## Commerical and Financial

#### Broadstreet's Reviews.

NEW YORK, Feb., 11.—Bradstreet's Review this week will say: Gains in trade continue of a small

though cumulative character, with actual improvement still trailing behind optimistic sentiment. Likewise industries, notably iron and steel, coke, texties and automobile manufacturing, are rounding into better shape, but concededly at a low pace and in consequence unemployment, the proportions of which have probably been overexperiedly by many testing the proportions of which have probably been overexperiedly by many testing the proportions of the proportions of which have probably been overexperiedly by many testing the proportions of the propo overexaggreated by many, is giving way to increased employment and larger pay rolls.

While cereal farmers have profited

from high prices for wheat, they do not display unwonted activity in pur-

not display unwonted activity in purchasing goods, and the volume of business coming from that source, relatively good though it is ,hardly fulfills highly keyed anticipations.

Wheat exports for the week ending February 11 were 9,708,550 bushels, against 4,092,408 bushels a year ago. Busines failures for the week (five days) in the United States were 425, compared with 313 last year; in Canada 54, compared with 30 last year.

#### Liverpool Cotton.

LIVERPOOL, Feb. 11.-Cotton, spot, imited business. Good midding 5.39; middling 5.07; low middling 4.66. Sales 6,000; speculation and export 2,000. Receipts 37,850.

#### Dry Goods.

NEW YORK, Feb. 11.—Cotton goods markets were quiet and steady today. Wool markets were much excited and prices rose fast. Raw silk was easy Jobbers reported a fair trade.

# **Something For Nothing**

Youngs Island, S. C., Nov. 23, 1914,

To get started with you we make you the following offer. Send us \$1.59 for 1,000 Frost Proof Cabbage Plants, grown in the open air and will stand freezing, grown from the Celebrated Seed of Bolgina & Son and Thorborn & Co., and I will send you 1,000 Cabbage Plants additional FREE, and you can repeat the order as many times as you like. I will give you special prices on Potato Seed and Potate Plants later. We want the accounts of close buyers, large and small. We san supply all.

# Atlantic Coast Plant Co.

A lady came into my place a few days ago and said that she had been all over town looking for a LaValliere.

I felt a little bad as I was the last on the list. But when she wrote a check for \$50.00 and put was an undercurrent of buying which on one of the prettiest LaVallieres I had, I felt better.

LaVallieres from \$3.00 to \$50.00.

#### Stocks and Bonds.

NEW YORK, Feb., 11.-Heavy buy ing of United States Steel common at steady advances was the chief fea-ture of today's stock maret. Large individual lots of the stock changed hands from the stock changed hands from the very outset and at no time did it recede more than a mere fraction. At the end of the session it showed a net gain of 2 3-8 points or

showed a net gain of 2 3-8 points or 6 3-8 above its minimum.

Rumor was husy with the movement in steel, gossip attributing its strength to a possible compromise of the suit brought by the government. Apart from this, however, the company's favorable statement of January lonnage, as published yesterday, tokether with the fact that many of the larger seel plants have recently intreased their output by more than 50 day will have the force of the state of th creased their output by more than 50 per cent, were regarded as sufficient cause for the rise.

The entire list shared in the move nent, but it was noteworthy that most nient, but it was noteworthy that most of the substantial gains were in high class or investment issues, as against the recent spasmosic advance in pecialties. Union Pacific and South-ern Pacific were assisted by declara-tion of the regular dividends, even hough no changes had been expected n well-informed quarters, Voluntary wase increases to miners

in the Michigan copper region, to-gether with the restoration of the Calument and Hecka dividends after a long period of aspension measured the improvement in that industry. Futures barely steady. May-June

in American shares, steel and Canadian Pacifics being in request. Revision of minimum prices on the London exchange is under consideration. In contra-distinction to the Bank of Germany, today's statement of the Bank of England reported another loss of

Bonds were strong in all depart-nents, some of the low priced issues making pronounced gains. Total sales, par value, \$2,074,000. United States bonds were unchang-

#### New York Cotton.

NEW YORK, Feb., 11.—After a nearly featureless morning, cotton eased off under scattering liquidation and cleared barely steady at a net decline of 6 to 9 points.

The opening was steady at a decline of 2 to 3 points in response to lower cables, but the decline in Livergool was attributed to the liquidation.

lower cables, but the decline in Liverpool was attributed to the liquidation
of straddles, the short end of which
had been covered here late yesterday,
and there was no important selling
pressure around the local ring.

General business was quiet. A future southern selling orders were attributed to hedging estern belt cotton.
Toward the middle of the afternoon
offerings became a little more active
owing to apprehensions that England
might take stringent measures against might take stringent measures against German oversen commerce. There were comparatively few buyers around the ring in the late trading and late months sold about 5 to 9 points net lower.

