

A Word About The Policy Of This Store

At all times we are working for the interest of our patrons as well as ourselves—we offer you only what we would like to be offered, GOOD CLEAN MERCHANDISE at prices reasonable enough for you to make a purchase.

TODAY we have a treat in store for the ladies. The new styles we opened this week look better than any we have ever had before, and we have marked them within your reach.

For instance, we are showing two pumps, the newest cut Colonial and latest heel, worth \$3.50 for \$3.00.

Four pumps, one a dull leather, one a vici, one a gun metal and the other a patent, we have always sold for \$4, but this season they'll go for \$3.50.

Baby dolls. Beyond a doubt we are showing the rarest selection of these yet to be found. The patent leather with a one inch heel for \$2 can't be touched. Two others for \$2.50 in gun metal and patent leather have the best shaped toe ever tried on and the one for \$3.50 is the most perfect fitting slipper of them all.

ington representatively, gave out the following summary tonight of messages on the military situation:

"General Angeles telegraphed from Monterey that the campaign was progressing rapidly. Coal fields near Maclovio Herrera, defeated there by our Generals Hernandez and Percys. Within a few days we will have all the fuel we need for transportation purposes. In Monterey all is still and enemy evidently has not resolved to attack.

"Salvatierra and Alcanbaro, two important places in the State of Guanajuato, have been captured by the convention General Arroyo. The enemy fled abandoning their military stores, leaving the entire northern part of the State free from Carranzistas."

Apparently there is no prospect of the embargo on the port of Progreso, in Yucatan, being raised. A report to the state department today said it was Carranza's intention to keep the port closed and that two gunboats would be sent there to take the place of the Progreso, which was blown up a few days ago. The gunboat Brayo has gone to Tampico from Vera Cruz and not to Progreso, as previously reported, it was announced.

The arrivals said that quantities of arms and ammunition had been received by the Carranza forces from Central and South American countries by way of Havana.

A report here today said Carranza troops had cut the Central Railroad between Chihuahua City and Torreon. General Villa is said to be in the vicinity of Guadalajara.

INVESTIGATING PARK MYSTERY

Cook, written a day or so before Miss Cook disappeared.

"It is ridiculous to suppose Mr. Mayo had anything to do with Lillian's disappearance," said Miss Waterbury. "He was interested in her because of me. I became very fond of her. She knew that I wasn't married to Mr. Mayo. But she did not leave because she learned of this. She left because she was intelligent, ambitious, wanted to improve herself and the place as nurse-girl wasn't the kind of place for her."

"We decided she should go to New Haven to join Mr. Mayo's office force. I don't remember whether the suggestion came from Mr. Mayo or from me."

"When she disappeared Mr. Mayo telephoned and told me she was missing and asked if she had come to me or if I knew anything about her. Of course, I didn't."

"In my opinion Lillian wandered away while temporarily deranged. She was studying very hard. She wrote to me before she disappeared telling me about the examination she was to take the following night at the business school. I am afraid it was all too much for her."
