

IMPORTED BREAD MAY ADVANCE IN PRICE

THOUGH DEALERS HAVE NOT YET BEEN NOTIFIED TO DO SO

LOCAL BAKERIES

Will Not Increase the Price of Bread at Least For the Present.

While no official announcement has been made with reference to the matter, it is possible that those persons in Anderson who are in a habit of buying their bread from grocery stores that handle bread baked in Greenville, Spartanburg and other cities of this section and shipped here for distribution will shortly have to pay six cents instead of five cents for a loaf.

As generally known, the price of bread has been advanced from five to six cents in Wilmington, Charlotte, Greensboro and Asheville, North Carolina, and Spartanburg and Greenville, South Carolina. There are a number of grocery stores in the city that handle bread imported from Greenville, Spartanburg and other cities of this State and North Carolina and Georgia.

Local money conditions were unchanged but a slight hardening of the rate for long time accommodations was manifested. Interior banks bought moderately of mercantile paper.

Bonds were easier except certain minor issues which showed gains. On the curb there was active trading in the proposed New York Central 6's at between 103 and 104.

United States registered 2's declined 1-8 per cent, and the coupons 2's 3-8 per cent, on call.

New York Cotton.

NEW YORK, Feb. 9.—While trading continued quiet today cotton showed a generally steady tone with the close unchanged to 2 points higher.

The opening was barely steady at a decline of 1 to 6 points under overnight selling orders which probably were inspired by the easier ruling of prices in yesterday's late trading.

The nervousness as general here toward the end of last week owing to apprehensions of an unsettled shipping situation, appeared to have been relieved by the continued free clearances, and prices gradually worked about 4 to 5 points net higher.

Spot cotton quiet; middling uplands 8.65; sales 102. Cotton futures closed steady: Open High Low Close.

WASHINGTON, Feb. 9.—Plans to meet the demand for labor in the agricultural States during the harvest season were set on foot today by Secretary Wilson.

Lavallieres

A lady came into my place a few days ago and said that she had been all over town looking for a Lavalliere.

I felt a little bad as I was the last on the list. But when she wrote a check for \$50.00 and put on one of the prettiest Lavallieres I had, I felt better.

LaVallieres from \$3.00 to \$50.00.

Commerical and Financial

Stocks and Bonds.

NEW YORK, Feb. 9.—Stocks were inclined to make further upward progress early in today's session, but sudden weakness in New York Central, which declined 4-1/4 points, soon caused general unsettlement.

Another development which should have rebounded to the advantage of the local market was a further break in exchange on London to the lowest quotations since October, 1907.

Bothlehem Steel, which has been the object of much manipulation recently, went to a higher price than before but receded on realizing sales.

PACKING FIRMS FINED \$125,000

Payment Must Be Made by March 11, Or If they Violate Anti-Trust Law Must Leave State

(By Associated Press.) JEFFERSON CITY, Mo., Feb. 9.—Fines aggregating \$125,000 were levied by the Missouri supreme court today on five large packing firms and under the decree of the court the right of the companies to continue business in Missouri is conditioned on the payment of the fines by March 11.

The suits were an ouster brought by Governor Major when attorney general in 1910, and were directed against the companies on the ground that they had violated the State anti-trust law through the organization of the National Packing Company, as a holding company, for the other concerns.

The court summarized the evidence as showing an agreement among the companies to restrict competition, fix the prices of livestock and of dressed beef and dominate the trade generally.

Pays Tribute to Army Supply Departments

Eyewitness at British Headquarters Mentions Particularly Ordnance Department.

(By Associated Press.) LONDON, Feb. 9.—(7:26 p. m.)—An "eyewitness" at the British general army headquarters in France pays a tribute in an article given out today by the official press bureau to the excellent work of the army supply departments, mentioning particularly that of the ordnance department which supplies all clothing, equipment, tools and machinery, as well as arms and ammunition.

"The ordnance department is a military universal provider," says the writer.

"It is difficult to say which is the most striking—the actual mass of material handled or the bewildering variety of articles stocked.

"The vastness of the work of maintaining a modern army may be gauged by the fact that during the past month the supplies furnished included 450 miles of telephone wire, 530,000 sand bags, and 10,000 pounds of shoe blacking, while in ten days the ordnance department supplied 120,000 top waistcoats and 300,000 flannel belts. The average weekly issue of equipment for feet is five tons.

Mr. Bonner Linder of Hartwell, Ga. who was brought here several weeks ago for an operation at the Anderson County hospital, has fully recovered and returned yesterday to his home.

FAILED TO ADOPT PLAYING DATES

National League Club Owners Will Take Up Schedule at Meeting This Morning.

