

Where Ships Have Been Sunk In and Out of "War Zone" Since February 17.

This map shows the operations of the German mines and submarines since the decree of the "war zone" about the British Isles went into effect at midnight, February 18. In all there have been sunk twelve vessels some by submarines and some by mines. The two American vessels to suffer, the Evelyn and the Carib, went down off German harbors as the result of contact with mines, so no very serious international questions were raised. But some other neutral ships have been sunk by submarines. The Germans have given no assurance that they will not sink American vessels flying the American flag without close investigation. Nevertheless, the fact remains that for the first nine days of the operations in the war zone by their submarines they had sunk no ship flying the American flag, though they had not so highly regarded the flags of weaker neutral nations.

Commerical and Financial

New Orleans Cotton.

NEW ORLEANS, March 9.—While cotton was under considerable selling pressure today it made some show of strength and closed steady on the improvement of 13 points in the spot market. On the close the trading months were 5 to 8 points under yesterday's final quotations, or at practically the lowest of the day. At the highest, prices were a point over yesterday's close.

Under existing shipping conditions, exporters announced that they were unable to put through any new business with Germany and it was said that interior shippers were cancelling freight engagements for Swedish and Mediterranean ports for sailings the last of this month and for April. Against this, however, was a reported better demand for cotton room for English ports.

Although exports now are decreasing, they are still large for this time of the year. Foreign exports for the day totalled 38,825 bales, as against receipts at all ports of 44,107. Exports thus far this week amount to 177,650 bales.

Spot cotton steady, 13 points up. Middling 8.13. Sales on the spot 1,290 bales; to arrive 950.

Dry Goods.

NEW YORK, March 9.—High shipping costs curtailed export trade in cotton goods today. Domestic markets were quiet and steady. Fine men's wear suitings sold well for fall. Fall silks were bought in a small way. Yarns were quiet.

Chicago Grain.

CHICAGO, March 9.—Assertions that American wheat exports were about twice as rapid as conditions would warrant sent the market today to a much higher level with the close firm at 1-2 to 5 3-4 net advance. Corn finished 1-8 to 1-4@3-8, oats a shade to 1-8 up and provisions off 10 to 27 1-2.

New York Cotton.

NEW YORK, March 9.—Cotton continued quiet today and fluctuations were again irregular with the close steady at a net decline of 4 to 9 points.

Houses with German connections sold freely at the start and after opening steady at an advance of 4 points to a decline of 5 points under yesterday's closing. Liverpool was fairly steady and the market rallied to about or a shade over the closing figures of last night on covering and local support.

After the close of the English market buying became a little less active and prices eased off during the afternoon under renewed liquidation. Active months sold 8 to 9 points net low, or on the decline with the close in point or two up from the lowest in sympathy with the firm showing of southern spot markets.

March notices issued today were estimated at about 1,500 bales but there was practically no trading in March until after midday, although that month was relatively easy at the close.

Cotton futures closed steady:

Stocks and Bonds.

NEW YORK, March 9.—For the first time since war's outbreak conditions abroad were today almost wholly subordinated on the stock exchange to the Mexican situation. Latest developments excited some concern in financial circles.

Stocks were steady at the opening, but became moderately unsettled on an announcement that warships would be sent to Mexican ports. Prices became firmer, however, when it became known that Washington had not departed from its policy of non-intervention. Recoveries to the early high level were recorded, but trading grew increasingly dull, with few material changes at the close.

Retirement of the Gould, or dominant interest, from the Missouri Pacific and St. Louis & Iron Mountain roads was reflected by considerable activity at advancing prices in securities of those properties. Later, however, profit taking in Missouri Pacific caused some abating of quoted values.

Western Maryland common and preferred were the only railroad stocks to score substantial gains. Canadian Pacific, Reading, Lehigh Valley and Chesapeake & Ohio were relatively heavy.

Time money was dull, six months loans being made at 3 1-4 per cent. Sales of stocks for the day totalled 209,100 shares.

There was a marked decrease of future or foreign sales of American bonds. That market was irregular with strength in low priced issues. American bankers announced an impending loan of \$15,000,000 to Switzerland in the form of one to five-year 5 per cent notes, the proceeds to be used for purchases in this country.

Total sales (par value) aggregated \$2,417,000.

United States bonds unchanged on call.

