Uncle Dave's Letter

Many people in this country thought when the Buropsan war began that its hardships would not be felt by us. They were inclined to think that since there were no alliances or other interests to implye us we could sit by and watch the straigle as a drama on the stage. Some indeed, went so far as to predict processity for the countries on the side of the atlantic. But this will prove to be a shortsighted view of the shuaten. The soldarity of the human race is a fact. What concerns one part of the world concerns all parts. And especially is this true of trade. Since trade consists of exchange for mutual profit, the greater the profit. An impoverished the greater the profit. An impoverished as goods in quantities, and takes corresponding amounts in return. When the simpoverished she can neither hay nor sell much.

Gur trade with Europe, therefore,

Our trade with Europe, therefore, will suffer from the restricted production that accompanies the war. Nor will the high prices that the war-

SIX GOOD POINTS FOR BURAL BOUTE PATRONS

Kansas Dally Prints Some Exections.
Suggestions for patrons to Follow to
Facilitate Mail Delivery—Based on
Winter Weather Conditions—They
Hit the Kall on the Head.

The following valuable and pertinent hints to patrons of rural routes appeared in the news columns of the Manhattan (Kan.) Daily National of December 11. Read them over, they're worth while.

First Purchas

Some people are like wheelbarrows—they don't go unless they are pushed.

A woman always feels sorry for a man who has trouble with his wife—
unless she happens to be the wife.

Nover hit a man when he is down—unless you are mighty sure he is down to stay.

Our sins are sure to find its out—see one in there to norrow morning. But they have an unpleasant nabit of calling again.

You may practice economy every known way, but your taxes never saries.

"First Purchase stamps and envelopes and lave all mail ready to dispatch. Stamp your letters and cards before depositing them in your mail box, and especially do this for your carrier, in all bad weather. Did ever you think how cold it would be for the rural carrier to take off his wraps and gloves and pick small coins out of your mail box? Have you a little cup in your box to place the coins in? If net your carrier would like to see one in there to norrow morning. He carries for the patron may buy in sufficient quantities to enable them to stamp all mall before it is left in the box.

"Second—Is your box well located? It should be set away from the fence on a solid post, and about four feet above the ground, in a position that the carrier may drive very close to it, and easily reach same without unwrapping.

and easily reach same without unwrapping.

"Third—Has your lox a sign on it? If it has not, and there should happen to be no mail for you some day then your outgoing mail is most likely to be left in the box, as carriers are instructed to look for mail only in the boxes where the sign is shown of outgoing mail. Any simple sign that is easily seen when displayed is all that is necessary.

"Fourth—It you have any friends visiting you and they want their mail to come to your hox, you should mention it to the carrier and he will watch for same at the postoffice, should it not come addressed to your care. Visitors' mail most betten comes without special address.

"Fifth—Do you receive any parcel

"When the snow drifts around your box, see that it is cleared away and the road open to your box by the time your carrier comes. Remember, the Postoffice Department does not require him to get out of his vehicle to get to a box. The carrier is not supposed to venture into snowdribe, or mud.

"These are only a raw of the ways you can usaist in prompt delivery of your mail. Your carrier will do his bost to always return good for good."