Official reports showing the large increase in the fall sowing of wheat and oats in the cotton States helped to steady prices during the morning.

Spot cotton quiet; middling uplands 8.65. Sules 200.

Cotton futures closed barely steady; Open. High. Low. Close
March 8.57 8.61 8.60 8.57
May 8.86 8.88 8.81 8.8
July 9.05 9.09 9.00 9.00
October 9.29 9.20

## New Orleans Cotton.

NEW ORLEANS, Feb., 11.—While cotton opened and closed at a decline today, prices made no great loss. The close was 6 to 8 points down. There

kept the market from breaking.

The initial loss was caused by poor cables while in the afternoon the market was attacked after it was reported that England was considering measures aimed at Germany's commerce, which probably would interfere with exports of cotton from the United States.

United States.

The one bullish feature of importance was the report from Savannah that 57 boats were booking cotton for clearance from that pert. Local bulls estimated that this meant exports of abou 400,000 bales from that port in he next few weeks.

Spot cotton easy, anchaged. Sales n the spot 2,000; to arrive 1,000. Cotton futures closed: March 8.26; May 8.51; July 8.71; October 8.95; December 9.10.

#### Cotton Seed Oil.

NEW YORK, Feb. 11.-Cottonseed oil was higher on reports of export demand, firm crude markets, buying

demand, firm crude markets, buying for western account on the big advance in hos products and the scattered stort covering. Final prices were 8 to 11 points net higher.

The market closed barely steady. Spot \$7.12@7.30; February 7.12@7.25; March \$7.12@7.25; April \$7.24@7.30; May \$7.36@7.32; June \$7.35@7.45; July \$7.48@7.50; August \$7.59@7.67; September \$7.70@7.71. Total sales 17,300.

## Live Stock.

CHICAGO, Feb. 11.—Hogs strong. Bulk \$6.55@6.65; light \$6.40@6.70; mixed \$6.45@6.72; 1-2; heavy \$6.30@6.65; rough \$6.25@6.40; pigs \$5@6.60. Cattle firm. "MAN ON THE BOX"

Failed to Arrive—Will Be Shown Today.

The highly interesting production. "The Man on the Box," which won the praise of Andersonians while on exhibition here several weeks ago, failed to arrive yesterday in time to be exhibited. "The Conspiracy," featuring John Emerson was substituted and greatly pleased a comfortably filled house at both afternon and evening performances.

"The Man on the Box" will be shown treay and an unusually large audience is expected to witness this masterpiece of filmdom. The performances will be in promptly at 3 p.m. and the first reel thereafter will go on at 4:15, 5:30, 6:45, 8:00 and 9:15.

POLEY CATHARTIC TABLETS

# **EMPLOYEES OF GLUCK** MILL OUT ON STRIKE TOP

WEAVERS DISSATISFIED ON ACCOUNT OF CUT IN THEIR WAGES

IS IDLE

Spinners Quit Out of Sympathy For Weavers-Balance of Mill Forced to Stop.

All machinery and the 300 or more employees of the Gluck Mills are idle as the result of a walkout on the part of the operatives of the weave shop because their petition to the manage-ment of the mill asking that the company reduce by one-half the reduction of approximately 10 per cent recently made in their wages was not granted. The Gluck Mills are largely owned by Wellington and Sears of Boston,

by Wellington and Sears of Boston, who are also principal owners of the Equinox Mills, where a rimilar strike occurred several days ago. As yet no move has been made looking toward a conference between mill management and employees for the purpose of reaching a settlement of the lifterences. Only the best of feeling prevails on the part of both sides, it is stated, but both are determined in their stand for what they believe is right. No semblance of disorder has occurred, and it is not believed that such will be resorted to by anyone in an effort to bring about an adjustment of the disagreement.

Effective January 18 a reduction of 2 cent per cut in the pay of the wear-

Effective January 18 a reduction of 2 cent per cut in the pay of the weavers was ordered. This cut, it is stated, amounted to a little less than 10 per cent. An operative of the weave shop stated yesterday to a reporter of The Intelligencer that the reduction in wages amounted to about one dollar per week for a weaver operating twelve looms. Several days ago, it was stated, a petition was prepared was stated, a petition was prepared for presentation to the mill officials, asking that the reduction in wages be made one cent per cut instead of two cents. This petition, it was stated, was presented to the management of the mill last Saturday, and in it the statement was made that the em-ployees would expect an answer to their petition by 9 o'clock Wednesday

morning.

