HOW TO CURE A LA GRIPPE COUGH

"Coughs that hang on" demand treatment. Stop and think! Reason and common sense tell you that it is folly to "grin and bear it." Those racking la grippe coughs that wrench the body and cause soreness and pains in the lungs yield more quickly to Foley's Honey and Tar than to any other treatment. Forty years' record of successes proves this. For coughs, colds, croup and other distressing ailments of throat, chest, lungs, larynx and bronchial tubes, you can find nothing that will compare with this reliable remedy.—Sold by Evans Pharmacy.

A suite of rooms has been leased for the purpose and Mr. McCants expects to move in some time this week. For two or three years prior to that Mr. McCants had his offices at one of the school buildings, and prior to that he was established over the storeroom of Webb & Webb. ITCHING ECZEMA IS DRIED RIGHT UP WITH SULPHUR

Use like cold cream to subdue irritation and clear the skin.

Any breaking out or irritation on the face, arms, legs and body when accompanied by itching, or when the skin is dry and feverish, can be readily overcome by applying a little bold-sulphur, says a noted dermatologist.

He informs us that bold-sulphur instantly allays the angry itching and irritation and soothes and heals the Eczema right up leaving the skin clear and smooth. Bold-sulphur has occupied a secure position for many years in the treatment of cutaneous disorders because of its parasite-destroying property. Nothing has ever been found to take its place in treating the irritable and inflammatory skin affections. While not always establishing a permanent cure it never fails to subdue the itching irritation and drive the Eczema away and it is often years later before any eruption again appears.

Those troubled should obtain from any druggist an ounce of bold-sulphur, which is applied to the affected parts in the same manner as an ordinary cold cream. It isn't unpleasant and the prompt relief afforded, particularly in itching Eczema, proves very welcome.

Positive Relief For Constipation

The progress of modern medical science is, perhaps, no more forcefully evident than in the simplifying of many of the old time remedies of past generations. For instance, the harsh cathartics and violent purgatives used by our forefathers to relieve constipation are now known to be not only unnecessary but really harmful. Constipation can be more effectively relieved without the discomfort and pain these old-time remedies occasion.

A combination of simple laxative herbs with pepsin, sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin is most effective, yet mild and pleasant. It is absolutely free from opiates and narcotics and equally as desirable as a remedy for the tiniest babe as for rugged manhood. A free trial bottle can be obtained by writing to Dr. W. B. Caldwell, 412 Washington St., Monticello, Ills.

McGee of Anderson was reelected president of the club, by reason of the fact that he had paid for more business in 1914 than any other agent of the company in the State; his personal paid for business amounting to $175,084.

Mr. Geo. W. Speer of the Anderson agency also retains his membership in the Hundred Thousand Dollar Club, inasmuch as his personal paid for business amounts to $111,584.

The company has had a very successful year, although conditions have not been favorable.

POPULAR LOCOMOTIVE ENGINEER EXPIRES

J. RAMEY HUGHES SUCCUMBS TO ILLNESS YESTERDAY AT WALHALLA

FUNERAL TODAY

At His Home—Interment Will Be at Walhalla—Long in the Railroad Service.

J. Ramey Hughes, for the past 21 years an engineer in the employ of the Blue Ridge Railway, died yesterday morning at 2 o'clock at his home in Walhalla of an illness which seized him Saturday night after leaving Anderson at his regular post at the throttle of the passenger train. The funeral services will be held this morning at 11 o'clock at Walhalla, conducted by the Rev. George M. Wilcox, after which the remains will be laid to rest in Westview cemetery. Capt. J. R. Anderson, superintendent of the Blue Ridge Railroad, who brought Mr. Hughes to this road in 1894, will be one of the pall-bearers. Other employes of the Blue Ridge Railroad will go from this city to attend the funeral services.

Was Feeling Unwell.

Last Saturday, Mr. Hughes complained of not feeling well. In fact, it is stated that Mrs. Hughes urged him not to go to work that day, but so loyal to service was the engineer that he went in spite of his ailment and performed his duties as usual.

He left Anderson Saturday evening about 6 o'clock for Walhalla at the throttle of the new engine drawing the passenger train. He was taken sick after leaving Pendleton, and when the train reached Seneca river the engine was stopped while someone went to the house of a section foreman living near to get some medicine to relieve the engineer's suffering. In the meantime he was taken into the baggage car, where members of the crew gave him what treatment they could under the circumstances. The fireman, Jurd Chambers, ran the engine on to Seneca, where physicians were summoned to attend Mr. Hughes. The engineer was too ill to be taken from the train at Seneca, so was taken on to his home at Walhalla, where he lingered until Monday morning at 2 o'clock, when he breathed his last.

Long In Service.

Mr. Hughes was born in Abbeville county about 46 years ago. Early in life he began work on the railroads. When the Southern Railroad was organized and took over the old Richmond & Danville Railroad, Mr. Hughes was taken off that system, where he had been running for years, and sent to the Blue Ridge Railroad. He had been running on the Greenville-Columbia division and between Columbia and Walhalla. As stated, he was brought here by Capt. Anderson, when the latter was placed here in August 1894 as superintendent of the Blue Ridge, coming here in November or December after Capt. Anderson.

During the 21 years he was connected with the Blue Ridge Mr. Hughes ran a passenger engine. He was the oldest engineer in point of service on the Blue Ridge and one of the most valuable men in the service. The railroad, of course, feels his loss keenly, and realizes that his place will be hard to fill.

Engine Is Draped.

In 1892 Mr. Hughes was married to Miss Nannie Maxwell, who survives him. His was the hand of safety, the throttle. He was known by almost every man, woman and child between Walhalla and Belton. The people who knew him trusted him and loved him. He lived a beautiful life as an engineer, citizen and husband.

Out of respect for the dead engineer the handsome new engine of which he had been in charge only a few weeks is draped in mourning. This emblem will remain on the engine for a period of 30 days.

THE TAB SHOW MAKES A HIT

The Tab Show on at the Palmetto yesterday and last night certainly made a hit with the audience which braved the terrible weather of the afternoon and evening; however those who did go, stated that they were well paid for coming out; that Mr. Pinkston had given the people of Anderson this week the very best show he had ever given them; and that it certainly was a wonder to them how he could show such a show for the money.

The trio of singers and the soloist made a big hit, singing "It's a Long Way to Tipperary;" they had to come back and back again to respond to repeated encores.

The two comedians were very clever, and taken all in all, the entire show from every angle is very good indeed—much better than is usually seen at the price charged.
