Burriss Metal Shingles GREAT FIRE PROTECTION

In the case of the fire yesterday afternoon, which destroyed the two story house at No. 404 Bleckley Street, and occupied by Mr. Will Edwards, the houses thereto would surely have burned if they had not been as wet as they were as a result of the extremely wet weather we have been having recently.

A Burriss Metal Shingle roof will afford great protection in case of fire near you; this has been proven time and time again.

Better look into this NOW. Our Fire Department is terribly handicapped in getting to the fires on account of the very bad streets.

OLD LEE HOUSE WAS DESTROYED BY FIRE

WILL EDWARDS, TENANT, LOST HOUSEHOLD EFFECTS ENTIRELY

WAS INSURED

House Valued at \$2,000—Was Insured For \$1,000—Mr. Edwards Carried Insurance.

Fire of an unknown origin yesterday afternoon at 6 o'clock completely destroyed dwelling No. 404 Bleckley street, commonly known as the old Lee house, where the late W. S. Lee, father of D. S. Lee of the Southern Public Utilities Company and allied interests, and his family lived for a number of years. The house was valued at about \$2,000 and was insured for \$1,000 with the Fealty Trust Company. The dwelling was occupied by Will Edwards, a carpenter and formerly street overseer for the city, who lost practically all his household effects, valued at \$750 and insured for a comparatively small amount. The house was owned by W. S. Lee of Charlotte.

Members of the family were aware of the fire when flames burst through the ceiling and into the living room, where they were seated. It was evident that the fire originated between the overhead ceiling of the first story and the floor of the second story. The occupants of the dwelling were taken so completely by surprise that they barely had time to escape from the burning building. Only a piece of furniture were gotten out of the building by neighbors who were quick to arrive at the scene of the fire.

Immediately upon receipt of the alarm at the department headquarters all equipment of the station was called out. The automobile hose wagon was the first to get away, but was followed closely by the horse-drawn wagon and the hook and ladder wagon. The various vehicles made good time across the square, but after passing Earle street, going up North Main street, they were greatly handicapped by the deep mud. The auto hose wagon was brought to a stop upon striking the mud, but after a short delay was started again. The horse drawn vehicles were, of course, greatly hindered by the mud.

When the fire department reached the scene of the fire the dwelling was enveloped in flames. The auto truck stretched 750 feet of hose and the horse-drawn wagon put out 650 feet of hose, these two streams being all that were brought into play. The water did good work, but the flames had gotten such a long start they were unable to save the structure. Being an old, two story dwelling and entirely of wood construction, the flames licked it up readily.

Better be safe than sorry—Willie P. Sloan, insurance.

McLeod & McDonald Musical Comedy Co. are highly recommended. They are playing at the Palmetto this week. Read what the Augusta Theatrical man says about them.
Augusta, Ga., Jan. 23, '15.

Mr. A. M. Pinkston, Anderson, S. C.

Dear Mr. Pinkston:—
Today we finish a very successful week in every way with the McLeod-McDonald Musical Comedy Co., which is about the classiest small tab we have ever played. The company is well balanced and the singing is the equal of any of the 18 people tabs. The costumes are clean and attractive, the girls of the show nice looking and of good figure, the men far above the average in manner and ability. I consider the show unusually good.

The sister team, Inez and Odey, are a riot, and you will remember them as the feature with Frisdenwald's show. They are very clever.

The quartette is very good and shares honors with the other features of the show.

The male members of the company have not only good voices but strong and enlivening. The same applies to each girl of the chorus.

Miss Mona McDonald, an English actress, is very magnetic in her talk on her experiences on the merchant vessel, on which she voyaged to America, and we made a special "Tipperary" night during the relating of her experience. The Bijou could not hold them. She is a big drawing card. I suggest you carry out "Tipperary" night, if you play the company. She was held up by the German cruiser, Eruder.

I suggest that you get in touch with Greenwood and have him place the show in Anderson for an early date. They will make good with the Palmetto patrons, in my estimation.

Hoping to see you soon and with kindest personal regards, I am,
Yours very truly,
E. J. SPARKS.

THIS IS A BAD MONTH.

The indoor life of winter, with lack of outdoor exercise, puts a heavy load on kidneys. Nearly everybody suffers from rheumatism, backache, pain in sides and back, kidney and bladder ailments. A backache may not mean anything serious, but it certainly does not mean anything good. It's better to be on the safe side and take Foley Kidney Pills to strengthen and invigorate the kidneys and help them do their work. They help rid the blood of acids and poisons. Sold by Evans Pharmacy.
