APPROPRIATION FOR THE AGRICULTURAL EXPERT IS URGED

COUNTY FARMERS UNION WOULD HAVE SUM OF \$800 OR MORE SET ASIDE

OTHER MATTERS

Union Also Requests Appropriation of \$400 Promised County Demonstration Agent.

Recommending that the county delegation appropriate the \$800 requested by Prof. W. W. Long, State agent of the farmers cooperative demonstration work, to be used with a contribution from Clemson College and one from the national government for placing in this county an agricultural expert, and requesting the delegation to place in the 1915 budget for this county the \$400 which the county agreed to pay on the salary of Farm Demonstrator J. W. Rothrock, the following resolution was adopted by the Anderson County Farmers Union at the meeting held Tuesday in the court house:

Whereas, when the appointment of Mr. J. W. Rothrock as agricultural demonstrator for Anderson County was made April 1, 1913, by the officials of Clemson College and the United States department of agriculture, it was understood that \$600 of his said salary would be paid by Clemson College, \$200 by the Anderson Chamber of Commerce, and the remaining \$400 by the farmers of the county; and

Whereas, the said \$600 and the said \$200 have been paid or are ready to be paid, in accordance with contract, and the Farmers Union considered it but fair that the entire county should bear the expense as it has received the benefit of the remaining expense of \$400, and whereas in compliance therewith this organization passed resolutions asking the board of county commissioners to have such sum put in the Anderson County supply bill for 1915, to which action the said board of county commissioners heartily concurred and recommended the same, as a fair, equitable and reasonable method of handling the appropriation;

Therefore, Be it resolved, By the Anderson County Farmers Union, in special monthly session today, January 12, 1915, that we ask the Anderson County delegation to have such \$400 included in the county supply bill at the present session of the legislature, and also any further amounts as may be necessary to prosecute the work for 1915, up to, but not exceeding \$500, which we understand is the amount that Mr. W. W. Long, State agricultural agent deems necessary for the work beginning April 1, 1915, and ending April 1, 1916. Be it further resolved; That we congratulate the people of Anderson County on the splendid progress made in agriculture, and deem this class of work of paramount importance to all the people of the county, and believe no money can be better spent.

Done this 12th day of January, A. D. 1915.

J. W. ROTHROCK, President.

SPEECH CAUSES STIR IN SENATE (CONTINUED FROM PAGE ONE.)

cially believe. It not only challenges the wisdom of its leaders, but it assails the intelligence and patriotism of the rank and file. All this is done at a time when our country has sore need of united wisdom and patriotism. The people were not prepared for such a speech at such a time.

"Mr. President, we accept the challenge. While opposing no legislation which we deem for the public good, we will hold ourselves perfectly free to oppose in all proper way, and to the full extent of our ability that which we deem to be unwise. Understanding that our chief magistrate prefers the leadership of a party to a chief magistracy of an entire people, we shall not need to be reminded of that fact again. Believing in the policies of our party, believing in the intelligence and patriotism of its voters, we shall without any misgivings as to our ultimate purpose seek to advance the one and make no mistake as to the defense of the other."

Denouncing the achievements of the Democratic administration, the speaker appealed for an extra session of congress next spring to pass rural credits legislation, which he insisted was vastly more important than the ship purchase bill. He characterized the federal reserve act as a "sort of antediluvian mac'odon, too dead for a menagerie and too much alive for the operating table, designed for the treasury, but seemingly on its way to the Smithsonian Institute." The cry of the 1916 campaign would not be "for new ideas, but for bread; not for more rhetoric, but for more soup."

Dr. Crile Goes to Help French Soldiers.

Dr. George W. Crile of Cleveland, one of the noted surgeons of the world, has gone to France with a corps of assistants and nurses to

work in the American Ambulance Hospital in Paris. Dr. Crile will find friends in Paris, for his fame has spread around the world, and he is recognized as one of the authorities.

When asked by Senator Robinson what he would do with Mexico if charged with executive responsibility or "when you get to be president," Senator Borah replied: "If I were president I would say to the Mexican people, 'We want you to settle your own internal affairs and we will never interfere for the purpose of acquiring territory.' Secondly, I would say to them: 'You will respect American lives and property or the United States will see to it that they are protected.' The flag that will not protect its citizens is a rag and contaminates the air in which it floats."

Senator Cummins, discussing his resolution for information as to projected disposition of Vera Cruz customs, denied the right of the president "to say to what government, to what bondholders or obligation holders money collected by the military forces of the United States should go." The Iowa senator attacked the president's alleged efforts to control legislation, declaring that "it would be a great service to the people of the country if the chief executive could be confined to his powers." He said he was "simply objecting to his position that he is trying to run the United States" although no doubt the president "assumed it with perfect honesty."

MARKET REPORT

New York Cotton

NEW YORK, Jan. 13.—The reactionary tendency which developed in cotton yesterday was in evidence again today and prices closed barely steady at a net decline of 8 to 10 points. The opening was steady at an advance of 1 to 3 points in sympathy with the continued firmness of Liverpool and some of yesterday's local sellers appeared to be covering on private cables reporting an increasing spot demand. Offerings soon increased, however, and as prices eased off, rumors were circulating of rather an easier turn in the spot situation in the interior, particularly in Alabama. Later advices failed to confirm these reports, but there was considerable southern selling and closing prices were the lowest of the day with July contracts selling at 8.52 or about 16 points below the high record of yesterday morning.

Part of the southern selling here was believed to be for long account, but there was also considerable selling here which local traders attributed to the hedging of supplies previously carried without protection in the south. It is reported that a fourth steamer has arrived at Bremen with cotton cargo.

