QUIET IN WEST; FIGHTING IN EAST

RUSSIAN NAVAL ARM COMES MORE PROMINENTLY INTO THE WAR

SINKS GERMAN TORPEDO BOAT

Austrians and Germans Are Offering Vigorous Resistance in the Carpathians.

(By Associated Press.)
Paris, Feb. 3.—(3:20 p. m.)—An official statement from Petrograd says that a German torpedo boat destroyer was sunk by a Russian submarine in the Baltic on January 29. The submarine attack was made off the Danish island of Moen.

LONDON, Feb. 3.—With comparative quiet prevailing on the western front, the fighting in the east, which is more strenuous and widespread, monopolizes attention.

While the Russians are on the offensive in East Prussia, in northwestern Poland and the passes of the Carpathians, the Germans continue their attacks on the Russian line along the Bzura and Rawka rivers. The invaders reached the Rawka line about the middle of December and since that time have made at least half a dozen attacks in force against the Russian trenches, each time at undoubted heavy cost.

Nothing daunted, however, they have been repeating the attacks during the past week and while they have made a slight advance it has been accomplished only after further great losses, according to Petrograd reports. Now it is believed the Germans are preparing for still another onslaught, for only by compelling the Russians to strengthen their lines protecting Warsaw can they hope to divert Russian attacks from East Prussia and Hungary.

Military men here believe the Germans are attempting something virtually impossible in their efforts to force their way through Warsaw. The Rawka and Bzura lines, which they have been attacking for six weeks, are exceedingly strong, for on the right banks of the rivers, which the Russians are considerably higher than on the left banks, so the Russian infantry and artillery have a decided advantage.

Should the Germans break through this barrier there is another line of entrenchments half way between the Bzura and Warsaw, with Blonie as the center, which would have to be forced before the Polish capital fell.

In the Carpathians the Austrians and Germans are offering vigorous resistance to the Russians and a decision has not yet been reached in the battle which has been in progress there for some days.

The statement in the Russian official report that there has been fighting southeast of Ussok Pass, in the interior of Dukla Pass, and southeast of Bialka Pass, indicates the extent of the struggle.

The attempt of a German submarine, as officially reported, to torpedo the British hospital ship Asturias has attracted wide attention in England, where it is strongly condemned.

There has been another skirmish between British and Turkish scouts east of the Suez Canal near Ismailia. The Turks were driven off with some loss and the British had a few men wounded. The opinion still prevails in London that the Turks will not attempt to occupy the desert with a large force and that the present precautions were arranged only to compel the British to keep troops in Egypt instead of sending them to France.

Fear Attack Will Be Made On Canadian Parliament Building

(By Associated Press.)
OTTAWA, Ont., Feb. 3.—The dynamiting of the international bridge at Vancouver, B. C., yesterday has led the authorities to take active precautions to prevent an attack on the Canadian parliament building at the opening of legislative sessions tomorrow. Officials fear that some partisan or hostile nation may take advantage of the presence of the Duke of Connaught, governor-general of Canada, to attempt some demonstration.

The guard stationed in the parliament buildings will be increased. Strict scrutiny has been applied to the issuance of tickets of admission to the opening functions.

The chief business of the session will be the voting of funds for the maintenance of Canadian troops in Europe. An appropriation of \$25,000,000 is understood to be appropriate and that parliament will be asked to give the government authority to borrow

G. W. Proffitt and G. L. Long of Laurens, Arrested in Greenville Yesterday.

(By Associated Press.)
GREENVILLE, Feb. 3.—The police arrested here today G. W. Proffitt and G. L. Long, both of Laurens, upon a charge of having robbed the Bank of Waterlo, a small bank in the town by the same name. When searched the boys had only \$50 between them, but later confessed, according to the police, to the robbery and stated that the money is buried upon the farm of Long's father.

Long, the police say, confessed that he entered the bank during the noon hour Saturday while the doors of both the building and safe were open and quietly helped himself to all the money in sight. He absolved Proffitt from all blame.

