

If You Can't Afford a New BUGGY OR WAGON

WHY NOT PAINT YOUR OLD ONE?

We have some excellent Wagon and Carriage Paint that we bought at a great bargain, and we are more than willing to give our farmer friends the benefit of our good fortune.

You can clean up, and paint your wagon, buggy, or carriage, and improve its appearance greatly, and add considerable to its life by painting it now. And at this time when all of us wish to economize, painting our buggies and wagons will in a great many cases answer, instead of buying new vehicles. All colors: Red, Green, Yellow, Black and Maroon.

WEEK OF PRAYER

One of Best Meetings of Week Held Yesterday Afternoon.
One of the best meetings of the week was held in yesterday afternoon by Mrs. Eula Dillingham on the

subject, 'Evangelism.' This department of the home mission board is headed by Dr. Weston Bruner, who has 25 consecrated assistants. Thousands have been converted in their meetings on the streets, in the shops and mills, and in the destitute alleys of our large cities. One indispensable aid in the work is the singing evangelists, who reach and melt the hearts of many by the message of the gospel in song. The hour closed with a touching appeal for every woman present to be an evangelist, or a bearer of good news. We can each one witness for Jesus just where we are.
Mrs. C. S. Minor leads this afternoon on Cuba and the Canal Zone. Don't fail to come and get the blessing of this meeting. The special music has been a helpful feature of each day's program. Mrs. Lottie Estes will entertain the children.

Anderson County Bond Bill.

The following is the amended bill for the proposed bond issue as passed by the legislature at its recent session:

A bill to authorize the holding of an election in Anderson County on the issuing of \$750,000 of coupon bonds for building permanent roads, to name 9 commissioners to expend the proceeds of said bonds and otherwise define their duties, powers and term of office.

Strike out all after the enacting words and insert:

Section 1. That the supervisor of Anderson County be, and he is hereby, authorized to order an election to be held at the usual voting precincts in said county on the 30th day of March, A. D. 1915, upon the question of issuing coupon bonds of the said county to the amount of \$750,000 for permanent road improvement. The commissioners of election for State and county officers for Anderson County shall appoint the managers and receive and tabulate the returns as in other elections; they shall report the result of said election in writing in duplicate, one copy of which shall be filed in the office of the county supervisor of said county, and one copy with the secretary of State, and said duplicate reports shall be kept on perpetual record in said offices. Notice of said election shall be published by the said commissioners of election in some newspaper published in the county of Anderson once a week for three weeks preceding said election. Said election shall be held under the laws governing the holding of general elections in this State.

Sec. 2. The managers of said election shall serve without compensation.

Sec. 3. The ballot shall be provided according to law; on the one ballot shall be printed the words: "For permanent road bonds in the sum of \$750,000—Yes." On the other, "For permanent road bonds in the sum of \$750,000—No." If a majority of the ballots cast in said election shall be for the issuing of said bonds, the nine commissioners hereinafter provided for, to be known as the highway commission of Anderson County, shall advertise for sealed bids on said bonds, the same to be sold in such lots and at such times as the said commission may deem advisable. No bid for less than the par value of the bond shall be considered. The commission shall have the right to reject any and all bids and readvertise for bids until the bonds are sold.

Sec. 4. The said bonds shall be known as Highway Improvement Bonds of Anderson County, and shall be in denominations of \$1,000 each, to run forty years, and to bear interest from the date of issue at a rate not exceeding 5 per cent per annum, payable in two equal installments semi-annually on the first day of January and the first day of July of each and every year.

Sec. 5. Upon the acceptance of any bid said commission shall have printed coupon bonds of said county of the tenor above set out. These bonds shall be signed by the county supervisor of Anderson County and countersigned by the chairman of said commission, and the signatures of said officers may be lithographed upon the coupons for the semi-annual installments of interest to be attached to said bonds.

Sec. 6. There shall be levied annually on the property assessed for taxation in said county a tax sufficient to pay the interest on said bonds and to provide a sinking fund of \$7,500 annually until said bonds are paid. The said sum of \$7,500 to be levied annually as a sinking fund as aforesaid shall be annually paid over to the treasurer of Anderson County, to be by him placed and kept on deposit as a separate fund in such banks or trust companies of Anderson County or of other counties of said State upon such interest as may be obtained, not 1/32 than 1 per cent per annum, payable or compounded semi-annually. The treasurer shall annually present to the circuit court of said county of Anderson an itemized statement of all such funds received by him, and where and when the same are deposited and at what rate of interest. This report shall be filed with the clerk of the said court.

