CANDIDATES WOUND UP THE SPEAKING TOUR

CONGRESSIONAL PARTY AT PICKENS

AIKEN HAD CROWD

All Candidates Had Friends But Popular Opinion Gave Abbeville Man Big End

Special to The Intelligencer.

Pickens, August 1.—An orderly audience of about 400 voters heard the four candidates for congress, speak in the court house today. This is the last scheduled meeting of the campaign. Chairman Norris called the meeting to order at 11 o'clock. Each candidate was given 40 minutes.

Slight applause greeted the first speaker, Fred H. Dominick, when he was introduced. After telling of his record as a member of the legislature, he attacked Congressman Aiken's record and called some of his deeds "slipshodden" and "popcock"; said Aiken was dead weight didn't know it. He explained his vote in the legislature against reducing hours of labor in the cotton mills. He told several jokes and was well received.

F. S. Evans was the second speaker and said he was making the race on his own record. He said he was a practical business man and would represent this district to the best of his ability if elected. Favors federal aid for public roads. He said Aiken had time and time again lined up with the republicans against the democrat. He favors equalization of freight rates. He was slightly applauded.

John A. Horton was the third speaker and said he was proud to be here. He gave a short sketch of his early life, telling of many hardships. Believes in federal aid for public roads and extension of rural free delivery routes. He attacked Mr. Aiken's record and said congressmen who voted against the party were almost invariably left at home at the subsequent election and hoped this rule would continue. He was applauded.

Congressman Aiken was the last speaker. He told of his record and explained all of his votes which had been attacked by his opponents. He claims to be in harmony with the administration and is standing by the democratic platform. He says he is congressman of all the people in this district and said if he could keep certain people in Pickens against him he would carry the county. He told why he had McDaniel appointed postmaster here. He says he is confident of re-election. He was applauded.

Each of his opponents attacked Aiken's vote on the canal tolls repeal bill. Each candidate made friends but it was the consensus of opinion that the majority of the crowd was for Aiken.

HOW THE HIGHWAY IS KEPT IN CONDITION

ANDERSON PEOPLE ENTHUSE OVER ROAD TO THE MOUNTAINS

Say That Workmen of Tarheelia See To It That Road is Maintained in Best of Shape

Since the summer months began, a number of Anderson people have motored to Hendersonville, N. C., and on through this section of the country and they have enthused over the wonderful roads to be found there. Many have been the conjectures, not concerning how the road was built, but as to how the North Carolina people have succeeded in keeping them so perfect. Their condition is splendid, at any season of the year according to the motorists. A North Carolina man writing to the Manufacturers' Record has told of the how the maintenance of the road is accomplished, and it might be well to try this same scheme on some of the Anderson highways.

Parties on the Charlotte-Asheville highway, on the Hendersonville-Asheville highway, have organized a cooperative road and are employing the road overseers and section men whose business it is to keep up the road and repair same, just as the section men along the railroad do. The overseers serve without compensation the section boss and others, one for each four miles of road, get pay.

"All those who contribute as much as 25 cents are members of the organization and are entitled to one vote, and each 25 cents additional that is paid in entitles the contributor to a vote. In this way we can keep all the rocks that interfere with automobiles out of the way, as well as make repairs from time to time. A trial was made on this last summer. We tried it on one four miles. The section boss carries with him a sign that tells of the work being done, and requests others on the road to contribute. Very few people going over the road last summer refused to contribute."

Killed by Train.
 Spartanburg, S. C., July 31.—The Rev. W. Norwood Tillghast, an Episcopal clergyman of Washington, D. C., was killed tonight at Morganton, N. C., while attempting to board a moving train.

A "HOME-COMING" DAY AT PELZER SATURDAY

EVERBODY IS TO "COME BACK HOME"

A FINE PROGRAMME

Day Will Begin at 8:30 With Bicycle Races and To End at 11 That Night

Throughout the state are scattered people who originally came from Pelzer and who have gone elsewhere to seek their fortunes, and these people, together with their friends and hundreds of people from the sections surrounding Pelzer and from all parts of Greenville and Anderson counties, will gather at Pelzer next Saturday for "Home-Coming" day. This is to be the biggest affair that Pelzer has ever attempted and if the day is not a success it will not be due to the fact that the committee in charge has not tried to make the day pleasant. The committee is composed of the following gentlemen:

W. C. Pearman; Jno. A. Hudgens, T. J. Crane, B. E. Waldrop, J. M. Alexander, J. W. Kelly, J. W. Blythe, C. M. Dockins, W. E. Hammond, G. T. Flemming, A. W. Crenshaw, Joseph Fraser, A. M. Lander, W. M. Dowis.

Special rates have been announced by the Piedmont & Northern lines from all points and the small railroad fare will be additional reason for many people making the trip to Pelzer next Saturday.