MUST ALL POOL OUR INTERESTS

NECESSARY TO DISCOVER BEST MEANS FOR HANDLING PROBLEMS

WILSON TALKS TO BUSINESS MEN

Says They Should Cooperate With the Government in Framing Laws.

(By Associated Press.)
WASHINGTON, Feb. 3.—Cooperation between business and the government in framing laws for the benefit of all the people was urged by President Wilson tonight in an address before several hundred representative business men here attending the annual convention of the chamber of commerce of the United States. He declared that "we must all pool our interests" to discover the best means for handling public problems.

The president urged the creation in the United States in time of peace of the same kind of united spirit which moves nations during wars. He declared that "when peace is as hard-some as war there will be no wars," and that "when men engage in the pursuits of peace in the same spirit of self-sacrifice as they engage in war, wars will disappear."

Predicts Great Food Shortage.

The president predicted that, while there is a shortage of food in the world now, the shortage will be much greater later. He pointed out that under the guidance of the department of agriculture, efforts must be made by American farmers to grow more and more grain that the world may be fed.

Speaking of the foreign trade of the United States, the president asked that business men devise some way of allowing American exporters to combine to form common selling agencies and to give long time credits in such a way that these cooperative devices may be open to the use of all. He declared that apparently the antitrust laws prohibited such combinations now, but that he would favor a change, if a method fair to all could be found. He spoke of the bureau of foreign and domestic commerce's work in "surveying the world" for the benefit of all business men.

Business Men to Blame.

Business men themselves are to blame if intelligent laws affecting them are not framed, the president asserted. He added that they should come out into the open and use their knowledge of conditions to bring about laws to prevent business evils. The Mexican question was mentioned by Mr. Wilson as an example of the difficulty he has in getting accurate information.

"I would prefer that you receive me for the time being I were one of your own members," said the president, "because the longer I occupy the office that I now occupy the more I regret any lines of separation, the more I deplore any feeling that one

EXECUTED

Three Conspirators in Assassination of Archduke Francis Ferdinand Put to Death.

(By Associated Press.)
AMSTERDAM, Feb. 3.—(via London, Feb. 3, 2:43 a. m.)—A Berlin dispatch says that three of the conspirators in the assassination of the Archduke Francis Ferdinand were executed Wednesday in the prison of the court fortress at Sarajevo, Bosnia. The men put to death were Veljko Cobiljevich, Miko Jovavich and Danilo Ilic. The death sentences of two others, Jakov Ilyic and Nedko Kerovic, later were commuted to imprisonment for life and for 20 years, respectively.

Gavrilo Princip, the Bosnian student who actually slew the archduke and his wife, is serving 20 years imprisonment, it having been impossible, because of his youth, to sentence him to death.

WAS AFRAID OF ORGANIZED LABOR

COLORADO COAL CO., KNEW UNIONS WOULD FORCE IT TO OBEY LAWS

SAYS EXECUTIVE BOARD MEMBER

Of U. M. W. of A.—Witness Describes Shooting at Women and Children by Militia.

(By Associated Press.)
NEW YORK, Feb. 3.—John H. Lawson, executive board member of the United Mine Workers of America from the district which includes Colorado, today told the federal commission on industrial relations that the Colorado Fuel and Iron Company and other operators had refused to deal with organized labor because they realized that the unions would force them to obey the mining laws, which, he said, they repeatedly had violated.

Mr. Lawson, who was a witness last week, was recalled after Mrs. Mary Petrucci and Mrs. Margaret Dominick, wives of Colorado miners, had told the story of Ludlow. Mrs. Petrucci's three children were smothered to death in a subterranean chamber in which they had hidden when the tent colony was burned.

Lawson said that the only reason the operators had granted the miners anything was because "they had seen the handwriting on the wall, placed there by the unions." The operators realized, he asserted, that the unions not only would force them to obey the statutes, but would prevent them from importing vast numbers of European workers who never had seen a mine before, and then paying them as long as they pleased.

