MRS. JOE PERSON'S REMEDY

BOON TO WOMAN

VITALIZES BLOOD AND NERVES

Women who suffer from the weaknesses peculiar to their sex need a vitalizing tonic and a purifying remedy. This is furnished in the bar. It is as yet very effective compound that for 40 years has assisted and had the approval of thousands of women in the Catholic, Protestant, and other churches. It is a tonic to the digestive system; it feeds all nerve centers. With this process the bodily functions become normal, pain disappears, nervousness is deadened and life becomes worth the living. Many of your neighbors have been helped by it. Try it yourself, and learn how the benefited.

Your druggist probably has it. If not send his name and one dollar for a big bottle to

REMEDY SALES CORPORATION, CHARLOTTE, N. C.

Mrs. Joe Person's Wash should be used in conjunction with the Remedy for the cure of sores and the relief of itching and congested surfaces. It is especially valuable to women, and should always be used for ulcerations.

EVANS' Fruit Powders.

By the use of this powder Peaches, Pears, Plums, Berries, of any kind, Fruit Juices and such vegetables as Tomatoes, Beans, etc., can be preserved without the use of air tight cans.

Sufficient quantity to preserve 40 lbs. fruit for 35c.

At all our Stores.

SERUM CAUSED DEATH OF TWO

Investigation Will Be Made Into Causes of Death of Two and Illness of Two Others

Mr. Robert E. Mercer, who was in the employ of the Mergenthaler Linotype Co., has been in Anderson a number of times to inspect the Linotype machines of The Daily Intelligencer. He was very competent and had scores of friends among the newspaper men of the south.

New York, June 18.—Friends of Robert E. Mercer, who died of typhoid fever at his home in New York, on May 16, are determined that an investigation shall be made of the death of Mrs. Mercer, and the pitiful plight of their two children, Herbert, ten and Lulu, five years old, who have been languorously ill since they were inoculated with serum at the same time as their mother.

Mrs. Mercer died Monday morning. The two children have steadily wasted away and their condition is so serious that they have not been told of the death of their mother. Friends of the father, who was an employe of the Mergenthaler Linotype company, will see that the children are well taken care of and meantime they are instituting an investigation which may result in a suit against the city.

Dr. Sydney E. Smith injected the anti-typhoid serum into the mother and two children after the father had been stricken with the disease. He obtained the anti-toxin from the board of health. Following the illness of the mother and two children an investigation by the board of health was made and the conclusion arrived at was that the illness was not caused by the serum, but by typhoid itself contracted before the inoculation took place.

The death of Mrs. Mercer makes interesting the assertion of Charles M. Higgins, treasurer of the Anti-Vaccination League of America, that it can be readily proved from death certificates that there are more deaths caused every year in this city and state from lockjaw and septicaemia in vaccination wounds than by typhoid. He declares that among children the proportion is three to one a some years. In a published statement he challenges the board of health to disprove this assertion, and also challenges the board to permit a representative committee of citizens to examine their death records.

WANTS SERVANT RETURNED

Texico Called on by Brazil to Furnish the Missing Man.

Mexico City, June 18.—Jose M. Cardoso de Oliveira, Brazilian minister to Mexico, today called at the Mexican foreign office regarding the case of Gregorio Alcaraz, the Filipino lieutenant of Captain Rush, of the battleship Florida, who was captured at Ordoaba some time ago and was also brought here on a charge of being spy. Although later it was reported that Alvarez had been released, he is still missing.

The Brazilian minister was informed by Roberto Esteve Ruiz, acting minister of foreign affairs, that he personally had brought the case to the attention of General Blanquet, minister of war and that the general had asked him to convey to Senator de Oliveira his unqualified assurance that the Filipino suffered no harm and that he had been liberated last Friday. General Blanquet gave his word of honor that the Filipino was free and unharmed.

Senator Ruiz said General Blanco had given orders that the city be searched by the troops and police for the man.

The Brazilian minister today telegraphed to the German consul at Zatecas to take charge of American interests at Mexico City.

An Ex-President as Hog Reeve.

(From the Biblical Record.)

