

PULLED STUNT; TO BE A HERO

DEMENTED WATCHMAN IN THE DEPARTMENT OF AGRICULTURE

DYNAMITE STICKS

Placed Under the Office of Secretary Houston—But the Fuses Wouldn't Burn

Washington, June 2.—Several hundred clerks and officials fled in fright from their offices in the department of agriculture today when Daniel V. Jauch, a watchman, scurried through the corridors shouting that the building was about to be destroyed by dynamite.

Led by Jauch, several of the cooler department officials ran to the basement where they found four sticks of dynamite on which the fuses had been burned out. Apparently an explosion had been averted because the fuses had been jammed so tightly into the detonation caps that the fire was extinguished.

Jauch who had suffered severe injuries to his head while serving as a soldier in the Philippines several years ago was taken to a police station and subjected to rigid questioning. Later the police announced he had admitted that he himself placed the explosives. Department officials said they believed the watchman intended to "discover" the dynamite before it could do harm, hoping to win promotion for heroism. The dynamite had been placed directly beneath the office of Secretary Houston. The secretary was out of town, but immediately across the corridor from his office. Assistant Calloway and several other officials were working.

Jauch has been employed for five years in the department.

ANDERSON MEAT LITTLE CHEAPER

Month Figures for the Past Month Show That Butter is Higher—Meat Cheaper

There is but little difference to be noticed in the local market, or in fact there is not much difference noticeable in any part of the state but the market quotations on meat, butter and potatoes has changed somewhat in the last month.

Butter prices in South Carolina last month were about the same as during May, 1913, according to data gathered by the federal government. The average for the country as a whole was 3.2 cents less than for the corresponding month of last year. Farm prices of eggs also show little variation. Chickens had a farm price in South Carolina averaging 23 cents more than in May of last year.

The average price per 100 pounds paid to the producers of pork in South Carolina during April was \$7.80, or 14 cents per 100 less than on April 15 of last year. This is true also of the country as a whole. The lowest state averages, according to government data made public yesterday, is \$6.10 in Florida and the highest is \$9.60 in Rhode Island and Connecticut. North Carolina's average was higher than South Carolina's by 10 cents per 100 pounds.

Irish potatoes paid to the growers in South Carolina during April showed a decrease of 14 cents per bushel less than for the corresponding month of last year. The only other state reporting a decrease was Louisiana. The country as a whole reports an increase of 23.2 cents, or a gain over 1913 of about 48 per cent. Lowest prices prevailed in Idaho, Washington and Oregon.

BODY OF LAWRENCE IRVING

Distinguished English Actor Drowned in the St. Lawrence

Quebec, June 1.—The body of Lawrence Irving, the English actor, was picked up last night on the west bank of the St. Lawrence below Rimouski. This information was given out today at the Canadian Pacific offices. Irving's face was bruised almost beyond recognition. A signet ring with the initials "L. I." led to the identification. One hand still clutched a piece of cambric, probably from the clothing of his wife, whom he was making desperate efforts to save when they were last seen alive.

THE REPEAL BILL NEARING A VOTE

Senator Simmons Claims It Will Receive 52 Votes, Not Counting Doubtful Ones

Washington, June 1.—Developments in the senate today encouraged leaders in the belief that a vote would be taken by Saturday night on the canal tolls exemption repeal bill. Although an effort to secure unanimous consent for a vote at 4 o'clock Friday failed, Senator O'Rourke's opposition to the repeal, announced that, beginning Wednesday, the bill would be kept constantly before the senate until it was disposed of.

With the adoption of this plan the bill will come up automatically at 1 o'clock each day and not be displaced by appropriation bills or other measures.

During the day conference between Senators Kern, Simmons and Lodge at which the forces for and against repeal were reckoned, led to an announcement by Senator Simmons that he expected the bill to receive fifty two votes. Senator Simmons declared he did not include any senators counted as doubtful and if his prediction is fulfilled the repeal bill will have a majority of nine.

FEDERALS LOST TO CHAMPIONS

Good Game of Ball Played at Buena Vista Yesterday Between Town and Y. M. C. A.

(From Wednesday's Daily.) As far as is known the Y. M. C. A. team has never claimed the championship of Anderson or the right to the title of "Champions" but since it seems to be the habit here, when one decides on some step in regard to baseball, to take that step, regardless of what any one else thinks, the Y. M. C. A. team hereafter should be known as the Champs.

This decision has been reached by the eminently dippy sports writer of The Morning Intelligencer and hereafter no other name shall be applied to the Y. M. C. A. organization.

However, even laboring under a handicap like that, the Y. M. C. A. succeeded in winning a good game of baseball from the "Federal" team, composed of the baseball players of the city, when the two met at Buena Vista park yesterday. The Y. M. C. A. played a better game of ball than did the town boys, doubtless due to the more practice and won in handy style fact that the Y. M. C. A. has had by a score of 6 to 4. It is understood that another game will be scheduled between the two teams at an early date and some good playing is expected.

It was learned today. The Canadian Pacific Railway, owners of the vessel, automatically relinquished all claim to her when she sank.

TAZA, KEY TO MOROCCO.

Capture of Town Makes France Supreme in the Empire.

