Winter Hangs on Says Prof. Hicks The Intelligencer is in receipt of a letter from Prof. W. H. Hicks, the lightning calculator and weather prophet, saying that the winter is but half over. This will be good news to the wood and coal men—but not to anybody else.

Prominent Men To Be Here on 20th Feaster V. Tribble, secretary of Post D of the T. P. A., has received notice from J. H. Dudley, former state president, that he will be here on the 20th of this month for the big rally that is being planned. The present state chairman, J. N. Watkins, is also expected, and Mr. Tomlinson, the next national president is looked for.

Mr. Calvin Has Left Anderson P. H. Calvin of the United States demonstration service, after spending last week in Anderson county, left last night for York county where he will spend part of the coming week. From York he will go to Cherokee county to spend the remainder of the week, returning to Anderson in time for Trades Day. Mr. Calvin will work out from Rock Hill and Yorkville in York county and Gaffney and Blackburg in Cherokee county. He told a reporter for The Intelligencer last night that he was well pleased with every single thing he had seen in Anderson county and spoke in the biggest terms of the Anderson county farmers with whom he had come in contact.

Patron Saint Is Remembered. March 17th, throughout the entire country is celebrated as St. Patrick's day and on that occasion many a sprig of green in memory of the Emerald Isle will be seen. This day is in celebration of the great apostle of Ireland. At the age of 16 St. Patrick was carried off by a band of marauders and sold as a slave to the Irish Celts of the county Antrim. After six years of bondage he managed to escape and began to prepare himself for the priesthood. In the year 405 he went to Ireland where he founded over 300 churches and with his own hand baptized over 12,000 persons and ordained a great number of priests.

Parole Granted Anderson Party. The governor yesterday granted a parole to Lillie Blackwell, convicted in this county in 1912 on a charge of assault and battery with intent to kill and sentenced to five years in the penitentiary. Six other paroles were granted convicts from various sections of the state.

last Friday night was a splendid success both from an artistic and financial standpoint. The young people who composed the cast acquitted themselves in a very creditable manner. Indeed, while the neat sum of \$40 was realized for the door, this sum will be used to assist in the purchase of an organ for the church. Much of the credit for the success of the play goes to Miss Mary Teague, the assistant teacher at the Hopewell school, who has worked long and earnestly to make the affair a success.

Anderson Auto To Be Exhibited. One of the most interesting exhibits sent from Anderson county to the State Teachers' Association, which convenes in Spartanburg on March 19, will be a miniature automobile, constructed by Oscar Hall, a 14-year-old school boy of this county. The youngster brought the machine to Anderson yesterday and turned it over to Miss Garlington and she is now arranging to carry it to Spartanburg for the Anderson county exhibit. The little machine is really a work of art and the fact that a boy of 14 years should be able to do so well is hardly less than remarkable. It is complete in every respect and excited great admiration from the numerous callers at Miss Garlington's office yesterday.

Many Tickets Already Sold. The officers of the Anderson College association sold yesterday that they had already sold many tickets for the Reed Miller Quartette which makes its appearance at Anderson college tomorrow night, and that in all probability the auditorium would be taxed to accommodate the crowd of people who want to hear this splendid musical event. Anderson people who love music will not let such a splendid opportunity as this pass by, because there are few towns of this size able to secure such gifted singers.

Former Pupil Will Present Him. At the men's meeting at the court house this afternoon the invited speaker, President Henry Nelson Snyder of Wofford college, will be introduced by one of his former pupils, J. M. Humbert of Orr Mills, one of the best known and most highly respected men in this section of the country.

PROF. TATE GOES TO PEABODY South Carolina Man Becomes Professor of Rural Education at Nashville, Tenn.

Nashville, Tenn., March 5.—At the last meeting of the Trustees and the faculty of George Peabody College for Teachers, just adjourned, nine new names were added to the faculty list, including Professor W. K. Tate, professor of rural education. South Carolina citizens, including all educators and teachers will be particularly interested on seeing on the list of names that of Professor William K. Tate, of Columbia, S. C., who has been so successful as the State Supervisor of Rural Schools of South Carolina. In this position he has made a name for himself as well as for the State, because of the thoroughness and efficiency of the work he has done in building up the rural schools of the State.

Professor Tate is recognized as the Rural School specialist in the South, and this means the beat in the entire country, if not in the whole world. Professor Tate was commissioned by the National Bureau of Education to investigate his special field of work. Some of these are "Suggested Solutions for Some Rural School Problems in South Carolina," "Teachers' Manual for the Elementary Schools in South Carolina," "Farm Arithmetic for the Rural Schools in South Carolina."

A Head to Education. T. B. Abbeyville Medium.—W. H. Hand, state high school inspector, will retire from his position June 30th, and will be succeeded by Anderson college. W. K. Tate, state supervisor of rural schools will leave his place June 30th to take up work in Tennessee. Both of these are working under the State University. These two have done more for the country schools than any two men in South Carolina since the war.

Our information is that the general education board, which has been paying the salary of Professor Hand has withdrawn its further support, because of political fights made upon the university and its correlated work. We have no definite information concerning Professor Tate's work; but have reason to believe there is a similar reason for retirement.

So far, the legislature has taken no action in the matter providing a salary for work to succeed these two splendid educators. It is intended that the educational interests of the State shall suffer the deprivation of these two offices through the neglect of the legislature? By the way, it would be interesting to know just why the General Education board cut off its support. We have heard some strange tales about politics being the cause. Paul Lot of Anderson, route 7, was a visitor to the city yesterday. Miss Lois Irvine of Laurens is spending a few days in the city with her sister at Anderson college.

Promptly at seven o'clock the guests were ushered into the dining room where an elegant six-course menu was served. Afterwards grape juice and cigars were served and several toasts proposed, among them being, "Woman, the Fairest of God's Creation," responded to by Mr. J. T. Crawford.

The message further advised that Mr. Smoak's condition was not serious and that it was hoped that he might be able to make the trip home in a few days. He has many Anderson friends who will very much regret to hear of his illness and the hope is being generally expressed that he will not be seriously ill.