Among the questions "What shall we do with our ex-presidents?" and as a due illustration of what a public servant ought to be, here is a child's little story from the sixth president of the United States. After serving his term at Washington, President John Quincy Adams returned to his home at Quincy, Mass. At the next town meeting after his return, the moderator called up as one item of business "Whom will you have for a hog reeve?" As a mere joke a wag responded, "John Quincy Adams." The nomination was immediately seconded, doubtless in like spirit, whereupon the ex-president arose and said, "My fellow townsmen, from the beginning of my public life it has been one of my cherished principles to serve my fellow-citizens in any capacity to which they elect me. If elected to this office, I will serve to the best of my ability." He was, of course, elected and it is said that he faithfully impounded all the stray hogs, sheep, cattle and horses in the town. A little later the voters of that congressional district hearing of the incident nominated and elected him as their representative and in that capacity he served the remainder of his life. The path of humility is the path of honor, and he who reaches the summit of honor should not forget the path leading thither.

Light From the Earth.

The darkest part of the sky is always aglow. The earth itself gives off a lot of light. Scientists of the Franklin Institute have measured the intensity of a star of the first order of magnitude. It is attributed, at least partially, to a permanent aurora borealis which is revealed by the characteristic green ray observed on obscure nights in the whole heavens.

War Secretaries, Garrison and Daniels, Leaving White House

Photo copyright, 1914, by American Press Association.

HERE are the two war secretaries, Secretary of War Garrison (left) and Secretary of the Navy Daniels. They were snapped as they left the White House together after a conference with President Wilson over the Mexican situation. The snapshot is characteristic of the two cabinet members.

WILL END STRIKE

Board in Washington Gets Together on the Agreement.

Washington, June 18.—An agreement that will end the strike of about 5,000 men in the Kanawha coal fields of West Virginia was reached here late today, when representatives of the operators and mine workers accepted proposals offered by the three conciliators appointed by Secretary of Labor Wilson.

The demand of the men for the check off system, by which union dues, not to exceed \$1.10 per month, will be deducted from each man's pay by the companies, was agreed to by representatives of the Kanawha Coal Operators Association. Certain minor points are to be settled by a special commission of three.

The executive board of the miners' union will pass on the agreement at Charleston, W. Va., tomorrow, and it is expected that the men, who struck June 1, will return to work Monday.

WOODMEN SCRAPING

Insurgents Barred from the Convention Hall at Toledo.

Toledo, Ohio, June 18.—Contested insurgent delegates were barred from the convention of the Modern Woodmen of America today, when after a stormy session, the report of the credentials committee, ruling in favor of the administration forces was adopted by a vote of 233 to 125.

The vote was the first real test of strength between the contesting forces at the triennial meeting and the first step is marked in the permanent organization taken during four days of meetings. Extra police were stationed at the doors of the convention hall and none but those bearing delegates' credentials were admitted. The victory of the administration forces on the admittance of contested delegates also frustrated the plan of the insurgents to introduce a resolution for an inquiry into the financial management of the order.

OPERATION DEFIES NATURE

Reversal of Blood to Patient's Withering Limb May Save It.

(Richmond Dispatch.)

Surgeons are watching closely the effect of a rare operation performed upon F. D. Luck, 38, a railroad man. The arteries of Luck's right leg becoming choked by an overgrowth of cancerous growth, the patient's thigh and arm were amputated. The patient's thigh and arm were amputated, by turning the arterial blood into the veins and vice-versa. The dying lower leg seems to be coming very slowly back to normal.

Police Chiefs Meeting.

Grand Rapids, Mich., June 18.—Conferable political work preliminary to the elections at tomorrow's final session was done today by members of the International Association of Chiefs of Police on their pleasure trip on Lake Michigan.

Interest centers around the election of a secretary. C. J. Kiser, chief of the Norfolk, Va., force, and Frank J. Cassada, former chief at Elmira, N. Y., are active candidates. The eligibility of Cassada who is no longer a police chief is yet to be decided.

The hotel at Caesar's Head has been formally opened.

"SITS" OR "SETS"

Two Men Quarrel Over the Proper Spelling of the Word.

Atlanta, June 18.—A near-flight, a bet of a \$5, hat, and an interminable discussion grew up this morning at Five Points over the old question of whether a hen "sits" or "sets."