Jerome D. Greene, secretary of the Rockefeller Foundation, and formerly a member of the personal staff of John D. Rockefeller, defended the practices and policies of the Rockefeller Foundation and the aims and ideas of its founders.

Greene admitted that the founda-

REQUESTS SURRENDER OF GERMAN OFFICER

British Ambassador Asks Extradition of Maine to Canada of Werner Van Horn.

(By Associated Press.)

WASHINGTON, Feb. 3.—The British ambassador today laid with the state department a request for the extradition of Maine to Canada of Werner Van Horn on charge of "attempted destruction of human life" in connection with the dynamiting of the St. Croix international railway bridge. The ambassador's note stated the request was based on a communication from the Canadian minister of justice.

If the application is found regular in form, Van Horn will be ordered before a United States commissioner and Canadian authorities allowed to appear against him. Should the commissioner decide there is no case, the prisoner might be discharged without further proceedings. Should extradition be ordered, however, an appeal to the state department would be admissible. Van Horn already has indicated he would fight extradition.

A telegram from the prisoner today, asking the German ambassador to safeguard his interests here, as he was a German subject, declared he "did not put foot on Canadian soil." That was taken here to mean that, though he was on the bridge, he did not actually stand on Canadian soil. Officials attach no importance to this plea.

The German embassy delayed passing upon Van Horn's request pending a report on his citizenship from the German consul general in New York. State department officials declined to express any opinion as to Van Horn's contention that his offense was "political," that it was an act of war directed against his country's enemy, and it was his intention to prevent continued transportation across the bridge of troops and munitions of war going to Europe to be used against Germany. It was pointed out, however, that to prove his act was an act of war, Van Horn must produce evidence that he was acting under "higher authority" and by direct orders.

On the other hand, if the prisoner should produce evidence that he was acting under direction of the German government, it is said, a violation of the neutrality of the United States by Germany might be involved.

The Canadian government in making its application referred to the man as an ordinary civil criminal.

SHERARD'S BILL GOES TO HOUSE

REQUIRES ANDERSON COUNTY TO PUBLISH FINANCIAL STATEMENT

ANDERSON COUNTY DELEGATION BUSY

Both Houses Ratify Act Providing For Appointment of Four County Commissioners.

Special to The Intelligencer.
COLUMBIA, Feb. 3.—The bill of Senator Sherard regarding the county board of commissioners of Anderson County to publish a quarterly financial statement today passed third reading in the senate and was sent to the house.

The bill requires the county board to prepare and publish, under oath, in one issue of a newspaper published at the county seat, every quarter, beginning April 1, 1915, a condensed statement of all receipts and disbursements by funds of departments, together with a statement of the balance of cash on hand, and the amount of the county indebtedness, if any, and at what rate of interest contracted.

The original of the statement must be led in the office of the clerk of the county as a permanent record.

The act providing for the appointment of four county commissioners by both houses of the legislature and the appointment of the new officers will be made at once. The men to be named for commissioners were chosen in the primary election last August. They are: W. A. Spearman, R. D. Smith, J. L. McGee and W. R. Culbertson.

The Anderson County delegation this afternoon recommended E. T. Tollison of Belton for appointment to the vacancy on the county board of education. Township assessors were also named, but no action on the appointments of magistrates will be taken until Friday afternoon.

The Anderson County delegation met at 5 o'clock this afternoon for the purpose of framing the county supply bill for 1915. The tax levy for general purposes will remain the same as it was this year, three and one-half mills. The levy for all purposes will be seven mills. An increase of one-half mill was necessary for the purpose of paying past indebtedness, as there is a debt of \$20,000 according to the comptroller general's report after all taxes for 1914 are collected. Under the law the amount of money expended by the county board of commissioners for one year can not exceed the revenue derived from taxation, but it seems that for the past year this amount has been exceeded by twenty thousand dollars, thus making it imperative that the delegation provide in the levy for retiring this deficit.

The tentative draft of the supply bill will be gone over again by the delegation, and, when revised, will be turned over to the ways and means committee to be incorporated in the general appropriation bill.