Paris Dispatch. Although full accounts have been received here of the capture of Taza by the French troops under General Baugarten on the night of May 10, yet the significance of the capture seems to have been overlooked by the French press. The importance of the ancient stronghold to France will at once be apparent if we take a glance at a map of North Africa. The great Moroccan plain which extends along the Atlantic coast is divided from Eastern Morocco and Algeria by the Atlas Mountains which stand so to speak, right across that corner of Africa. Through these mountains there is but one pass—that in which Taza is built—and so long as the French were not in possession of Taza there could be no direct communication between Fez, the Moroccan capital, and the French colony of Algeria.

To go from Fez to the Algerian frontier by any other way takes 30 times as long. For example, recently Gen. Gouraud then in Western Morocco, was summoned to attend a military council on the other side of the Atlas mountains. He was obliged to go to Casablanca, take ship, sail round the Spanish corner of Morocco to Oran in Algeria and thence go on to the place of meeting. It took him 11 days. If Taza he could now do it in less than one day.

When it is considered that all the French military stores for the Moroccan campaign are in Algeria the capture of Taza means that France is now practically master of the Moorish empire.

SLIGHT CURSING MATCH.

Whitnair, June 1.—Gov. Blease arrived here about 1 o'clock from Newberry Saturday and after considerable handshaking addressed the crowd which had assembled in the public square to hear him. He began his talk about 2:30 o'clock. His speech touched on many subjects, and it was to a large extent of a personal nature. Shortly after he began to speak of matters particularly of interest to Whitnair, Mr. William Coleman, president of the Glenn Lowry Manufacturing company, rode up and in a few minutes after his arrival Gov. Blease, singling Mr. Coleman out, stated to the audience that he wanted to explain why Mr. Coleman hated him. Mr. Coleman immediately stood up in his buggy and interrupting the governor told him that he did not hate him, and that he wanted an explanation as to why he accused him of hatred. Gov. Blease said that any man who would oppose a motion in his behalf at a club meeting was his enemy, and that Mr. Coleman had done this. Mr. Coleman stated that such was not the case as this could be easily proved as a great many present were members of the club and he was sure no one would state to the contrary. Gov. Blease then brought up another matter, which Mr. Coleman denied and begged to be heard. The governor refused absolutely to entertain any explanation whatever, whereupon Mr. Coleman told him to go to hell and drove away.

After the above incident the speech was mainly a criticism of individuals who were not after the governor's liking. The governor and his friends who accompanied him here left in automobiles about 7 o'clock for Newberry.

SAN LUIS POTOSI IN THE WAR ZONE

THREE DECISIVE ENGAGEMENTS HAVE BEEN FOUGHT THERE

FEDERALS LOST

The Constitutionalists Are Getting Arms From New York While Peace Is Being Made

Durango, Mex., June 2.—(Delayed in transmission)—Three decisive engagements with Federal troops between Zacatecas and San Luis Potosi were won by the constitutionalists on May 30 and 31, according to reports received today by General Carranza.

Colonel Fernando Reyes, with six hundred men of the command of General Carrera Torres, who is investing San Luis Potosi, administered a decisive defeat to a large Federal force at Salinas and later defeated a force sent from San Luis Potosi to reinforce the Salinas garrison.

At Salinas the Federal loss was 46 privates and four officers. Fourteen Federal officers were captured and executed, including Colonel Carlos Chavez, two lieutenant colonels, one major, four captains and six lieutenants. Colonel Catocha, of the command under General Panfilo Natera, investing Zacatecas, captured a federal troop train at Pines on May 31, killing sixty Federals and capturing a considerable supply of ammunition and provisions.

Munitions of War.

Washington, June 2.—Ammunition for the Mexican constitutionalists left American shores from New York today bound for Tampico, while Mexican mediation apparently marked time at Niagara Falls, the attitude of the constitutionalists is still a stumbling block in the negotiations.

Information that the steamer Antilla, which recently was fired on by constitutionalists outside Tampico, had left New York with munitions of war, created considerable stir in Washington.

Up to the present Tampico has been regarded as an open port. The United States, however, has sought to maintain an embargo on arms to Mexico across the border and last Friday, when it became apparent munitions of war for the constitutionalists were being prepared for such shipment from New York, no order was issued to stop shipment.

The Plenty of Time to Eat

There is a saying that "rapid eating is slow suicide." If you have formed the habit of eating too rapidly you are most likely suffering from indigestion or constipation which will result eventually in serious illness unless corrected. Digestion begins in the mouth. Food should be thoroughly masticated and insalivated. Then when you have a fullness of the stomach or feel dull and stupid after eating, take one of Chamberlain's Tablets. Many severe cases of stomach trouble and constipation have been cured by the use of these tablets. They are easy to take and most agreeable in effect. Sold by Evans' Pharmacy.

SAGE TEA DARKENS HAIR TO ANY SHADE

Don't stay gray! Here's a Simple recipe that anybody can apply with a hair brush

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmothers' time. She used it to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by using at any drug store for a 50-cent bottle of "Wyle's Sage and Sulphur Hair Remedy," you will get this famous recipe which can be depended upon to restore natural color to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

A well known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application of two, it becomes beautifully dark, glossy, soft and abundant. Evans' Pharmacy, Inc.,
