ALLIES HAVE CAUSE FOR CHEERFULNESS

GERMAN SUBMARINE SUNK, ATTACK ON THE DARDANELLES RESUMED

RUSSIANS WIN OVER AUSTRIANS

Reports Coming Across Italian Border Tell of Increasing Preparation for War

LONDON, March 25.—The admiral's announcement that he had reason to believe the German submarine U-29 had been sunk, following reports that the attack on the Dardanelles had been resumed and that the Russians had won important victories over the Austrians in Bukovina and at Uzack Pass in the Carpathians, gave the allied countries cause for cheerfulness tonight.

Russian victories are announced in private telegrams from Bucharest via Rome. It is believed here the Russians, by bringing up strong reinforcements, may have turned the Austrian right wing and reached the Sereth river, getting behind the Austrian army operating in the vicinity of Uzernow. Russians also resumed the offensive in the region of the Pileva river in southern Poland, and according to Petrograd have taken an important German position.

In the north heavy fighting is progressing along the East Prussian frontier.

No important action has occurred on the western front, though certain liveliness is exhibited at some points. Reports coming across the Italian border tell of the country's increasing preparations for war, though it is added German diplomats have not abandoned hope of inducing Austria to make territorial concessions which will satisfy both Italy and Rumania. King George today visited Admiral Sir John B. Jellicoe's fleet.

FRIGHTFUL MASSACRE OF ASSYRIAN CHRISTIANS

Men Are Killed and Women Are Carried Off.

TIFLIS, March 25.—Telegrams and letters from Urumiah in northwestern Persia, describe the situation of the American Presbyterian mission there as desperate. Turkish regular troops and Kurds are persecuting and massacring the Assyrian Christians. Harry P. Packard, a doctor at the Presbyterian mission at Urumiah risked his life in a successful effort to prevent a frightful massacre at Geoglapa.

He announced that negotiations had been completed for the feeding of two and a half million French civilians behind the German lines and said it would cost three millions a month to feed them. The commission is in a position to carry on the work for the next two months. Germany agreed to the commission's plan.

Probably Will Be Presented to Great Britain and France This Week

WASHINGTON, March 25.—President Wilson and Secretary Bryan practically completed the consideration of the note to Great Britain and France, giving the United States views on the allies blockade of commerce between Germany and neutral countries.

Those familiar with the note's contents characterize it as an emphatic representation against the allies' unprecedented action in disregarding previously accepted principles of international law. The note probably will be presented this week.

WILL SOON ASK FOR REPARATION

Frye, sunk by the German auxiliary Prinz Eitel Friedrich. The United States will soon send to Germany a note asking for reparation for the loss of the vessel and cargo and an expression of regret for the occurrence. Germany has not given any intimation as to what course she will pursue, but the German ambassador here said unofficially the case will be disposed of amicably.

Steamer Sunk By German Submarine

Dutch Vessel Carrying Cargo of Oranges Sent to Bottom By U-28

DOVER, March 25.—The Dutch steamer Medea sunk off Beachy Head this morning by the German submarine U-28 carried a cargo of oranges bound for London. The British admiralty says the Medea was flying the Dutch flag and had a Dutch crew aboard. The crew landed at Dover and said the submarine sank the vessel by gun fire making the crew embark in small boats.