When 9 o'clock came Wednesday morning and the mill authorities had not agreed to mee: the operatives half way in the matter of wage reduction, the operatives in the weave shop quit their looms. An hour or so later the operatives in the spinning room, out of sympathy with the weaves, left their post of duty, and this department of the mill also was shut down. The balance of the mill continued to run Wednesday and yesterday until 11 o'clock, when the mill management ordered it shut down. This brought the mill to a standstill.

An operative of the weave shop.

An operative of the weave shop stated yesterday to a reporter for The Intelligencer that the petition presented the mill management last Saturday asked in addition to a compromise on the wage reduction a new boss weaver for the weave shop. The employee stated that fiction had arisen between the boss weaver and some of between the boss weaver and some of the men employed in the weave shop several days ago when weavers left their looms on account of one of their number, a man named Neale, was dis-charged because it was thought he was inciting the weavers to strike. As will be recalled, Neale was reinstated when, in a conference between weavers and mill management, it was shown that Neale had merely acted in the capacity of scribe for the weavers in framing their petition to the mill management. On the day the Neale incident occurred the employee city neident occurred, the employee incident occurred, the employee stat-ed yesterday, a boy weaver declined to leave his looms when the general walkout took place. Some men, he stated, endeavored to coerce the boy stated, endeavored to coerce the boy in o leaving his looms, when the boss weaver interferred and forbade them showing the lad any rough treatment. This is what started the friction between weavers and the boss weaver, this employee stated, and this as why in their petition to the mill management they asked for a new boss weaver. The employee went on to state that when this petition was presented the mill management agreed to place a new boss weaver in the weave shop, but declined to make any concessions with regard to the wage question.

In the case of the reduction of wages at the Equinox Mills the management stated that wages paid there were out of proportion with those paid by other mills, and that the Equinox could no continue paying these wages and meet competition. The differences at the Equinox, Mill were settled amicably. into leaving his looms, when the boss

He will move in March 1st. Mr. Dave Taylor was the genial real estate agent to sorve the Greenwood gentleman to his entire satisfaction.

# Dressing Grain

It is about time for you to begin to think about top dressing your grain. And we want to suggest to you that you use a mixed goods instead of soda as we believe it will prove satisfactory, and is much cheaper. When crops are top dressed with soda they take on a quick, rapid growth which makes them very tender. As anything that grows rapidly is necessarily weak and tender, whether it is a child, a calf, a pig, a colt or a plant. And when it grows rapidly and is tender it becomes the same as a hot house plant and it is unable to stand unfavorable weather or conditions as well as if it grew slower and were stronger. It becomes too full of sap when it takes on this quick, rapid growth and any unfavorable season goes hard with it. Now, this mixed goods which we can sell you will make your grain grow slower than soda will and when it grows slower it will fill out better and will have a better head, and make more grain, and we believe will give better results.

Now, we are making a 9-6-0 goods-that is, 9 per cent of Phosphoric Acid, 6 per cent of Ammonia, and no Potash which we can sell you for \$30 a ton. That will put on as rapid growth as a plant can stand, consistent with safety. And then we are making a 8-2-1/2-1 goods and a 8-3-3 goods both of which will make you a good top dresser for grain. If you knew weather and climatic conditions would be just what grain needs, then soda would be the thing for you to use. But the seasons when the weather and climatic conditions were ideal, unless our memory is hopelessly at fault, have been few and far between.

A good grain crop this year will help out a condition that may otherwise be a little close with some of us.

We can sell you this fertilizer for fall payment on approved paper. And while we will be delighted to sell it to you for cash we won't require that from prompt paying customers. But we will sell it to you for fall payment and then you can sell your surplus grain in the summer for cash, and this will tide you over until your cotton crop comes in. In times like this some of us will have to learn to maneuver.

We believe it will pay you to side dress your cotton and corn with mixed goods rather than soda, for the same reason we think it will pay you better to top dress your grain with mixed goods rather than with soda. Soda makes it take on the condition of a hot house plant. It is weak and watery and sappy and can't stand droughts, or dry winds or any adverse conditions that it could stand if it were fertilized with a mixed goods where the growth is slower and the plant is stronger. Soda is not a complete fertilizer. Ammonia by itself is not a complete plant food. It is not a well balanced fertilizer. Your horse or mule or cow does better on a well balanced ration, your laborers do better on a well balanced ration and you do better yourself on a well balanced ration than you will if you live on just one single article of diet-and so will your grain and your corn and cotton and Some doctors say eating an imperfectly balanced ration is one cause of pellagra. An imperfectly balanced plant food may be the cause of your crops taking rust

and blight and other troubles which crops have. We believe it is safer to use mixed goods than it is to use soda, taking it one year with another.

These mixed goods should be applied early, in order for the grain to get the full benefit of them. We have them on hand, well pulverized and dry, and ready for shipment. The earlier you get them on now the better. It will bring you in much more than it costs you.
