(From Thursday's Daily.) The county supervisor had a busy lay yesterday in answering questions and trying to korp out of arguments in the matter of a dispensary election for Anderson county. The row has arisen here over the question of whether or not Supervisor King shall order an election to determine wheth er or not Anderson county wants a dispensary established here.

Mr. King said that this was easily ex-plained. When the petitions were requested to him, praying that he order the election, he asked J. S. Acker, a well known attorney employed in the supervisor's office, please to look up the law on the question and tell him just what it said. Mr. Acker then made the discovery of what the law says and reported to Mr. King that he could find no provision for ordering Ladies' Underskirts, .all .colors 50c, 75c, 98c and up to \$2.50 the election.

Mr. King said yesterday that he had asked the opinion of Kurtz P. Smith. the Solicitor for this district, on the per plexing question and that he also intended asking the opinion of Attorney General Peeples.

A majority of the attorneys in the city, when shows the law yesterday, seemed to think that Mr. Acker is right about it and that no election could be

Back of it all is the fact that the blood is either not good enough or is positively poisoned. Of course you cannot get well, digest what you sat, or rest well in sleep, as long as what ought to give your nerves tone and your digestion energy and strength is poisoned every minute of the day. Get the blood right. Moses said "It is the life." When the blood is right you live.

Here is what one of your neighbors declares; "A few years ago, I was a terrible sufferer from blood poison. If the skin would be broken from any cause, the fiesh would become inflamed and would itch and burn and develop in scores: Mrs. Joe Pearson rersuaded me to use her remedy.