Arrested on Charge Of Kidnapping

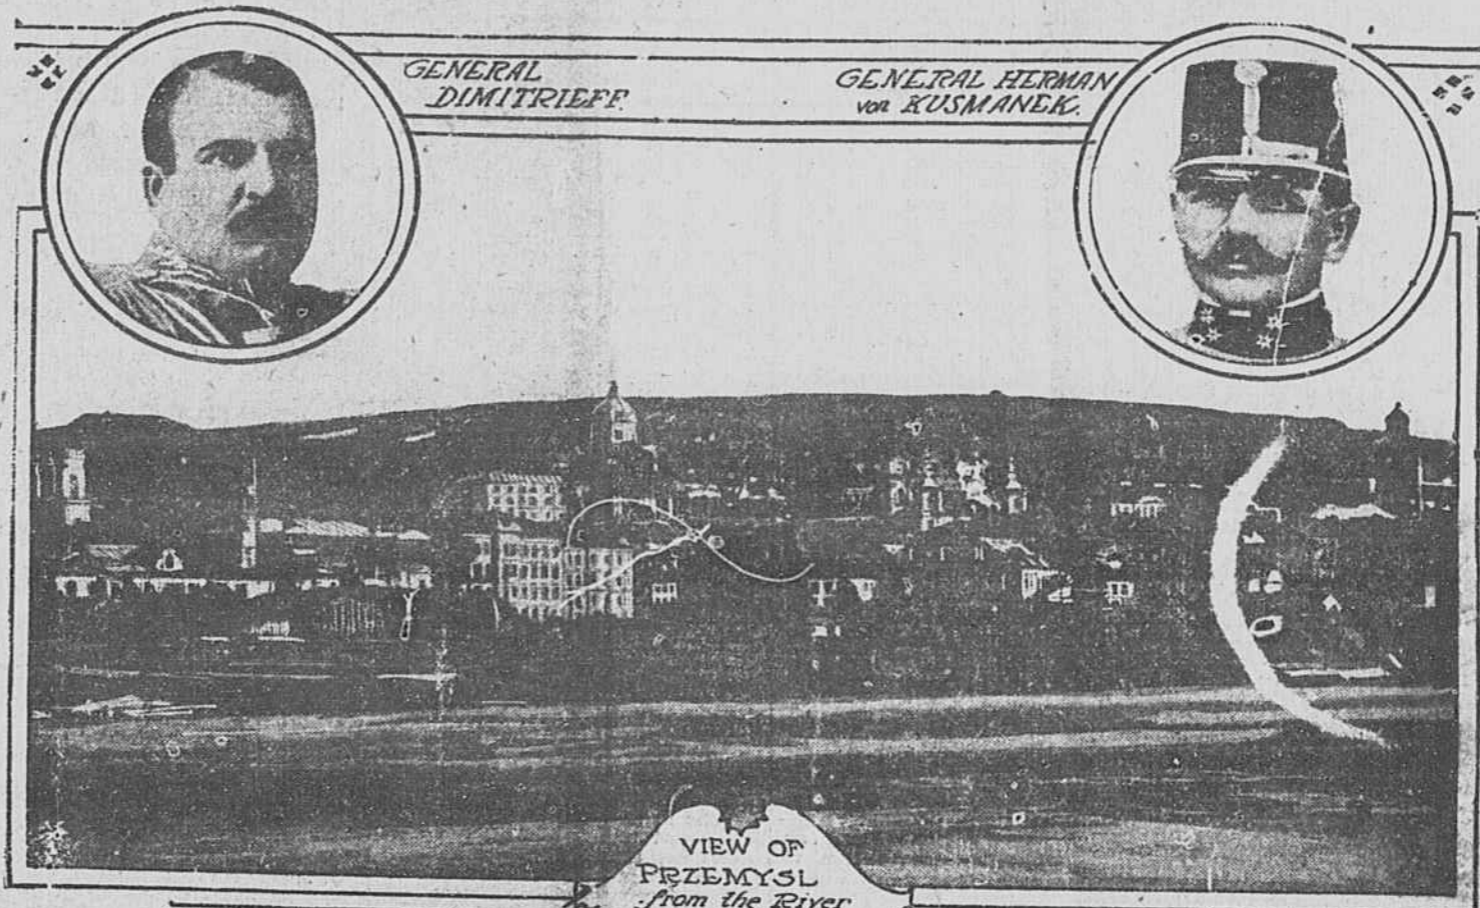

WAYNESBORO, Ga., March 25.—Mrs. Jane Redd was arrested today charged with kidnapping Robert Allen Striker, stepson of W. H. Richter, of Brooklyn, at St. Petersburg Florida, on December 12. The police left with her tonight for a house in the country where she said the child was hidden.

Germany's Largest and Fastest Submarine Sunk

LONDON, March 25.—British admiralty announced tonight he had good reason to believe the German submarine U-29, which recently sunk four British and one French steamer in the English channel and damaged three other vessels, has been sunk with all hands. The U-29 was one of the largest and fastest German submarines.

The submarine's commander told one of the merchant captains taken aboard a submarine that he commanded the submarine which torpedoed the British cruisers Aboukir, Creazy and Hogue. If this is true, he is looked upon as Germany's most daring submarine navigator. This makes six submarines, so far as the British admiralty has reported sunk, five of them, at least, by British warships. In only one case had Germany denied the report of the sinking. A French warship also sunk one, while one merchant ship captain has been given a reward offered for merchant ships ramming a German submarine.

Przemysl, Taken by Russians After Five Month Siege, and Opposing Commanders.

The siege of the great Austrian fortress of Przemysl (pronounced Pahy-mish-l), which was taken by the Russians after an attack starting last September, will rank in history with the siege of Port Arthur. The Russians have been reported several times as having captured it. They have invested the city for the last

few months, and Austrian armies have been unable to dislodge them. When the siege began there were some 60,000 or 80,000 troops within, but many of them have been lost through the fighting and by the course of disease, which must have been as damaging as the shells of the Russians.

The siege has been bitter and re-

lentless, never relaxing a day since the Russians invested the city. Several attempts of the Austrians to raise the siege have failed.