Sec. 7. The funds arising from the sale of the said bonds shall be deposited to the credit of the treasurer of Anderson County in a separate fund, to be known as the Highway Improvement Fund, in the several banks of Anderson County, according to and in proportion to the combined capital stock and surplus of each bank as nearly as may be practicable, at a rate of interest of not less than 5 per cent per annum from the date of the deposit until the funds are withdrawn from time to time by the highway commission as needed by them in the performance of their duties under this act. Said fund shall be paid by the treasurer upon the warrant of the chairman and four other members of the said commission. Should any bank or banks in said county decline to receive such deposits at said rate of interest, the pro rata share of deposits due to such bank or banks so declining or refusing to accept same shall be deposited by said commission among other banks of the county. Such funds shall be withdrawn from such banks as they are deposited with in an impartial manner and proportionately to the amount held on deposit by the various banks in so far as practicable.

Sec. 8. The Highway Commission of Anderson County shall be composed of nine members as follows: J. S. Fowler, C. E. Harpe, Henry F. Cely, J. M. Broyles, Paul H. Ealre, M. Aull, Ross Mitchell, W. Frank McGee, and the supervisor of Anderson County, who shall be ex officio a member of the same. And the said commission shall elect one of their number as chairman. Should a vacancy occur in said commission, it shall be filled by an election by the remaining members of the commission, with the consent of a majority of the delegation from Anderson County in the general assembly. The chairman of the said commission shall, as compensation for his services, receive a salary of \$1,000 per year, and the other members of the commission the sum of \$5 per day for each day actually engaged in their duties as such commissioners, not exceeding 60 days each year for each member. The said commissioners shall hold office for five years, at which time the said office shall cease and determine: Provided, That the said commission may be dissolved prior to such time by vote of six of its members.

Sec. 9. The duties of the said commission shall be to use the proceeds arising from the sale of the said bonds for the purpose of constructing a system of permanent or improved public highways throughout Anderson County, the same to be laid out and constructed along such routes and of such materials, in such order and in such manner as the said commission shall deem most advisable and best for the interest of the county. In the location of the said highways the said commission shall have the right to use any of the public highways of the said county now in use, or to lay out new roads or relocate old roads as they may deem best. They shall have the same power and authority to condemn lands for the location of new roads or to relocate the old roads as is now vested by law in the board of county commissioners, the said power to be exercised in the same manner and under the same regulations as are prescribed by law for the exercise of the same by the board of county commissioners.

Sec. 10. The said commission shall, in the selection of the roads or highways to be improved, and in the location of new roads, have regard, so far as may be practicable, for the established routes of travel and the demands of the population in the various parts of the county.

Sec. 11. The said commission shall employ a competent and efficient engineer and such other assistants and such other necessary expenses of such engineer or assistants, as well as their compensation, to be paid out of the said fund.

Sec. 12. The said commission shall, so far as practicable, let out all work upon contracts, and all contracts let shall be to the lowest responsible bidder after due advertisement of the letting of any contract. The work shall proceed so far as practicable simultaneously in different portions of the county, so that all portions of the county may enjoy the benefits of the same as soon as possible.

Sec. 13. The members of the said commission shall enter into bond with sureties, as provided by law in the sum of \$10,000 each, conditioned upon the faithful performance of their duties as such commissioners, the premiums on said bonds to be paid out of said fund.

Sec. 14. The said commission shall keep books, setting forth all contracts let for the construction or repair of said roads, which books shall be open for public inspection, at all reasonable times. They shall also present annually to the circuit court of Anderson County an itemized statement and disbursed by them, which report shall be a part of the records of said court. At the expiration of the life of the said commission all its contracts, papers and books of account shall be turned over to the clerk of court of said county and filed in his office.

Sec. 15. The interest accruing on the funds arising from the sale of the said bonds while deposited in the banks of Anderson County, as hereinabove provided, shall be by the treasurer of said county applied to the payment of the first year's interest payment on the said bonds so far as it shall go, and any balance which may accumulate thereafter on such account shall be added to the principal of the said sum to be expended by the said commission as hereinabove provided.

Sec. 16. The expenses of conducting the election on the issuance of said bonds shall be paid out of the current funds of Anderson County upon the warrant of the supervisor and board of county commissioners.

Sec. 17. No member of said highway commission shall take a contract to furnish labor or material for the public improvements authorized under this act.

