### STATEMENT MAKE

Commissioners Are Anxious to Take Public Into Their Confidence on Matter

For the purpose of organizing and discussing various preliminary matters, a meeting of the five citizens of the county selected to take charge of the proposed bond issue of \$750,000 for good roads met yesterday morning at 11 o'clock in the office of Judge J. S. Fowler, who was designated in the bill as chairman of the commis-

At this meeting all those selected for membership on the commission agreed to serve, whereupon formal organization was perfected. The com-missioners then went into a discussion of various matters pertaining to the election and the proposed bond issue. Various subcommittees were appointed for the purpose of looking after certain details that are necessary just at this time.

Members of the commission brought

encouraging news from their respec-tive sections of the county. What op-position to the measure existed when the bill was first mentioned has been dispelled as people have learned more of the details of the proposed move-ment, several of the commissioners stated.

The commissioners asked that the fact be stressed that they are not only willing but anxious to take the public into their confidence and will gladly answer all questions pertaining to plans for improving the highways and expending the proceeds from the proposed bond sale.

When the conference had been con-cluded, the commission issued the fol-
