

THE ANDERSON INTELLIGENCER

Founded 1868

126 North Main Street ANDERSON, S. C.

WILLIAM BANKS, Editor W. W. SHOAK, Business Manager

Entered According to Act of Congress as Second Class Mail Matter at the Postoffice at Anderson, S. C.

Published Every Morning Except Monday Semi-Weekly Edition on Tuesday and Friday Mornings

Daily Edition—\$5.00 per annum; \$2.50 for Six Months; \$1.25 for Three Months. Semi-Weekly Edition—\$1.50 per Annum; 75 cents for Six Months; 50 cents for Four Months. IN ADVANCE

Member of the Associated Press and Receiving Complete Daily Telegraphic Service. A larger Circulation Than Any Other Newspaper in This Congressional District.

The Intelligencer is delivered by carriers in the city. If you fail to get your paper regularly, please notify us. Opposite your name on label of your paper is printed date to which your paper is paid. All checks and drafts should be drawn to The Anderson Intelligencer.

The Weather

Washington, March 13.—Forecast: Rain and colder Friday Saturday

THOUGHT FOR THE DAY

Every noble life leaves the fibre of it interwoven forever in the work of the world; by so much, evermore, the strength of the human race has gained.—Ruskin.

Anderson is My Town.—George Miller.

Anderson is My Town.—The Standpipe Man.

Not much pleasure in eating eggs when the price is so low.

From incidental speeches the suffragists have actually gone to firing buildings.

The eugenics plan was made for cattle, not for humans.

Teddy is said to be yet in favor of home coming for himself at the white house.

The "lame duck" dance is not in vogue in progressive Democratic circles.

Clothing has not been entirely abandoned. Some few things are yet permitted.

Vincent Astor says he will make farming his life work. By wireless from his yacht.

Fighting in Mexico has been awfully tame while this heated argument with the United States is going on.

With such fighting as that Wednesday afternoon it will be a long time before we can get a paid department here.

It is about time for Huerta to hike out for those same springs in Europe where old Porfirio Diaz found so much comfort.

When Bill Mahaffey enters the campaign for the state senate some hats now on the ring will look like they have been "trampled on."

In this season of spring and flowers and happiness, there is one kind of flower that is not much sought after—the wall flower at a tango party.

Last year's automobile may run all right, but you have to have the latest to be comfortable in the satisfaction that the neighbors are envious.

Cottonseed day with the chamber of commerce was a success. Wish farmers in about 40 other counties could see some of the Anderson county varieties of seed.

The G. S. & A. is doing a lot for Chick Springs where the water is but indifferent, why not do twice as much for Williamston, which has the best water in the world.

"Tuberculosis Sunday" is a good idea. Also it would be good business to have a tuberculosis jail for some of those ducks that are always spitting on the sidewalks.

Charlie Hearon of the Spartanburg Herald should not play so rough. He says: "Our old friend, the Greenville News, is looking more and more like a crazy quilt every day."

Col. A. B. Andrews appears as he did 10 years ago and we hope he has many years ahead. But don't take too long a chance, Colonel, on starting the completion of the Leno Ridge.

A GOOD MOVE

The Intelligencer can commend no move made in Anderson in a long time more than that on which the Board of Health is working to secure a public market for this city. It is a splendid, constructive move, and one which no thoughtful person will oppose.

Anderson as the capital of the leading agricultural county of the Carolinas, as second largest producer of agricultural products in all the south, and taking rank as one of the major agricultural counties of the entire country—for such is Anderson county—cannot afford longer to hesitate in building in this city a central market place and bureau for the farmers of the great country in the midst of which she is located. Anderson needs this market. Let her take this step in advance of competitive cities, and she will reap the reward.

Our old friend Uncle Dave Trelor of Sandy Springs was right the other day when he said that the best move Anderson could possibly make from a constructive agricultural standpoint would be the erection of a city market. Uncle Dave knows whereof he speaks.

The editor of The Intelligencer has for more than two years called attention to the need of a market, or exchange where farmers may come and bring their produce. It will be a boon to the people in the city who sometimes actually suffer in vegetable season for the green things that our good friends in the country are feeding to their farm stock because they do not like to come to the city and peddle from door to door.

If we had a market, the friends of the country would be encouraged to produce more for the markets of the city. The hens would have to settle down to business, and an occasional sure enough spring lamb could be brought to town while it is young and tender. Let us have the market.

CONGRATULATIONS

The Intelligencer congratulates the City of Anderson on the assurance of securing a magnificent "Great White Way." It seems certain that nothing can now prevent the acceptance of the proposition submitted to the council last night for one of the most modern and complete electrically lighted promenades to be found anywhere. Anderson, as the "Electric City," badly needs this great and epoch making improvement. Nothing will add more to the beauty and civic pride of our city than this move and The Intelligencer is glad to join hands with the city council, the Ladies Civic Association and the Chamber of Commerce in pushing this matter through to a successful consummation. We have favored it for more than two years, and as is the case with others of our deferred hopes, the fruition makes us happy. Congratulations.