(By Associated Press.) NEW YORK, Feb. 9.—Although the principal business for which the National League club owners met here today was to ratify and adopt the playing dates for the coming season, the matter was laid over until tomorrow.

At the session of the board of directors which preceded the regular meeting today President Tener announced that he had appointed as umpires R. D. Emalle, William J. Klein, Mal Eason, William Byron, E. C. Quigley, William Hart and Al Orth.

Instead of revoking the edict that no players be sent into training camps by any club before March 1 each year, this was made a hard and fast rule and read into the constitution.

Chairman Herrmann, of the committee, submitted an amendment providing that there shall be no recall after a waiver has been asked on a player. It will be discussed tomorrow and probably will be adopted.

A letter was received from the International League asking for permission to place a club in the Bronx borough, of this city; but no action was taken in the matter.

Every club in the league was represented at the meeting.

Managers Bresnahan of Chicago; Moran of Philadelphia; Herzog of Cincinnati and Huggins of St. Louis held several consultations while the meeting was going on.

President Gaffney of the Boston club, stated today that as Manager Stallings is detained through illness at his home in Haddock, Ga., the selection of Boston players to complete the Sherwood Magee deal with Philadelphia will not be made until Stallings is able to take active part in the club's management again.

DOES NOT INTEND TO SIT IDLY BY

And Permit Federal Judges to Suspend Indefinitely Impositions or Executions.

(By Associated Press.) WASHINGTON, Feb. 9.—Attorney General Gregory has notified all United States district attorneys that in the future the department of justice does not intend to sit idly by and permit federal judges to suspend indefinitely either the imposition or execution of sentence on a convicted criminal.

"No court has such a power. It is in effect a pardon or commutation. Nor may a court exercise it indirectly, by a continuance of the case from term for sentence or by other similar device.

This custom has been the cause of complaint, and has tended to somewhat discredit the administration of the criminal law in the federal courts.

"In the future you will protest against and object to any motions or requests for such suspension order, and report the making of the order to this department, that it may take the necessary step to compel the issuance of commitment upon any such sentence.

"Because this involves an attack upon a practice heretofore tolerated, proper courtesy to the judicial officer requires that he be advised in advance that the department finds it necessary in future to oppose these orders. You will kindly convey this information to each judge of your district and at the same time offer, should any judge doubt this limitation of his judicial power, to furnish reference to decision relating thereto—which reference the department at your request will furnish."

AN INCREASE IN THE DEATH RATE

Census Bureau's Report Shows 14.1 Deaths per 1,000 Inhabitants in Year of 1913.

(By Associated Press.) WASHINGTON, Feb. 9.—A death rate in 1913 of 14.1 per 1,000 of the estimated population in the registration area of the United States, compared with 13.9 per 1,000 in 1912, is shown in a report today by the census bureau.

The average age at death for both sexes, from all causes combined, was 39.8; for males alone 39.2, for females 40.6. Nearly 18 per cent of all deaths were of infants under one year of age and more than 25 per cent were of children under five years.

The death rate from tuberculosis declined from 149.5 per 100,000 population in 1912 to 147.6 in 1913. The rate from cancer rose from 64 per 100,000 in 1909 to 78.9 in 1913. The number of suicides was 9,998, the rate being 15.8 per 100,000 compared with 16 per cent in 1912.

THE WILHELMINA REACHES ENGLAND. Believed to Be Making For Falmouth—Cargo Will Be Seized and Thrown Into Prize Court.

(By Associated Press.) FALMOUTH, via London, Feb. 9.—(11:27 p. m.)—The American steamer Wilhelmina with a food cargo aboard for Germany arrived here late today. The captain of the Wilhelmina said he came to Falmouth of his own free will and had no prize crew aboard.

Customs officers boarded the vessel on her arrival, but it has not been announced what action was taken. The Wilhelmina lies in the stream with the American flag flying. She had a rough passage, officers describing it as the worst in their experience.

LONDON, Feb. 9.—(6:25 p. m.)—Although the British foreign office tonight claimed that it had not been advised as to the movements of the American steamship Wilhelmina, bound from New York for Hamburg with a cargo of foodstuffs, the appearance of the vessel off Lizard Head, at the western end of England shortly after noon today, is generally believed to indicate that the ship is making Falmouth, a port much used for the detention of vessels carrying cargoes under investigation. The policy of the British government concerning the Wilhelmina, it was stated at the foreign office, has undergone no change. Her cargo of foodstuffs destined for Hamburg will be thrown into a prize court and the ship will be released as soon as possible.