Sec. 18. This act shall go into effect immediately upon its passage and approval by the governor.

GREAT CROWDS ATTENDED

Osborne & Pearson's Sale Yesterday.

If the merchants who believe that advertising doesn't pay had seen the crowd in Osborne & Pearson's store yesterday, and watched the long string of bundles which continued pouring out of that well known store all day, they would have had a very convincing object lesson that advertising does pay, when backed up with real, bona fide bargains, such as Osborne & Pearson are offering in this sale.

In this issue of The Intelligencer will be found an ad from this firm that will pay you well to read. There are values in almost every department of the store.

SEAL'S CREEK NEWS

We had a good day at Seal's Creek Sunday. Pastor Hott seemed to be at his best. His message was one of inspiration and encouragement to all who trust God for strength with which to fight life's battles. Several visitors were present, and we trust they and others will worship with us often.

Mr. Robert Clark of Anderson spent the week-end at the home of Mr. J. A. Elgin.

Mrs. W. C. Burriss, who has been ill for sometime, is able to ride out a short distance. We hope she will soon be able to attend Sunday school, as she is greatly missed.

Miss Ouida Major spent the week-end here with her parents. She was accompanied by Miss Lena Elrod of Flat Rock.

Messrs. Charles Cobb and Frank Elgin used the harrow and split-log drag effectively last week, going from Seal's Creek church almost to Mr. S. N. Penman's, a distance of some two and one-half miles. That amount of work certainly speaks well for two men only. They also dragged the hill between Mr. C. F. Martin's and Seal Creek, which was almost impassable. This was greatly appreciated by our efficient R. F. D. carrier, Mr. L. W. Major. There is yet room for others to do likewise.

Messrs. Harmon Dunlap and Jeter Armstrong of Whitefield spent Saturday night with Rev. J. T. Mann.

Suggested subject for debate, "Should the immigration bill with the literacy test be enacted into law in the United States?" Give this writer the affirmative side, please, and it is his opinion that unless there is a mighty thinning down of population as a result of the European war even those true Americans who challenge the negative side will change their mind. If there is great ignorance in South Carolina now, what will be its proportion throughout the country if undesirable immigrants are allowed without restrictions to pour in upon us and undo what millions of dollars and years of toil have done. Those who read both sides of the question must, if they will look, see that this is a really momentous question—one too broad to be placed merely within the scope of politics or party lines.

Misses Idell Kay and Pearl Cox were week-end guests of Misses Lizzie and Ruelle Kriv.

Mrs. Walter Elgin and little daughter, Margaret, have come to Selma, Ala., to spend awhile with relatives.

Mr. Lewis Fields and his sister of Shady Grove section spent Sunday with their grandparents, Mr. and Mrs. Joe Strickland.

Mrs. Thomas McConnell and daughter, Miss Lucille, dined with Mrs. J. T. Mann Sunday.

Mr. and Mrs. Oscar Kay of the Union Grove section visited relatives here Sunday.

Mr. Moffett Pruitt recently visited his brother-in-law, Mr. Callahan of Belton route 5. Mr. Callahan is confined to his room with pneumonia.

Mr. G. N. Haynie, who has superintended Seal's Creek Sunday school for a number of years, resigned recently in order that others may be exercised in this kind of work. Mr. Haynie has certainly been a faithful superintendent, and it was with reluctance that the school accepted his resignation. He has promised to continue to be faithful in our Sunday school work. Mr. Haynie has been succeeded as superintendent by Mr. Samuel Smith, one of our promising young men. Let us all attend when possible, and help the superintendent in every way we can.

EXCELLENT PRODUCTION

At "The Anderson" Today—"The Dollar Mark."

Jim Gresham, owner of the Neely Davis mines, is approached by a scheming capitalist, Carson Baylis, with his friend Martin, to sell the mines under the pretenses that he is taking a great risk due to government regulations. Jim, knowing the courts had decided in his favor, flatly refuses the offer.

Baylis, with a party, visits the Cobalt district to look over the ground. During the visit one of the party, Alice Chandler, while sketching is caught in a terrific storm. Jim offers the hospitality of his little hut. During the storm the dam breaks, tearing houses from their foundations and ripping mighty trees from their roots.