The first event on the program is the bicycle race, followed by motor cycle races, which will take place at 8:30 A. M. From that hour on through the day there will be many features, as will be seen from the following program:

ARMOUR'S MONEY SAVED MARKET

The Meat Packer's Millions Rescued Wheat Trade From a Panic

(By Associated Press.)

Chicago, July 31.—Armour's millions today rescued the wheat trade from panic.

Instead of chaos resulting from a settlement day in the midst of a war market, with possibly scores of firms embarrassed and virtual certainty that bankruptcies, few or many, would ensue, the Chicago Board of Trade was enabled to maintain its record of never having closed no matter how great the emergency. Tonight not one fall wheat had taken place. The chief reason was that seventy-five entangled firms and individuals on "change were freely given today by Armour and Company, whatever aid the necessities of the situation required.

George E. Marcy, president of the Armour Grain Company, was the man who rose to the occasion. He quietly circulated word on the floor of the board, partly in person and partly through his lieutenants, that any member in trouble need only come to him. Before daylight, Armour and Company had taken over 8,000,000 bushels of open trade, which if not transferred, were critically in danger of not being safely settled in due contract time on the expiration of business hours at the end of the month.

Praiseworthy Duty.

You may run the duty of your life in the giving of praise worthily, and being yourselves worthy of it.—Eakin.

GLOOMY OUTLOOK FOR SOUTHERN BUSINESS

WAR HAS DEPRESSING EFFECT HERE

PROSPECT IS DARK

All Industries of This Section Must Be Effected by War Now Being Waged Abroad

What will be the effects upon local business of a general European war? This question has been asked and answered during the past two or three days. The answers vary widely, though it is the consensus of opinion that a war in Europe will make the money market of this country tight. This being the case, Anderson's industries will feel the effects of the conflict, for the money which the mills of this section operate upon comes from the same sources which Europe will draw from—the general banks of the country. There is no fear of the government having asserted its intention of providing money for crop moving purposes.

On the other side of the question, there are some who contend that a European war would enrich the United States, as this country would be called upon for supplies. A general war would cripple many European industries, and the industries of the United States more than any other nation would be called upon to supply the deficit. Should this condition come about, the United States would eventually be the mercenary beneficiary of the conflict.

Still another phase of the matter, and the one which caused a severe reaction in the markets of Thursday, is the fact that the commerce of the world might be tied up by the war. The United States has no merchant marine which could handle the commerce, and should ships of other nations be unwilling or unable to take the high seas and engage in commerce the United States might find itself drained of gold, and overstocked in goods. The foreign commerce of this nation would be shut off by this contingency.

Whatever may be the effect of the war upon the United States Anderson will be aware of those effects. The larger industries of this section are very sensitive, and that which affects the nation's business and finances will quickly affect the mill interests of this section, because of the fact that these mills are so intimately related to the business of the nation.

The results of the threatened embargo has already been felt as the cotton exchange has closed. The closing was not unwelcome, as there was much uncertainty and wildness in the market that trading was unsatisfactory.

LOCAL MAN MAY GET FINE TRIP

South Carolina Will Send Two Men To San Francisco Within Next Few Days

It is understood that there is some possibility of an Anderson man being picked as one of the two representatives to go from this State to San Francisco within the next few weeks to make arrangements for the South Carolina exhibit, which will be seen at the Panama exposition. This possibility lies in the fact that two men are to be chosen for this duty, one to come from the "low country" and the other from the Piedmont section. It is known that those who have been instrumental in arranging for the South Carolina exhibit look with favor upon selecting a man from this city for the work.

Porter A. Whaley, secretary of the Anderson chamber of commerce received a telegram yesterday, asking if he would come to Columbia Monday for a meeting of those interested in the proposition and Mr. Whaley will probably make the trip. He may be accompanied by one or two Anderson people.

Plans for the South Carolina exhibit are getting along nicely. The fund is being raised and since the committee has struck on the idea of sending a number of medals out all over the State, to be sold at \$1 each and the proceeds applied to the fund, this fund will probably be considerably swelled within the next few days. The Intelligencer has received five of these medals, as did every other newspaper in the state. When each of these papers sell their five, five more will be sent to every bank in the state for them to dispose of. In this way a number of pretty little medals will be distributed all over the state and many dollars will be realized for the State's exhibit.

NEW BOOKLET OF THE SCHEDULES

Southern Public Utilities Co., Will This Morning Issue a Handsome and Handy Pamphlet

(From Saturday's Daily)

Anderson people will appreciate and will use a handsome little booklet which the Southern Public Utilities Company will begin giving away to its patrons this morning. The little book contains a wealth of information relative to the schedules on the street railway system, schedules of the Piedmont and Northern trains, and all the details with all the articles handled by the Southern Public Utilities Company. The book was compiled for the local company by J. H. Redfern, who is a special publicity representative and is similar in design to the booklets issued from the same company in Winston-Salem and Charlotte, N. C. One will be gotten out in Greenville. The booklet will consist of 16 pages and 10,000 copies will be distributed. The job is from the presses of The Intelligencer.
