New York Cotton.

NEW YORK, Feb. 27.—An early decline in cotton was followed by moderate rallies, and the close was very steady, net 4 points lower to 1 point higher.

Apprehensions that cotton might be made contraband seemed to be largely responsible for the selling movement. The talk around the floor today reflected fear that even if this were not done some measure might be adopted which would greatly restrict future shipments to Germany or Austria.

The market opened at a decline of 4 to 5 points, and later sold about 7 to 9 points net lower under scattering local liquidation and New Orleans selling.

Trade interests were buyers on the decline, and prices later recovered most of the loss on covering which was probably promoted by the comparatively heavy spinners' taking for the week. Closing prices were practically the best of the week.

Notwithstanding predictions of a decreased export movement, the amount of cotton on shipboard awaiting clearance at the close of business yesterday was 451,914 bales, or nearly 30,000 bales in excess of the amount at the same time last week.

Cotton closed very steady:

Spot cotton quiet; middling uplands 8.35; No sales.

Liverpool Cotton.

LIVERPOOL, Feb. 27.—Cotton, spot, steady. Good middling 5.28; middling 4.94; low middling 4.55. Sales 6,000; speculation and export 2,000. Receipts 34,780.

Futures quiet: May-June 4.84 1-2; June-July 4.88 1-2; July-August 4.92 1-2; October-November 5.06; January-February 5.13.

New Orleans Cotton.

NEW ORLEANS, Feb. 27.—Fear that England might add cotton to the contraband list caused much selling and a decline in the future market today. Covering of short cotton by bears who wanted to realize profits after the week-end kept the tone steady and caused a complete recovery. The close was at a net loss of 1 to 2 points. At the lowest the trading months were 6 points under yesterday's close.

Bulls were nervous because of the situation abroad and exporters were said to have withdrawn from the market. Telegrams from the interior of the belt said restrictions around shipping were having an unfavorable effect.

Cotton futures closed: March 7.94; May 8.15; July 8.36; October 8.64; December 8.79. Spot cotton quiet, unchanged. Sales on the spot 335; to arrive 2,400; middling 7.75.

Cotton Goods

NEW YORK, Feb. 27.—Primary cotton goods markets have been firm. Prices on most lines hold steady but on some of the wide print cloth yarn goods there has been slight recession varying from 1-16 to 1-8 a yard. Staple brown domestics are barely steady while bleached cottons and printed goods hold firm. White sheetings, sheets and pillow cases, and pillow tubings continue firm. Staple ginghams are steady, southern lines now being held generally at 5c against the low point of 4 1-2c last year. Dress ginghams under a few brands are being sold steadily but the general trade in them is not active. Cotton duck continues in steady demand for export for war purposes. Duck for general commercial purposes continues generally quiet. Retailers have been buying wash goods and white goods more freely for immediate and nearby delivery, and fine printed wash fabrics for dress purposes being par-

ticularly active. Agents handling the best known lines of napped cottons are satisfied with the volume of fall business done but there are other lines unsold and prices continue in favor of the buyer. Shipments of goods on old orders are full and steady with frequent requests for anticipations of delivery. Prices are as follows:

Print cloths, 28-inch 64x64s, 2 7-8c; 64x60s, 3 3-4c; 38 1-2 inch 64x60s, 3 15-16c and 4c; brown sheetings, southern standards, 6c; denims 9 oz., 12c; tickings 8 oz., 11 1-2c; standard prints, 4 3-4c; staple ginghams, 6 1-4c; dress ginghams, 9 1-4c.

Stocks and Bonds.

NEW YORK, Feb. 27.—Irregular prices and moderate trading were the features of today's session on the stock exchange. The movement was upward at the outset, followed by general declines and an uneven close. Amalgamated Copper was strongest of the active list. Other speculative favorites, made only fractional changes either way.

Foreign exchange was easier, the rate for London bills being slightly under yesterday's final quotations, while remittances on Germany repeated recent low record figures. It is expected the coming week will bring developments of importance to the various markets for exchange, with further gold imports from Canada.

Weekly trade reviews refer to renewed expansion of business. Retail trade in most sections is expected to be stimulated by the first indications of spring weather.

Foreign news of interest included dispatches of a probable Swiss loan by American bankers. The amount mentioned is relatively small and if carried out may take the form of treasury notes. A more cheerful tone prevailed in London's markets, but the volume of operations there, especially in Americans, was little more than nominal.

Announcement that Western Pacific probably would default on its bond interest at a receivership proceeding would be instituted against the road excited little interest by reason of the fact that such action had been foreshadowed.

Today's bond market was sluggish with total sales, par value, of \$1,132,000.

United States registered 2's declined 1-4 per cent on call, during the week.

Chicago Grain.

CHICAGO, Feb. 27.—The wheat market today scored a substantial advance. News that forty warships had forced a passage many miles up the Dardanelles did not reach here until after trading hours. Prices closed strong, 2 1-2 to 4 1-4 above last night. Other net grains were: Corn 2 1-4 to 2 1-2 @ 5-8; oats 1 1-4 to 1 1-8; and provisions 5 to 12 1-2c.

Grain and provisions closing: WHEAT—May 1.53 1-2; July 1.24 3-4. CORN—May 74; July 76 1-8. OATS—May 57 1-4; July 54 1-4. CASH GRAIN—Wheat, No. 2 red, 1.49 3-4 @ 1.52 3-4; No. 2 hard, 1.50 1-4 @ 1.53 1-4.