One of the Atlanta papers printed a story about a hen which the paper called a "sitting hen." Funny that paper should have made such a stupid mistake, said a man at the cigar stand.

"I am not so sure it was a mistake," said another.

And then the argument with the bet of the \$5 hat began.

A dictionary was produced to settle it.

The first man turned triumphantly to "set." He read:

"Set—to sit, as a hen on eggs."

That would have settled things then and there if the other man, looking over his shoulder, hadn't noticed another sentence below the definition.

"Read it all," he said, and the first man unwillingly read. "Set is sometimes used by confusion for sit."

Then the second man hopefully grabbed the dictionary and turned to "sit."

"Sit—to crouch as a bird on a nest."

Then it was that the near-flight began, and neither man is yet satisfied. Can anybody tell the true answer and which was right?

IT HAPPENED IN ATLANTA

A Box of Fish Bait—Nothing But Over-Ripe Cheese.

Atlanta, June 18.—Two hundred pounds of spoiled cheese, shipped from Atlanta to a seacoast town to be used as fish-bait, led railroad detectives and city police on a wild-goose chase yesterday that almost duplicated in the movies a favorite comedy film of the movies.

An Atlantan, who knows all about different kinds of fishing and what kind of bait is best, wired his friend, the head of one of the biggest firms in Atlanta, asking him to locate and send him all the spoiled cheese he could. They got up 200 pounds and put it in a wooden box and started it on its way.

But before it got off the Atlanta railroad platform it had aroused the sniffing suspicion of several employes.

"That's a mighty suspicious smelling box," one of them remarked.

"And just about the size to crowd a human into," whispered another.

So they called the railroad detective and the railroad detective, called the city police, and without so much as asking the shipper "By your leave," they pried a board off the top of the box. Then holding their noses, they looked in. All they found was the 200 pounds of bright yellow, over-ripe cheese, which is now safely on its way to gladden the fishes.

Motive Power in Norway.

The greatest single factor in the possible industrial development of Norway lies undoubtedly in its cheap and abundant hydroelectric power. The country having practically no coal resources, the Norwegian industries are coming to depend more and more upon the utilization of waterfalls as a primary motive power source.

FOR BETTER PENSION LAW

Old Soldiers Meeting at Pickens Court House.

Pursuant to a call of B. C. Johnson, the old soldiers met in the Supervisor's office at the court house on June 3d, and held a very enthusiastic meeting in regard to pensioning all the old Confederate soldiers.

On motion, W. B. Allgood was called to the chair and Laban Mauldin requested to act as secretary.

B. C. Johnson offered the following resolution which was unanimously adopted:

Pickens Court House, S. C., June 3d, 1914.

"We, the old Confederate soldiers of Pickens county, S. C., in mass meeting assembled, do hereby bind ourselves to stand by the following resolutions, to-wit:

"Resolved 1st, That we hereby pledge ourselves to vote only for men for the office of Governor, Lieutenant-Governor, Senator and Legislators, as do favor a pension for all bona-fide Confederate soldiers and their widows as other Southern states are doing.

"2d, That we claim that the troops furnished by South Carolina were second to none, and that their losses were more, considering the number in ranks, than any other state. Their bravery was never excelled by any army of the world, and that they sustained the honor of the State to the last, and on their return home they found ashes and destruction—demoralization on every side. Yet they went to work and after fifty years of labor to rebuild, we now have one of the richest States of the South.

"3d, That according to nature, we cannot live but a few more years, and that if our State does not show her appreciation for our services soon, that she will not have the chance to do so, for it will only be a few more years until we all will have answered the last call.

"4th, That a copy of these resolutions be sent to every Camp in the State for their consideration and that every newspaper in the State is requested to publish same."

Florida pays each old soldier \$125. B. C. Johnson, S. T. Pryor, Matthew Hendricks and others, and in the discussions the following facts were brought out in regard to what other states are doing for their old soldiers:

Florida pays each old soldier \$125.00; Texas \$100.00; Kentucky \$120.00; Tennessee \$240.00; Louisiana \$100.00; Missouri \$240.00; Virginia appropriate to all of her old soldiers annually \$600,000; North Carolina \$500,000; Georgia \$1,180,000; Alabama \$1,000,000; South Carolina \$250,000. These figures speak for themselves and therefore need no comment from us.