Liverpool Cotton.

LIVERPOOL, March 9.—Cotton, spot steady. Good middling 5.39; middling 5.07; low middling 4.57. Sales 8,000; speculation and export 2,500. Receipts 22,445.

Futures quiet and steady. May-June 4.99; June-July 5.03 1-2; July-August 5.10; October-November 5.24; January-February 5.31.

Cotton Seed Oil.

NEW YORK, March 9.—There was a severe break in cottonseed oil today, resulting from weakness in lard, a poor cash demand and commission house liquidation. Refiners also sold freely. Final prices were about lowest for the day and 1 1/2 to 16 points under last night. Sales 11,500.

The market closed weak. Spot \$6.75 bid; March \$6.75@6.85; April \$6.85@6.95; May \$6.91@6.93; June \$7.02@7.04; July \$7.12@7.14; August \$7.20@7.22; September \$7.26@7.27; October \$6.85@7.20.

S. CURTIS ARMSTRONG ADMITTED TO BAIL

IN SUM OF \$1,000 AS RESULT HABEAS CORPUS PROCEEDINGS YESTERDAY

INQUEST HELD

Testimony Showed That W. C. Green Had Entered Armstrong's House and Acted Threateningly

In consequence of habeas corpus proceedings brought before Judge Frank B. Gary in the court of common pleas for Anderson county yesterday afternoon at 3 o'clock, S. Curtis Armstrong, master mechanics of the Orr Cotton Mills, who late Monday night shot and killed W. C. Green, an itinerant mill worker, who had broken into his home, and who advanced upon Mr. Armstrong in a threatening manner when the latter discovered him in the house, was released on bail of \$1,000 for his appearance for trial at the next term of the court of general sessions for Anderson county. Mr. Armstrong's bond was secured by himself and Messrs J. B. Humbert and B. B. Bleckley.

Testimony at Inquest.
In making the application for bail, counsel for the applicant, Breazeale & Pearman, read the testimony which was adduced at the inquest held over Green's body by Coroner J. H. Harden. The testimony of the inquest was furnished by five witnesses and the defendant.

The first witness was Dr. H. A. Pruitt, who described the nature of the wound inflicted in Green's body by the gun shot at the hands of Armstrong. Other witnesses were Mrs. Nora Armstrong, Bert Armstrong and John H. Armstrong, members of Mr. Armstrong's family, and a neighbor, John A. Hayes.

In addition to this, there was a statement from Mr. Armstrong, to the effect that he was awakened between 10:30 and 11 o'clock Monday night by his wife, who heard a noise at the rear door; that he armed himself and went out the front door and around to the rear of the house; that as he reached the rear Mrs. Armstrong turned on the light on the rear porch; that as this was done a stranger, who had gotten into the bathroom on the piazza, came out on the porch and advanced upon him in a threatening manner; that he called to the stranger to stop; that the stranger ignored his warning and continued to advance, in the meantime putting his hand to his hip pocket as though he was drawing a weapon; that when the stranger would not stop he fired upon him.

No objection to bail.
When the court had heard the evidence in the application the solicitor was asked if he had opposition to make to the granting of bond. Solicitor Kurtz P. Smith stated that he did not want to go on record as consenting to bail, but that he would offer no opposition to it being granted. Judge Gary then signed an order admitting Armstrong to bail.

ITCHING ECZEMA IS DRIED RIGHT UP WITH SULPHUR

Use like cold cream to subdue irritation and clear the skin.

Any breaking out or irritation on the face, arms, legs and body when accompanied by itching, or when the skin is dry and feverish, can be readily overcome by applying a little bold-sulphur, says a noted dermatologist.

He informs us that bold-sulphur instantly allays the angry itching and irritation and soothes and heals the Eczema right up leaving the skin clear and smooth. Bold-sulphur has occupied a secure position for many years in the treatment of cutaneous disorders because of its parasite-destroying property. Nothing has ever been found to take its place in treating the irritable and inflammatory skin affections. While not always establishing a permanent cure it never fails to subdue the itching irritation and drive the Eczema away and it is often years later before any eruption again appears.

Those troubled should obtain from any druggist an ounce of bold-sulphur which is applied to the affected parts in the same manner as an ordinary cold cream. It is so unobtrusive and so gentle relief afforded, particularly in delicate persons, proves very welcome.