Spot cotton quiet; middling uplands 8.05. Sales 300 bales. Cotton futures closed steady.

New Orleans Cotton

NEW ORLEANS, Jan. 13.—The cotton market was nervous and unsettled today. There was much talk of a reaction, but the market had little selling power. Early in the day the stronger months made a net rise of 9 points, but there followed a decline which, at its widest, was 6 to 5 points, with the close 6 to 3 points down. The chief bullish influence was the continued good demand for exports and statistics showing about a quarter of a million bales of cotton booked for Scandinavian and Italian ports. Exports for the season went over the three million mark today, the to-

tal being 3,047,057 bales, thus fulfilling bullish predictions that the movement would exceed three million by the middle of January. While bulls made much of this bears pointed out that stocks at ports were the largest on record, 1,741,463 bales tonight, and that there were prospects that they would reach two million bales.

Spot cotton steady; sales on the spot 850 bales. Cotton futures closing: January 7.60; March 7.82; May 8.05; July 8.25; October 8.53.

Chicago Grain

CHICAGO, Jan. 13.—Unlimited and at times excited buying was the rule in wheat today, with exporters and millers racing for supplies. Setbacks failed to last and the market closed strong at 13-4 to 21-3@25-8 above last night. Corn finished 1-8@1-4 to 1-4 net lower; oats unchanged 1-8@1-4 off, and provisions down 7-1-2 to 2c.

NEW RECORD GRAIN PRICES

Wheat, Oats and Barley Prices Break the Record on Portland Exchange.

(By Associated Press.) PORTLAND, Ore., Jan. 13.—Wheat, oats and barley prices established new high records on the Portland exchange today.

Twenty-seven thousand bushels of March blue stem wheat sold at \$1.47 a bushel, an advance of 2 cents, while March red fell sold at \$1.40, 3 cents above previous prices. March oats leaped to \$37.50 a ton, an advance of \$3.50. May oats advanced \$3 to \$39.50. Spot oats sold at \$36.50, an advance of \$2. Spot feed barley advanced \$1.50, selling at \$30.50.

Chicago Federals After South Carolina Players

(By Associated Press.) GREENVILLE, S. C., Jan. 13.—Walter Barbara, who was last season signed by the Cleveland American league team, has been receiving offers from Joe Tinker, of the Chicago Federal league team, he stated today. Barbara was on his farm near here when he received a wire from Tinker and answered by letter under a contract with Cleveland. Barbara was reticent about whether a good offer would cause him to jump. He started with Greenville in the old Carolina League in 1912, went to Asheville in the North Carolina circuit, from there to New Orleans in the Southern League and thence to Cleveland. Barbara is anxiously awaiting a reply from Tinker.

WILL TEAR DOWN OLD FRAME BARN OF CITY

MATTER OF NEW BARN IS POSTPONED FOR THE PRESENT

WILL SELL

Old Barn at Public Auction in Near Future—May Aker Present Barn.

The special committee of city council, which consists of all members of that body, for the purpose of reaching some decision with reference to the matter of providing new stables for the city stock, gathered yesterday afternoon at 3 o'clock at the city hall and went for an inspection of the city stables and other sites about the city available for this purpose.

The committee decided not to attempt the erection of any new permanent stables just at this time. It was decided, however, that the old wooden barn which stands on the lot occupied by the city stables would be torn down and sold at auction. The committee set next Monday as a date for the disposal of the old barn. It was stated that the committee is considering the advisability of enlarging the present city stables for the present, or making other changes that would make the present satisfactory for the time being. However, no definite decision was reached with regard to this matter, and the question will probably be settled some time in the immediate future.

HOW TO CURE A LA GRIPPE COUGH

"Coughs that hang on" demand treatment. Stop and think! Reason and common sense tell you that it is folly to "grin and bear it." Those racking la grippe coughs that wrench the body and cause soreness and pain in the lungs yield more quickly to Foley's Honey and Tar than to any other treatment. Forty years' record of successful cures proves this. For coughs, colds, croup and other distressing ailments of throat, chest, lungs, larynx and bronchial tubes, you can find nothing that will compare with this reliable remedy.—Sold by Evans Pharmacy.

I BROKE MY GLASSES

once and found how inconvenient it was to be unable to use my eyes for the balance of the day. I made a resolve then that I would make it possible to replace a broken lens, however complicated its formula the same day the order was left with me. I have succeeded even better than I hoped, for new we are able to replace any broken lens, even where you do not give us the prescription, in from one to three hours, with an exact duplicate MADE IN OUR OWN SHOPS. Is this worth anything to you? It so remember this advertisement the next time you break a lens. This is only one example of the thoroughness and modernness of my entire business.

J. W. FIELDS TALKS Gives His Explanation of Why He Was Arrested.

J. W. Fields, until recently connected with the Anderson office of an insurance company, and arrested some days ago on charges of giving a bogus check, requests The Intelligencer to give his explanation of the matter.

He states that it had been customary with the agents to use moneys collected on premiums and use it for their own purposes, securing it, however, by a check given the superintendent, which would be paid out of their salary, which was always sent in about the seventh of the month.

Fields states that he gave the superintendent his check for \$22.50, and, at the request of the superintendent, marked the check "shortage in collections." Fields knew at the time, he stated, and the superintendent knew, that he did not have funds in the bank, but would take the check up when his salary was sent in on the seventh of the month. This check was given on January 4. Before the seventh of the month came, however, he states, he was discharged. Immediately the superintendent, he states, swore out a warrant for him charging him with having given a bogus check. "I did not receive my salary check," he stated, "and the only moneys I received was a commission check for \$2.45, which came in on January 8."
