QUIT MEAT IF YOUR KIDNEYS ACT BADLY

Take tablespoonful of salts if back hurts or bladder bothers—Drink lots of water.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism, in bad health, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice combined with lithia and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delicious effervescent lithia-water drink and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active. Evans Pharmacy, Agents.

Washington, April 2.—Members of the two committees representing the trustees of Anderson College, Had we gone to press but a day or so later we could also have carried the news that Prof. Jas. P. Kinard, of the South Carolina Military College, had been elected to succeed Prof. Hand. The failure to hold Prof. Hand was a keen disappointment. But this failing has given way to genuine enthusiasm over the coming of President Kinard. Every one concerned in the party, President Kinard is a South Carolinian and has demonstrated at Winthrop and the Citadel his capacity for his new position. Congratulations have poured in on the trustees from many eminent sources. The Intelligencer publishes this line word from Dr. C. A. Moore, acting president of the State University:

"The board of trustees of Anderson College is to be congratulated upon the wisdom of its choice in the election of Dr. James P. Kinard, as president of their institution. Dr. Kinard possesses to an unusual degree the qualifications demanded."

Besides being a man of high character, broad culture and scholarly attainments, he has had many years of successful experience in teaching and in administrative work at Winthrop College. His natural endowment, coupled with his special training, makes him an ideal man for the presidency of a high class college for women."

We also congratulate President Kinard. He will have back of him one of the most loyal and devoted boards that ever served an institution. Upon the announcement of Professor Kinard's election Mr. T. S. Sullivan, one of the trustees and liberal contributor, stated that he would build at once on the campus a beautiful residence.