With the fall of Przemysl the only important fortified town in Galicia which is still in the hands of the Austrians is Cracow, in northwestern Galicia, close to the German border. In the early days of the war the

Russian offensive campaign, as outlined unofficially, contemplated the invasion of Germany through East Prussia on the north, and simultaneously into Silesia from penetrating Galicia, but the success of the Austrians in holding Przemysl and Cracow blocked attempt to invade Germany across the Silesian border.

Band Concert.

The next thing on the program was a cadet band concert at "The Anderson" theatre and a box party to the visiting ladies of Clemson college and a number of Anderson ladies, tendered by the amusement committee of the chamber of commerce. The concert was largely attended and was thoroughly enjoyed.

Dance Afterwards.

After the entertainment in the theatre the cadets and their young lady friends repaired to the large hall over the theatre building, where another dance was given by Manager C. H. TREAT IN STORE FOR PEOPLE OF ANDERSON

DR. EDWIN M. POTEAT TO DELIVER ADDRESS SUNDAY AT MEN'S MEETING

PREACHES TWICE

At the First Baptist Church—In Afternoon Speaks on "Christianity in Business"

People of Anderson generally are looking forward with keenest interest to the coming to this city next Sunday of Dr. Edwin M. Poteat, the brilliant and popular president of Furman University, who will address the men's mass meeting in the county court house at 3:30 o'clock and preach Sunday morning and evening at the First Baptist church.

The men's mass meeting at the court house will probably draw the largest audience at the season. Dr. Poteat will deliver his widely known address "Christianity in Business." The address was recently given before an audience of 1,200 business men in the city of Baltimore, and it is said to have been the most powerful utterance of the kind that has ever been delivered in that city.

Dr. Poteat is too well known in Anderson for anything in the nature of an introduction to be attempted in this connection. He has preached and lectured here on several occasions, and his messages were heard by very large audiences.

It is needless to say that he will be heard by large congregations at the First Baptist church, both morning and evening.

NEW YORK BANKS TO FINANCE COTTON IN STATE WAREHOUSES

FORMER SENATOR M'LAURIN ANNOUNCES ARRANGEMENTS

EASY TO SECURE LOAN ON COTTON

New York Financiers Very Enthusiastic and Will Lend Their Assistance

Special to The Intelligencer.

COLUMBIA, March 25.—Arrangements to finance cotton stored in State warehouses through New York banks were announced today by former senator, John L. McLaurin, who returned from a trip to Washington and New York. He was accompanied by State Senator Banks of Calhoun county who emphasized the arrangements by telling how he had borrowed \$10,000 at 5 per cent straight interest on warehouse receipts of cotton which he had stored in State warehouses.

Valuable assistance was rendered by W. P. G. Harlow, a member of the federal reserve board to Senator McLaurin, and in New York he held satisfactory conferences with the Guaranty Trust company and the National City bank. It was at the Guaranty Trust company that Mr. Banks secured his \$10,000, and the South Carolinians report that they believe it would have been easier to procure a loan of \$100,000 on cotton. They state that the New York financiers are enthusiastic over the plans and will lend their assistance.

A statement covering the matter in detail is being prepared by Warehouse Commissioner McLaurin and will be given to the public in a few days. One of the main points emphasized in the new arrangement is that the small banks can now relieve themselves of the burden of carrying loans of last year's cotton crop and can turn their resources to extending credit for the coming year.

Mr. McLaurin has a proposition for his acceptance detailing a plan to overcome the difficulty presented in the fact that the banks would be borrowed by so many individuals and the bank wishes to deal with an individual borrower. The suggestion is made that Mr. McLaurin arrange with some responsible bank or financial institution in South Carolina to loan against State warehouse receipts, and that he take in connection with such loans an agreement giving the institution selected by him the right of re-hypothecation or subrogation. Then they can send the warehouse receipts to a broker in New York with a sight draft on the New York bank under the provisions of the New York State law recently passed providing for such acceptances.

Governor Manning this afternoon appointed R. W. Burtis sheriff of Abbeville county, to succeed Charles J. Lyon, who resigned to become United States marshal for the western district. Mr. Burtis was not an applicant. He is a farmer and a member of a prominent family in Abbeville county.

Governor Manning this morning appointed the following trustees for the South Carolina School for the Deaf and Blind at Cedar Springs: Dr. J. B. Cleveland of Spartanburg; Dr. W. D. Patton of Cross Anchor; Claude N. Sapp of Lancaster. Mr. Sapp was formerly a representative from Lancaster county and was a strong Bleasman in the last administration.

Governor Manning announced today that he would appoint Harry A. Targan clerk of court for Greenville county vice John M. Curston, deceased. The appointment had been under consideration for some time.
