ELECTRIC CITY SPARKLETS

Items of Interest and Personal Mention Caught Over the Wireless on the Streets of Anderson

Mail Carriers To Get Better Pay.
Effective August 1, the Rural Free Delivery carriers all over the United States began to draw slightly increased pay. This applied to the Anderson postoffice as well as all the other postoffices and five of the R. F. D. men going out from this city got larger pay checks August 1 than they have been drawing heretofore. The order giving the mail carriers this additional pay was issued on July 1 and therefore the pay dated from that day. The increase is based on the mileage of the route, the pieces of mail handled and the total number of parcels served, and therefore the increases at the local office did not all reach the same sum.

More Forecasts On the Weather.
Anderson people have heard enough forecasts on the weather within the past few weeks concerning what the weather is going to do, to last them for a life time, but the most pessimistic of them all is the following dope, handed out by an Atlanta prophet.

"Prof. Snyder says August will be hot and dry, with some showers and much lightning. This is considered rather probable by most students. He says fall will come late, and a hard winter is on the way. He predicts blizzards that will sweep from coast to coast, and that a great comet will light the heavens and be plainly visible to the naked eye."

Picture Shows Added Feature.
According to announcements made several days ago, the Palmetto theatre yesterday put on a vaudeville attraction in addition to its regular motion pictures and the Bijou theatre did the same thing. The two houses played to big crowds yesterday and the proprietors of each place said that they were well pleased with the attendance. It is said that the vaudeville attractions offer some high class efforts and the public seemed to be enthusiastic last night over the two shows.

Reorganizing The Local Camp S. C. V.
The officers of Camp W. W. Humphreys, Sons of Confederate Veterans, are making an effort to get their camp reorganized and in good working shape. It is understood that a number of new applications for membership have just been received and no little interest has been aroused around town. This camp of the Sons is one of the best in the entire state and its membership is composed of a splendid body of men. When the reorganization is effected more and better work will be accomplished.

Walhalla Folk Like New Train.
Several well known business men of Walhalla were in Anderson yesterday and these gentlemen said that Anderson could not possibly over-estimate the worth to this city of the motor car service, which was recently inaugurated on the Blue Ridge. The visitors said that already people from Seneca and Walhalla are in closer touch with Anderson than they have ever been before and they expect this state of affairs to continue.

Will Test Milk On Farms Today.
J. W. Rothrock, agricultural agent for Anderson county, will go out in the country today for the purpose of making official tests of milk. Mr. Rothrock will visit the plantations of L. C. Garrison, H. N. Garrison and R. W. Hammond and he will carry with him his machine, which he uses for making these tests. He hopes that he can furnish Anderson county farmers with some valuable information relative to milk and butter.

Last Excursion Of the Season.
The Piedmont and Northern line is now announcing that the last excursion of the season to be operated over its lines will be run Friday, August 7, from Anderson to Spruce Pines, N. C., in connection with the O. C. & O. railroad. A very low round trip rate of \$2.50 has been granted for this trip. The schedule calls for the party to leave the city at 6:30 A. M., reaching Spruce Pines at 2 P. M., and returning the train will leave the North Carolina town at 5 P. M. The beautiful mountain scenery and the wonderful mountain tunnels in North Carolina will probably induce many Anderson people to make the trip.

Back Home From Army Enlistment.
J. P. Hardin, son of Coroner Hardin and well remembered by Anderson people, has returned to the city after serving for three years in the United States army. Mr. Hardin enlisted at Columbus, O., and saw his first service in Alaska. Later he was sent to San Francisco and finally his company went to El Paso for border duty during the recent Mexican trouble. Mr. Hardin says that he is glad to be out of the service and he will now remain in Anderson, where he expects to go into business.

Sheriff Green Is Not to Leave.
Announcement was made yesterday that Sheriff N. R. Green has purchased back from the North Anderson Development Company his splendid country home about one mile north of Anderson. One year ago Sheriff Green sold this place and at that time planned to leave South Carolina to engage in business in Georgia. The news that he has changed his mind and will remain in Anderson will be welcomed by his many friends and the friends of his family.

Spend a Month In the Mountains.
A congenial party who will leave today for Cashins Valley to spend the month of August is composed of Dr. and Mrs. J. P. Trowbridge, Mrs. Patrick and Miss Rita Patrick, Mr. and Mrs. B. O. Evans, Mr. and Mrs. George Speer, Mr. and Mrs. Theo Watson. They will occupy the Patrick cottage, a large roomy house ideally fitted up for a summer home, right on the side of the mountain.

Sunday School To Have Picnic.
The Sunday school of Midway Presbyterian church will picnic at Williamston on Thursday. The young people will meet at the church at 8 o'clock Thursday morning and will go in wagons.

The older people will go in buggies and carriages. Mr. W. A. Webb, the superintendent, wants all to go.

Demonstrator Is Very Optimistic.
Spooking of the crop conditions in this county, J. W. Rothrock, agricultural agent for Anderson county, said yesterday that conditions in Anderson on the whole are very good. He says that much of the young cotton is now coming on at a rapid rate and that with favorable conditions even the latest plantings will yield one-half crop. Mr. Rothrock says that of the 5,000 acres of farm land, damaged in this county by the recent hail storms, about 1,000 acres will be a total loss but the remaining 4,000 will yet make good cotton.

