RELIEF ASSOCIATION HELPED MANY PEOPLE

PRESENTED TUESDAY TO PRESIDENT

ACTION

The Association Helped Many People to Help Themselves. Report

The following report of the activities of the Anderson Relief associawas presented yesterday to President G. Cullen Sullivan by General Sec-retary Fred M. Burnett;

February 16th, 1915. Mr. G. Cullen Sullivan, President. Anderson Relief Association,

City. My Dear Sir: We beg to submit the following brief summary of the work accomplished by the Anderson Relief Association for the month of January February 11th, exclusive.

It will possibly be well at the very outset to state some of the principles which have guided us in approaching the cases which have come under our jurisdiction.

First of all we have exercised great care with regard to making personal investigations from our headquarters that is to say, we have thought it a part of wisdom to get all the information possible about cases under consideration from neighbors and from the individuals themselves, yet we have not in any case rendered assistance where an official from our head quaters has not looked into such case personally and made recommendations to your secretary.

The second principle which has guided us has been to give practically no money to parties applying for relief. In case greceries, coal, wood

a treasure in old age. no money to parties applying to lief. In case groceries, coal, wood medicines, etc., were needed we always furnished such and had the merways furnished such as the suc chant or merchants supplying same to send bill to Mr. G. H. Geiger, treas-

urer of the relief association.

We found at the very outset that a careful investigation of each case recareful investigation of each case reported to use would require a great deal of time and labor on the part of the officials of the relief association, therefore, it became necessary to organize the different forces of the community interested in the work of the association. We have found the services of the relief committees of the various Sunday school classes of the churches of the city are invaluable in making investigations, and we wish to lay special emphasis upon the conference of the representatives of the for lay special emphasis upon the conference of the representatives of the colored population of the city which met at the Y. M. C. A. on the 15th of January. There were gathered at this conference 25 of the leaders, including pastors of the colored churches teachers in the jubic schools, as well as a conference with the colored churches teachers in the jubic schools, as well as representative laymen from each of the churches, and committees were appointed from each church and school for the purpose of calling to the attention of the association cases where relief seemed necessary, as well as to carefully investigate and made recommendations to the associa-tion. We desire in this connection to mention also a contribution of about 375 packages of food donated by the different grades of the colored graded school of the city.

At the very outset we were flood-ed with requests for aid but as soop

as every one was convinced that in each case a careful investigation was to be made we found that the un-worthy applicants were rapidly re-All requests coming from any of the citizens of the mill village com-munities were handled by our Mr. Mims, and mention should be made

Riss Your Coal Stove

Goodbye!

We wish to emphasize also in this connection mill communities.

We wish to emphasize also in this connection this important fact, that the people who have applied to us for most part, have not desired charity, but an opportunity to do honest work, and we feel that the greatest need at this time in anderson is two or three hundred jobs for persons looking for work. The extremely bad weather conditions have made it practically impossible for the laborers who have been in the habit of doing washing and odd jobs around the house, such as cutting wood, gardening, etc., to do any work at all. With the single exception of cases of protracted illness we have found the above mentioned case most prevale we wish to emphasize also. Splendid contributions made by the physicians of the city, both white and colored, both in treating the sick and in making wise recommendations to

Anderson Gas Co.

Anderson the city, both white and colored, both in treating the sick and in making wise recommendations to us. In practically all cases of distress we find that the services of a physician are necessary and the doctors have in many cases heen our best guides and most valuable counselors. Their services have indeed been of great value.

We have not been at all embarrassed for lack of funds, etc. The contribution of money as well as articles of clothing, etc., etc., has been indeed generous. All of the churches of the community both white and colored, have made splendid contributions. The city of Anderson, through the mayor and the city council, and a large number of private individuals have con-

2. A man with our small children, he oldest of which was six years and he youngest one a few months, applied to us for aid. The mother of the small children died last December and the man had been wandering about from place to place since that time. Some kind-hearted people at the cluck min offered them food and shelter temporarily, as a result of a special appeal from us to the community through the local press a libher and the man had been wandering thout from place to place since that time. Some kind-hearted people at the cluck will offered them food and shelter temporarily, as a result of a special appeal from us to the community through the local press a liberal response of clothes, etc., was fiven. We succeeded in placing the man in a good position and the chilling the man in the chilling the man in the chilling the chill man in a good position and the chillifen in a comfortable home.

3. An old negro man 87 and his
wife 85. After careful investigation
we found that they had not had either
coal or wood for two weaks.

The agony and distress now! You can.
Millions of men and women have found that headeache or neuraligia misery is needless. Get what you ask for.

coal or wood for two weeks. This was furing one of the recent coid and rainy periods. They had actually burned at least one bedstead and reversible in the attempt to keep warm. The husband was practically blind and their only means of support for layers 1 years has been the leben of been used in my household for the past twenty years. I began giving it The husband was practically blind and their only means of support for several years has been the labor of the wife, doning such odd jobs as she was able to find.

4. A negro woman with seven children, whose husband abandoned her several months ago, was found in most destitute circumstances. The ildest child was only ten years of age and the resonance was all two my children when they were small. As a quick relief for croup, whooping cough, and ordinary colds, it has no equal. Being free from oplum and other harmful drugs, I never felt afruid to give it to the children. I have recommended it to a large number of friends and goighfors, who have used it and speak highly of it," writes Mrs. Mary Minke, Shortsville,

most destrible Circlinstances. The oldest child was only two weeks old and the mother had been, since the child was four days old, picking cotton and trying to get enough food to keep the children from starving. All nopes of a fire had been abandoned, although the weather was very cold and the rain was falling in torrents. We found that this woman had a splendid reputation, that she was a hard worker, but she was waging a losing battle against cold and hunger. We have investigated all told 164 different cases and have rendered assistance in 114 cases. 47 different individuals have applied to us for work. We have been able to locate 14 positions only. We have given clothes to 37 different families.

We wish to respecially commend the