THE BIGGEST AND BEST

The Gibbes Machinery Company of Columbia writes The Intelligencer a highly appreciated letter about the attention given by this paper to the receipt of the Brisey Lumber Company of the "biggest auto truck in the state." W. A. Taylor, the advertising manager of the Gibbes company states "We agree with you that this is a boost for Anderson. The Packard is the best truck on the market, barring none, and it is a solid business concern that will use one. The biggest such concern, if the size of the truck has anything to do with the incorporation in which it is situated, is in "My Town." Brisey is laws in the lead.

STARTING RIGHT

The secretary-treasurer of the Piedmont Agricultural club writes to The Daily Intelligencer that the public meeting Saturday to which the people of all Anderson and Greenville counties are invited is for the purpose of getting the farmers to organize and co-operate in the exchange of ideas and to have public addresses by farm demonstrators and others from time to time. The officers are F. I. Elrod, president; W. P. Neabitt, vice president; A. W. White secretary; Mack Marshall, assistant secretary. This is a splendid move. There should be an organization of farmers in every neighborhood for just such purposes, and they should take a deeper interest in the county union.

We have read with interest of the appointing of sponsors for the reunion to be held in Anderson. We have seen where the sons of veterans are being organized for the purpose of sending delegates to the reunion. All of which is in good order. But we insist that this reunion is for the old soldiers. The young people must take the back ground. As a matter of fact we will not be discourteous, but the old soldiers are getting very tired of the razzle dazzele and society part of the reunions. They wish to be together and to discuss the war times,

and they do not wish to be shoved into the background. And they shall not be. This is one reunion, the one to be held here in Anderson, that is to be for the old soldiers, and if the sons of veterans and Daughters of the Confederacy, and sponsors and maids of honor wish to make themselves loved forever, let them deny themselves the attractiveness of the social glamor and devote their time to making happy for a few hours these good gray men who spent so many hours on the battle field fighting to protect the south and to make it possible for the south to be free and happy as she is today.

THE FUTURE OF THE COLLEGE

The Daily Intelligencer a week ago stumbled upon information as to certain movements with reference to the management of Anderson College. A great onslaught has been made to take Mr. W. H. Hand away. This paper was requested to make no publication of anything that it learned—and it has kept the faith, and will always be found doing so when there arise matters in which the delicate adjustments of local institutions require some secrecy in their diplomatic moves.

Many a girl who feels ill during Lent will pluck up enough strength to wear a \$23.75 hat with a vegetable and flower garden crown on Easter.

Some people seem to think that everything Gov. Blease does is right and some think everything wrong. We think he does good but like all humans makes a slip sometimes.

MARCONI WINS SUIT.

Gain Control of the Field of Wireless Telegraphy. New York, March 18.—The Marconi Wireless Telegraph Company of America, won a victory in the federal courts today which, according to its officers, gives the company almost complete control of the field of wireless telegraphy. The company won an infringement suit against the National Electric Signalling Company of Pittsburg, involving basic patents granted to Sir Oliver Lodge, the British Scientist and Guglielmo Marconi, the Italian inventor.

Good Bill Defeated.

Jackson, Miss., March 19.—A bill designed to prohibit the exhibition in Mississippi of moving pictures showing "kissing and kissing unless to show love or tenderness between relatives, or to illustrate true love affairs" occupied attention of the senate at a recent session. The measure was killed by a vote of 24 to 14. The bill also was designed to exclude pictures of the wild west type and those depicting gambling, drinking, smoking, cigarettes and vulgar dances, such as the tango.

Warrington Ousted.

Washington, March 19.—As the result of the recent investigation into Redfield and a committee of other officials of the department of commerce, the lighthouse service by Secretary George Warrington, superintendent of naval construction of the service, has been dismissed and Edward C. Gillette, assistant engineer, has been appointed by President Wilson to succeed him.

Much Yet to be Done.

Washington, March 19.—Though merchant ships are expected to be passing through the Panama canal within the next three months, yet builders of the big ditch have still much work ahead of them.

IMPORTANT NOTICE

Big Rally at Piedmont Saturday—All Invited. The Piedmont Agricultural club will hold its next regular meeting at the Iyocum building in Piedmont Saturday afternoon at 2:30 p. m. The field agent of the department of farm improvement work of the Southern railway will speak. Other speakers will be present. The farmers of Anderson and Greenville counties are urged to attend as seasonal subjects will be discussed. These meetings are free and open to the public.

Snow in Appalachians

Bristol, Tenn., March 19.—Bristol and this section had a severe snow storm tonight. The snow-fall is said to be the heaviest for the season that has been known in this section of the country in many years. At midnight it was four inches deep and was still falling.

SOUTH CAROLINA NEWS.

Johnston has voted a \$20,000 bond issue to erect a new school building. C. H. Yates has been elected mayor of Camden. Oscar Land, an engineer on the C. N. and E. died in Columbia yesterday as the result of injuries received when he fell from his engine several days ago at Peak. Francis M. Cross has been named postmaster at Westminster. Hal W. Marvin, a graduate of Clemson in the class of 1907, is chief engineer of the Hawaiian Electric Company at Honolulu.

Motion Picture Commission.