The following committee was appointed to assist in carrying out the foregoing resolutions, to-wit:

B. C. Johnson, of Eastley; B. J. Johnston, of Central; Matthew Hendricks, of Pumpkintown; J. T. Looper, of Pickens; A. F. McCord, of Liberty; The meeting adjourned subject to the call of the chairman.

B. Allgood, Chairman, W. Laban Mauldin, Secretary.

AMERICANS ASK PROTECTION

Missionaries in China Seeking Safety from Bandit.

Peking, June 18.—A telegraphic request from Lachnow missionaries to the American legation today asked the Chinese foreign office to give missionaries in Southern Kansu protection from the bandit, "White Wolf."

Great alarm has been created by the burning and plundering of several missions by brigands. In other instances, bandits demanded the surrender of women of the mission but the women escaped to a forest.

An expedition sent out by the Standard Oil Company to drill oil wells has been detained for several weeks and is unable to proceed from Shensi, because "White Wolf" brigands continue their devastation. Government troops are unwilling or unable to surround the brigands.

It is reported that the town of Tachau alone has lost 10,000 inhabitants who were shot or burned, or committed suicide to escape the bandits.

Plots against the government along the Yangtze River and in the South are being suppressed.

HEINZE IS DYING

His Attorney Tells Court That the Millionaire Cannot Appear.

New York, June 18.—F. Augustus Heinze, the copper magnate, is dying at his home here, according to a statement in court today by William Travers Jerome, who appeared as attorney for Mr. Heinze in a case in which a \$275,000 judgment was rendered against the magnate.

Mr. Jerome declared his client was too ill to appear in court and three physicians and several lawyers were sent to the Heinze home yesterday to determine whether it would be dangerous to his life to make an affidavit.

At the close of the examination, no one would discuss Mr. Heinze's condition. The court will take up the case again on Monday.

MOORE AND WILLIS

Furnished the Spleen for the State Campaign Meeting.

Special Correspondence.

Manning, June 18.—All attempts to inject Bifurcation and Smithism into the state campaign failed today. J. A. Hunter, candidate for lieutenant governor, replying to a question as to whether he was for Blease or Smith said: "I am for J. A. Hunter for lieutenant governor. This brought forth much cheering. The 'coal-tail swingers' came in for more laughs today.

The indications are that compulsory education will be the biggest issue in the state campaign.

There was a clash of words between W. W. Moore and M. C. Willis, candidates for adjutant general.

The Danrosch orchestra will be one of the special attractions at the next Spartanburg Music Festival.

PRESIDENT EXPLAINS

Wilson Tells Why He Published Letters Adverse to Anti-Trust Program (By Associated Press.)

Washington, June 18.—President Wilson told callers today that in making public letters earlier in the week to emphasize his view that a "psychological depression" was being created he did so without influencing congress or the legislative program, but solely to inform the public of the method being pursued by those opposed to the administration's program. The president added that his mail every day brought evidences of prosperity throughout the country.

The president said that he had received very encouraging reports on the prospects for early passage of the trust bills through the senate and that there were indications the bills will be supported by a number of republicans.

Baptist Picnic.

Owing to the inclemency of the weather the picnic of the First Baptist Sunday school, which has been arranged to be held at Williamston today, will be postponed for further announcement.

A. L. Smethers, Supt.

Commencement exercises at the Institute for the blind and deaf at Cedar Springs were held.

Winthrop College.

SCHOLARSHIP AND ENTRANCE EXAMINATION

The examination for the award of recent scholarships in Winthrop College and for the admission of new students will be held at the County Court House on Friday, July 3, at 9 a. m. Applicants must not be less than sixteen years of age, nor have been awarded to those making the highest average at this examination, provided they meet the conditions governing the award. Applicants for scholarships should write to President Johnson before the examination for Scholarship examination blanks.

Scholarships are worth \$100 and free tuition. The next session will open September 16, 1914. For further information and catalogue, address President D. B. Johnson, Rock Hill, S. C.
