William Howard of Charlotte spent a few hours in the city yesterday on business.

PLAN FOR BASEBALL.
Chester High School Lads Organize for Season.

Chester, March 4.—At a meeting of the Chester High School Athletic association, Henry Refo was elected manager of the baseball team for this spring. Willie White will captain the organization.

Practice began on the College street school grounds this afternoon. Seven of last year's team are back and the prospects are rosy for a fast team.

Manager Refo is arranging the schedule. There will be about eight or ten games on the local diamond and quite a number will be played with the nearby city school teams.

J. Lucy McLean, who coached the boys last year, is with them again, and he is of the opinion that he has enough good material to turn out for the Chester schools a championship team.

The season will open with Blackstock, later March 22, followed by Yorkville March 27. Games have also been arranged with Wainsboro, Rock Hill, Fort Mill, Clinton, Greenwood and Lancaster, but the dates have not been settled.

GOVERNMENT MAKING INQUIRY.
Into Alleged Rebates by Railroads on Ore Shipments.

Washington, March 4.—Certified copies of entries on the books of the United States steel corporation, alleged to show the payment of enormous rebates by railroads on the corporation's ore shipments, were promised to the interstate commerce commission today by William H. Green, of Nebraska. Green was testifying before Commissioner Harlan in the inquiry into alleged rebates. He promises to have the copies on and when the hearing is resumed.

David Lamar of New York, from whom Green admitted getting much of the information, told the commission the steel corporation's books would show the payment of rebates, and that the payments were made through dividends on the stock of the railroads, "which was pure wind and water."

When Commissioner Harlan was cross-examining Green as to his sources of information the witness retorted: "I paid my own fare down here," he said, "and had been trying to do a public service, but it seems that I have got into deeper water than I expected to."

Counsel for Lamar today asked for subpoenas for George W. Perkins, William E. Corey, former president of the corporation, Senator Oliver and several others.

A step toward bringing to a conclusion the government suit to dissolve the United States Steel Corporation was taken today when the government asked the Federal district court to fix a date to hear arguments in the case. Counsel for the steel corporation agreed to the motion. The court will announce the date later. The suit was instituted at Trenton, N. J., October 26, 1911.

UNION "BOY" HONORED.
A. G. Kennedy is Secretary of Chamber of Commerce.

Union, March 4.—A. G. Kennedy has been chosen secretary of the Union Chamber of Commerce to succeed W. K. Summer, resigned.

Mr. Kennedy is a native of Union. He is well known and greatly liked by all who know him. Mr. Kennedy will in a few days assume the duties of the position tendered him and every one predicts that he will capably fill the place.

CHILD BURNED TO DEATH.
Mother Comes Back to Find Little One in Fire.

Chester, March 4.—A child of Sam Rainey, a negro, was burned to death late yesterday evening on Cemetery street on the outskirts of the city. The child's mother had gone out into the yard to do some washing and left the child sitting by the fire. After a little while she came back and the little one had walked into the fire and was lying amid the burning wood. It is thought that as the child stepped into the fire its clothes were ignited and it inhaled the flames, causing instant death.

Mrs. William H. Cole, Townville, March 4.—Mrs. Eunice Frederick Cole died yesterday morning at 2 o'clock. She was the wife of William H. Cole, who is a prosperous farmer near here. Mrs. Cole had been sick for some time, but not considered critically ill until Friday morning, when she rapidly grew worse until the end came yesterday morning. Mrs. Cole was 44 years of age. She leaves to mourn her death her husband, five children—three boys and two girls—a mother and other relatives. She was a Christian woman, serving and doing all she could for the uplift of those who were out of Christ. She had been a member of the Townville Methodist church for a number of years.

Women in France and other countries of Europe are much more industrious than when they came to this country.

An Extension Telephone—The Essence of Convenience

"How did I answer so quickly?" "Why, we've just had an Extension telephone installed. I can send or answer calls from either floor now and there's no more tramping up or down to answer. It's splendid. Why don't you have one, too?" "Cost? Why that's almost no account. It's only a few cents a day and you can't compare the comfort and convenience to THAT."

"Call the Bell Company Dept. to order it—that's what I did."