Washington, March 19.—A federal picture commission under jurisdiction of the bureau of education was proposed in a bill today by Senator Hohe. Three members appointed by the President would license each film for exhibition unless "obscene, indecent, immoral or of such character that its exhibition would tend to corrupt the morals of children or adults, or incite to crime."

FLASHES

Everybody stood on the new bridge, half of it, yesterday.

David Clark, editor of the Textile Bulletin, Charlotte and brother of Supt. Clark of the Anderson Mills, is coming to give the mill people of this city an extended write-up in his paper.

Anderson has more and prettier electric signs than Greenville, and just lots more than Spartanburg.

Some of the children have to go to school today because their teachers did not go to Spartanburg. Give them extra merit marks.

Swat the fly is a good slogan, but just lots of folks in this town would like to hear the ash swatted up against the baseball good and hard.

Peach trees between Greenville and Anderson are blooming and snow on the mountains 30 miles away.

Abbeville papers are getting peevish about that railroad to Anderson. There does seem to have been a let down since that meeting in Abbeville.

Everybody, at home and in the store, should be very particular about throwing old papers in the yard. Windy days carry them a mile. Makes the town look so dilapidated.

One of the narrow escapes from the McGee stables fire Wednesday was the outfit of Jack England, the motorcade man. He had four fine Indian racing machines stored there, and they were taken out just in the nick of time. Specially built machines that have given entertainment and excitement to many thousands of people.

After the rain, the split log drag is the thing to use to fill the holes in the roads. It does seem that at the cost of only 75.00, every farmer in the county could have at least one, a home-made one, to work the main road through his farm.

"London and Paris"—That is the hesitation sign in front of a new place on West Whitner. Then you dip in and glide into a new suit made by Unger, who tells all about it in his ad.

There's a new thing going in Anderson every day. The Anderson bakery has imported a wizard in the matter of making fancy pies, cakes and such. Orders should be on short notice. This pie factory should ship all over this part of the Sate—and Georgia.

The House of Mystery at the Palm-tree Theatre pulled well despite the rain Thursday. The picture was all that was promised by Manager Pinkston. This kind of picture is usually a winner.

Wabash Receivership to End.

St. Louis, March 19.—The receivership of the Wabash Railroad is expected to end by April, and a reorganization of the company is expected by that time, according to a statement made today by an attorney for the road to the Missouri public utilities commission.

Orioles Win Second Game.

Fayetteville, N. C., March 19.—The Baltimore Orioles won their second victory of the training season over the Philadelphia Nationals here this afternoon by a score of 4 to 3. The winning run was scored with two men out in the ninth inning.

A Nice Game This.

Jacksonville, Fla., March 19.—The Philadelphia American League team and the Chicago National League club played nine innings here today without result, the score being 3 to 3. The game was called at the end of the ninth inning on account of darkness.

Gould Wins Championship.

Philadelphia, March 19.—Jay Gould American amateur court tennis champion, won the open professional championship of the world here today from George F. Covey of England, the professional title holder.

Appointed Advisory Engineer.

Albany, N. Y., March 19.—Gov. Glynn today announced the appointment of Brig-Gen. W. W. Russell, a former chief engineer of the United States army as an advisory engineer in the highway department.

CLEAN-UP WEEK

The mill people are very enthusiastic over "clean-up week" said Mr. F. M. Burnett, Wednesday. The contest will close Saturday. The mill villages will be almost spotless, for the people will take much pride in their homes.

The hat, collar and cravat are the key note of one's appearance. Keep these points keyed up to 98 per cent efficiency or you are not doing yourself justice. Patched underwear is "honorable economy" but to neglect the conspicuous points mentioned above is an error of judgment.

John B. Stetson points with pride at the selection of his hats awaiting you here.

Hats with that distinct individuality—just the thing to "top off" your Spring attire. Two dollars buys a good hat here, an Evans' Special. Three dollars buys a hat designed especially for us in the latest colors and shapes worn in New York \$3.50 buys you a hat just a little "niftier," just a little better quality than is found in any hat not bearing the Stetson brand.

Nothing can add or detract more from your appearance than the way you dress your feet. You will find the solving of your footwear troubles easy here for we have worked out the problem for you.

The unequalled qualities and styles here in patent leathers, tans, vicis and gun metals that we have selected with great care from such makers as Hanan, Howard & Foster and Snow are sure to be a fulfillment of your requirements. They are ready now. \$3.50 \$4. \$5, \$6.

SEND US YOUR MAIL ORDERS

We prepay charges on all mail orders when cash, check or money order accompanies order.

B.O. Evans & Co

THE SPOT CASH CLOTHIERS

THE STORE WITH A CONSCIENCE

Announcing a 15% Reduction in Automobile Insurance.

Where cars are equipped with a Pyrene Fire Extinguisher all insurance companies allow a reduction of 15 per cent in rate.

This liberal profit on your investment in an Extinguisher and the protection for the uninjured portion of your car, makes buying quick with the business man.

A Pyrene will be an addition to the appearance of your car; it's only 14 inches in length and 3 inches in diameter, finished in either brass or nickel.

An inquiry by mail or phone will bring you information as to how much you'll profit by the reduction on your present and future insurance.