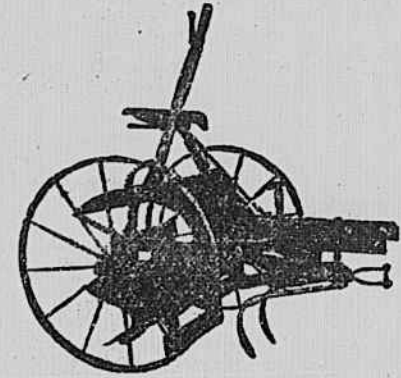

Breaking down a door, Jim, with Alice, float down the raging cataract until reaching a large tree. He chains himself to raft and tree. Martin, realizing the danger, goes to the rescue on horseback.

The party once safely on land, Jim is again approached to sell, but still refuses. Several years later Martin has become a friend and partner in Jim's bank, which Baylis attempts to break.

The news reaches Jim while at a party. Seeking a means to get to New York, Alice's brother offers his yacht. During the voyage Baylis purchases the yacht and forces the captain to put to sea. Jim in desperation compels Baylis to enter a hatch, while he closes on him, while Martin, at the point of a revolver, directs the yacht. Jim reaches New York in time to save the bank and claims Alice as his prize.

Impeachment Proceedings Dropped.

WASHINGTON, March 3.—Impeachment proceedings against Alston G. Dayton, federal judge in the northern district of West Virginia, were dropped by the house judiciary committee today. A majority report drafted by the subcommittee which investigated charges against Judge Dayton held that while his conduct in some instances had been reprehensible, there was "little possibility of maintaining them to a conclusion of guilt." A minority report recommending the impeachment was rejected.

KINGMAN STALK CUTTER

MORE GOOD FEATURES THAN ANY OTHER

Pressure spring in front of axle prevents neck weight on horses.

Double edge knives give twice the service of single edge.

Spring between pole and frame relieves jar on the driver.

Axle pins are not part of knife head and can be replaced, when worn, at slight cost.

No axle through center of reel to wind trash.

Wheels have staggered spokes and hubs have hard oil caps.

Strong, Well Made, Handsome in Appearance.

Sullivan Hardware Company

Anderson, S. C. Belton, S. C. Greenville, S. C.

THE TROUBLE ABOUT Meal and Acid

The trouble about fertilizing with meal and acid is that you get your ammonia from one source only, and that is meal and it all gives out at once. Meal is meal you know. In our mixed goods you get the ammonia from meal and fish and blood and tankage, and Sulphate of Ammonia, and as one of these ammoniates gives out, another comes in so that you have your cotton and your corn supplied with plant food from the time it sprouts in the ground, all through the working season and through the laying-by season, and until it is ready to be gathered. Fish and blood last longer than meal, and sulphate of Ammonia acts more quickly than meal and so by using these mixed goods of ours you get a complete fertilizer.

When your meal gives out your cotton sheds. The reason cotton sheds is because it has not sufficient plant food. So when the meal is used up in the soil your cotton sheds. It cannot do anything else. And then our mixed goods are more thoroughly mixed than the meal and acid will be. You could mix it as thoroughly as we can if you were prepared for it. But you are not prepared and it won't pay you to prepare for it for one farm. We expect to supply a great many farms with fertilizer and it pays us to prepare to have our ingredients thoroughly mixed. Where an improperly mixed fertilizer is used your crop will be irregular and we all know that the crop that turns off the cotton is the crop that runs regular all through. We believe it is economical to use the mixed goods instead of mixing your meal and acid. We will be glad to sell you.

Anderson Phosphate & Oil Company

We believe our 8-2 1/2-1 is the goods for cotton and corn this year. A great many are buying it. A. P. & O. Co.

Quality Hardware

has the same meaning as **Safety First**

"CHATTANOOGA" PLOWS
A PLOW FOR EVERY PURPOSE
"THE LITTLE DANDY," a one horse plow, with Cutter Share, 36 inches deep and seven inches wide. This plow has good clearance under the bottom and will not fill up with dirt and sticky soil.
"THE COTTON KING," a light two horse plow, made with steel beam, with a capacity six inches deep and nine inches wide. This plow is made Right Hand only, and from its great popularity it must be the right plow in the right place.
"TERRACING" plow. See our No. 43 and 44. Every plow maker makes this style plow, but every plow maker does not make this QUALITY plow. Either of these No. 43 or 44 for terracing land cannot be beaten. The land side is sloping, and the moldboard is concave, strongly curved. Has a high, bold front, with a thin, sharp cutting edge. It's made either right or left hand.
"SUBSOIL" plow No. 17, which is not a surface tiler, but a real "subsoiler" is the plow you need. See it and you will agree with us.