STILL HOPEFUL OF PASSING BILL

DEMOCRATS BELIEVE WAY WILL BE FOUND TO SAVE SHIPPING MEASURE

AWAITING RETURN OF S. C. MEMBERS

With Their Votes Leaders Hope Bill May Be Recommended With Instructions.

(By Associated Press.)

WASHINGTON, Feb. 3.—Plans of administration Democrats to drag the government ship purchase bill out of danger in the senate had not been completed tonight, but champions of the measure had not abandoned hope that a way would be found tomorrow to recommit the bill with definite instructions for its amendment.

Reclitrant Democrats flatly refused to yield to concessions agreed upon by the majority in secret caucus Tuesday night, and administration leaders found they could not muster enough votes to defeat the coalition of Republicans and insurgent Democrats who insist on sending the bill back to committee without instructions. That would mean its death for the session.

Instead of pressing their plan to recommit with instructions, therefore, the party leaders contented themselves with castigating in the open senate the seven Democrats who overturned the shipping bill program last Monday. Senator Stone, selected for this undertaking, held the floor several hours, bitterly denouncing the seven insurgents as the "recrudescent Democrats who had endeavored to unhorse their party."

Senator Stone particularly attacked Senator Clarke, of Arkansas, whom he described as the leader in the revolt, and Senator Camden, of Kentucky. He charged that Senator Clarke had "isolated a caucus," and the Arkansas senator denied that, explaining he had warned his colleagues that he would not be bound to any action which would deprive him of his right to vote against the bill.

While Senator Stone was speaking, Senators Kern, Simmons, Martie, and others were at work to forestall a vote until absent Democrats could return to Washington, or assurances could be secured that enough progressive Republican support could be counted on to insure a majority.

Tonight the Democrats are counting on Senators Norris and La Follette to vote with them, but had hoped to hope for the support of Senator Kenyon. Senators Lewis and Smith, of South Carolina, absent Democrats, are expected back tomorrow.

With these votes leaders hope the bill may be recommitted with instructions for its return within 48 hours with amendments limiting to one year the term for which the government might lease ships to private corporations, and prohibiting purchase of ships which might menace neutrality.

Republican senators tonight were hopeful that Senator Pentecost would be able to reach Washington tomorrow, adding no more to their forces. His absence, they declared, would give them enough votes to recommit the bill without instructions. Should the effort to amend the bill and return it within 48 hours succeed, however, Republican leaders declare their attack on it will be resumed and kept up until it either is withdrawn or its passage blocked by the death of a senator March 1.

"We are through caucusing," Senator Kern, the majority leader, declared tonight, "and except to make progressing the price."

German Newspaper Attacks the American Government's Neutrality

(By Associated Press.)
AMSTERDAM, Feb. 3.—(via London, Feb. 3, 1:45 a. m.)—The Cologne Gazette, a copy of which has been received here, contains a long attack on the American government's neutrality. The article criticizes Secretary Bryan's letter to Senator William Stone, chairman of the senate foreign relations committee, repudiating charges that the United States had shown partiality to the allies against Germany and Austria and announcing the American government's stand with regard to the exportation of war munitions.

The article says: "The r-ticle says: 'The r-ticle says made himself the mouth piece of the brutal British attempt which is based on force. We are certain that German Americans and those who share their views shortly will furnish the right reply to Mr. Bryan's epistle. We know now what we must expect from Mr. Bryan's management of foreign affairs."

"American neutrality is only a thin veil behind which is concealed eagerness to do England's bidding," it says. "Knowing this, we will be guided by our knowledge. If America respects our brute force then we shall give full play to brute force."

Alarm Felt For Safety of Steamer

(By Associated Press.)
LONDON, Feb. 4. (3:55 a. m.)—The British steamer Orleans, which left London for Havre last Thursday and was due to arrive Sunday, has not been reported. Much alarm is felt for its safety on account of German submarine activity. The steamer Barrowdale has not been reported since leaving here January 31 for Granville, near St. Malo.
