know the difference between the noted liar of Holy Writ fame and their artificial lake town which they call “Sapphira,” which means, we reckon, a lie.

Robinson, Capt. I. M. Mauldin, B. M. Griffin, Henry and Billie Grady, Ernest Folger, C. H. Alexander, W. O. Hester, Homer Richey, Lucius Earle, W. F. Blassingame, and C. L. Cureton. —There is some talk of starting a paper here soon. An enterprise which has never been undertaken at this place. All the other towns in the county have tried their paper, but we who live here, think it a poor town that has no sufficient local talent to run a paper. “The true we have no dispensary, but there is some fine old fields near by, that we who live here, think it as some seem to, viz: that the whiskey barrel is one of the essentials in the newspaper business. We hold that the keg of printers ink is the real need of the editor about enough to shock the nerve of a glass eyed monkey to see a prohibitionist advertisement on a bar room screen or whiskey keg. But the real need of the editor is whiskey. Whiskey tells the biggest lie. In some quarters you are abundant in your favor the enforcing of the liquor law and have no white citizen and officer in the discharge of his official duty.”
Notice of Final Settlement.