NEW YORK, Feb. 27.—Cotton goods were quiet and steady today. Burlaps were higher. Linens and dress goods were advancing. Jobbers reported good trade in white and wash goods.

Cotton Seed Oil.

NEW YORK, Feb. 27.—Cotton seed oil was inactive but prices were steady in absence of selling pressure and in sympathy with hard closing 2 @ 6 points net higher.

News From Seneca

Tida City to Have 24 Hour Electric Current.

SENECA, Feb. 27.—For some time the business men of Seneca have realized that our town is seriously handicapped by not having a twenty four hour electric current, and there has been much talk of late on the streets about it. It was felt that this was a useless handicap when there were three separate plants from which a continuous supply might be available.

The town of Seneca owns an electric plant which supplies lights to the town and residences, the Conners Power company is a locally control-

"Mrs. Wiggs of the Cabbage Patch" at "The Anderson Monday."

The World Film Corporation releases the five-part photoplay, "Mrs. Wiggs of the Cabbage Patch." The picture was produced by the California Motion Picture Corporation, who made a successful attempt to preserve the atmosphere of the novel and the stage play in the film. Alice Hegan, the authoress, also wrote "Lovey Mary," and this picture is a composite presentation of the two themes which interact to comprise the story that forms the basis of the photoplay scenario. Mrs. Anne Crawford Flexner dramatized the books under the title, "Mrs. Wiggs of the Cabbage Patch," which was first produced at the Savoy theatre, Thirty-fourth street, New York City (The Savoy Theatre is now a motion picture house), in September, 1903.

Mrs. Flexner and Mrs. Rice were friends and the former lady, and experienced dramatist, wished to turn the books into plays. She did so; although discouraged by Mrs. Rice and many friends, who declared that the books did not contain the necessary dramatic material. The possibilities of "Mrs. Wiggs" were suggested to her one stormy day in a crowded Sixth avenue car, in New York, when she saw a boat torn off a pontoon pier, Wiggs, and who in spite of that other discomfort, came up swirling, showing such grit, spunk and sense of fun, as to delight and amuse the whole weary car-full of people.

"Mrs. Wiggs of the Cabbage Patch" was played for nine months in London, and so great were the crowds of English admirers of the play that it had to be moved from Terry's theatre to the Adelphi. It has travelled round the world, in China, Japan, Australia and Canada, and has been translated into German.

Tryon, Ga., to keep house for Mr. M. S. Mimmis, her sister's husband. Mrs. Mimmis died a few weeks ago leaving six small children. Mrs. Smith has conducted an up-to-date and popular milliner establishment here for several years and her leaving will be distinctly loss to the town.

The Once-a-Week Club was entertained by Mrs. W. J. Lunney this week. A two course luncheon was served. The program was unusually interesting.

Ellison Van Hoose COMING TO ANDERSON WITH HIS CONCERT COMPANY TO BE AT ANDERSON COLLEGE ON MARCH FOURTH

the world, in China, Japan, Australia and Canada, and has been translated into German.

Beatriz Michelena plays the part of "Lovey Mary" in the photoplay. Miss Michelena, by her beauty and ability, has won great renown as a motion picture star, and is seen to advantage in this film. Blanche Chapman plays the part of Mrs. Wiggs.

The character of Mrs. Wiggs has become a classic of American literature, as embodying the best attributes of a good nature, kindness, and common sense in all circumstances of life. "Poor but honest" she is, radiating cheerfulness, contentment and forgiveness about her. The photoplay takes scenes in humble life; in the circus, in fashionable and industrial life as its backgrounds, and the characters have all the seeming of actually being drawn without exaggeration. Although here and there touching the truly dramatic, the comedy element gives up pretty well, the total result being an acceptable mixture of humor and pathos in well judged proportions.

The task of reproducing the atmosphere and feeling of well-known novels and books on the motion picture screen is often attempted nowadays, but not always with success. "Mrs. Wiggs of the Cabbage Patch" is an exception to the general rule. The story is "racy of the soil," i. e., it is truly and typically American; and its plot is plausible almost to the extent of triteness. The characterization is the main strength of the photoplay as well as of novel and stage play. "Mrs. Wiggs" is only one of many interesting characters in the offering.

This picture will be shown at "The Anderson" Monday, March 1st. Admission 5c and 10c.

LATE TRAINS TOO

Arrangements Made for Having Trains Leave City After Evening Performances

Special rates will be secured over the Charleston & Western Carolina, Piedmont & Northern and Blue Ridge Railways for the Anderson Musical Festival, which will open in this city for a three days' program of music and art, such as perhaps has never before been brought to a city in the upstate.

Captain Wm. Laughlin, chairman of the Central Musical Festival Committee, stated yesterday that in addition to these low rates, arrangement would be perfected to have late trains leave the city each of the three night of the festival.

The sale of tickets for the festival under the auspices of the ladies college association, will begin Wednesday or Thursday of this week, and the H. D. Goss bill posting company, will begin putting out the advertisements for the festival tomorrow. The central committee are of the opinion that the talent secured for the music festival will equal that which Spartanburg has had in former years, and will be a treat to all the people of Anderson and vicinity. The artists in music alone will be worth any one's time to attend.

The Intelligencer will carry several special announcements Tuesday in connection with important features of the festival.