Bad Day For Breaking Bones.
Sunday was a bad day for breaking bones in Anderson. Al Fortune had a misunderstanding with a mule and struck the animal in the head with his fist. As a result of this Mr. Fortune suffered a broken bone or two in his fist and had that member in a sling yesterday. When Mack Ligon tried to crank his automobile the machine "kicked" and the young man sustained a broken arm. Both patients were said last night to be doing nicely.

Mr. Chapman Is Out of Hospital.
E. K. Chapman's many friends will learn with a great deal of pleasure that he has been discharged from the Anderson county hospital and was able to return to his home on McDuffie street yesterday. Mr. Chapman is able to sit up now and says that he is gaining in strength at a very rapid rate. It is all probability he will be able to come up town for a short stay within the next few days.

Delivery Messenger For Postoffice.
Harold T. Howard, an industrious young man of this city, has been appointed by Postmaster Cochran as special delivery messenger for the Anderson postoffice. Hereafter all special delivery letters reaching Anderson will be carried out by this messenger. This additional service for the local office will be appreciated by the patrons.

Moving To A New Home.
Dr. and Mrs. J. B. Townsend are this week moving to their pretty new home on South McDuffie street. This is one of the most comfortable houses on this well known residence street. The new house is modern in every detail and fitted with every convenience and is one of the most complete to be found in the city.

Product That Made Milwaukee Famous.
There was a weeping and wailing and gnashing of teeth at the home of John Williams when Officer McClellan of the police force arrived and seized 100 bottles of beer and about three-fourths of a quart of whiskey. The beer was in the keeping of John's wife, Lena Williams, by name, and she put up a strenuous resistance before she would permit Mr. McClellan to remove the booze.

Youths Fond Of Weed.
Fond parents, much exercised over youths who refuse to quit smoking and chewing, might show this article to the aforesaid kid. Officer Driscoll was advised last night by J. K. Manco that two boys had made away with two boxes of chewing tobacco out of his place of business and Mr. Driscoll at once went on the trail of the offenders.

enders. He succeeded in locating their general route but was about at sea when he suddenly ran full into them, walking down the railroad track. He took them in charge and they were fined \$15 apiece in police court.

Brushy Creek In Fine Shape.
Well known planters from the Brushy Creek section, spending yesterday in Anderson, said that they had nothing to complain of and that in their sections crops were fine, and everybody is healthy and happy, and they have no complaint to make against the world. For a time the farmers in the Brushy Creek section suffered for lack of rain but they say now that their crops are as good as may be found.

County Commissioners In Session Yesterday.
The Anderson county commissioners held a short session in the office of the supervisor yesterday afternoon. The meeting was one of no special importance, as the business transacted consisted entirely of auditing and approving bills. This was the first Monday in the month and the regular day for the meeting of the county board.

Registration Board Broke All Records.
The county registration board in session at the court house yesterday broke all records when it issued the largest number of certificates that the present board has ever issued in one day and is thought to be a record for this county. The members of the board were hard worked all day and had their hands full, attending the numerous voters.

Visitors Interested In the Discussions.
The city was filled with visitors throughout the day yesterday, many of these being farmers who came in for the day because of the meeting of the county democratic executive committee. The visitors evinced a keen interest in the deliberations of that body and seemed to have been especially interested in the appointment of the managers.

Invitations Out For Reception.
Handsome invitations have been issued by Anderson lodge No. 1206, B. P. O. E. U. S. G.

Anderson County OATS GOT TO GEORGIA.

More than 200 bushels of contoured, graded seed oats were sold yesterday to various Georgia points for shipment September 1st. War may come and years may go, affecting the price of cotton—but grain goes on forever with no depreciation in value because of foreign troubles.

FURMAN SMITH, The Seedman.

Whitefield Won One and Lost One.
In two games of baseball played on Saturday the Whitefield baseball team won one and lost one. The first one they won from Belton by a score of 9 to 8, in which game the batteries for Whitefield were Howard and Ducworth and for Belton Shaw and King officiated. The second game Whitefield lost to Eureka, 10 to 5, the batteries for Whitefield in this game being Boarder and Duckworth while Belton and Hammond worked for Eureka.

Electric Storm At Piedmont.
Passengers on the trains coming in to the city Sunday from Piedmont reported that there had been a heavy electrical storm there in the middle of the afternoon and the trolley wire had been struck by lightning, tearing up the track and delaying the trains.

Anderson Folks In the War Zone.
Among the Anderson people who are on the European continent is a son of Capt. R. M. Shirley of Honea Path. Mr. Shirley is a student at Davidson College and has gone abroad with some of his college mates. They were having a splendid trip when a heavy storm struck last night that the family had received no information in the last day or so from his sisters, Misses Flora and Jean, who are in Europe, but they consider that no news is of course good news, for the company which is handling the tourists keeps informed and would send notice in case of danger or distress.

PEACEMAKERS IN WAR ZONE Arrive Safely in Paris Without Holding Meeting.
(By Associated Press.) Boston, August 3.—A cablegram announcing the safe arrival in Paris of fifteen American delegates to the meeting of the church peace union, which was to have been held at Constantinople, was received today. Rev. John A. Hamilton of Boston, a bishop of the Methodist Episcopal church, is a member of the party.
