FIELD AND FAIR DAY OF COLORED SCHOOLS

OBSERVED YESTERDAY BY THE COLORED SCHOOLS OF THIS COUNTY

BIG PARADE

Of School Children in Morning Was One of Principal Features—Contest Results

The colored schools of Anderson county observed Field and Fair day yesterday, a program appropriate to the occasion being carried out in this city. There were 500 or more school children, representing schools from all sections of the county, in attendance on the exercises.

The features of the program were: a parade of pupils through the streets, declamation, arithmetic and spelling contests, athletic contests, exhibits in domestic arts, manual training and general school work.

The Parade.
The parade of pupils through the streets was one of the best features of the day's program. Pupils from the eastern and south-eastern sections of the county met at the Fant street school while pupils from the north and northeastern sections of the county met at the Reed street schools. A line of march was started from each of these schools, the lines coming together near the square and marching across the square and down South Main street.

The parade was headed by a float, this being a large automobile truck on which broom-making machinery was mounted and a squad of boys manufacturing brooms. As the float moved along the boys threw the crowds along the street souvenir brooms which they were manufacturing while traveling along on the truck.

Just behind the float moved a large wagon filled with girls of the domestic science class of the local school. They sang plantation melodies as the procession moved along. Behind this wagon marched the Seneca Institute Band, which furnished music for the marching.

The Contests.
As several of the judges failed to turn in their decisions, a complete record of the awards made in the various contests could not be had last night.

The relay race was won by the Belton representative.
The 250 yards dash was won by the William representative, Belton taking second place.

In the one mile trot Anderson won both first and second honors.
In the baseball game between Belton-Williamston and Anderson the game resulted in a score of 8 to 4 in favor of the Belton-Williamston aggregation. The second game between the same teams was won by Anderson, the score being 4 to 5.

In the declamation contest first prize was awarded to girl named Thompson, from Pendleton. Second prize was won by Millie Anderson, of Belton.

In the hurdle race Williamston won first place and Belton second.
In the high jump first place was won by Williamston and second place by Belton.

STRANGE FACTS ARE BROUGHT TO LIGHT

Turks Were Supplied With Dummy Cartridges on Expedition.
CAIRO, April 1.—Some curious facts are coming to light regarding the Turkish expedition on Ezer, through the reports of reconnaissance parties which have been scouring the sand, in the rear of the treachers.

The bodies of some dead Turks were found, clips containing dummy cartridges which held no powder. Probably corrupt contractors were responsible.

All reports, however, agree that the Turkish artillery was of excellent quality. Moreover, they took the utmost pains to get their guns away safely on their retreat. Not the slightest sign has been discovered to indicate that any of the artillery was buried or hidden before they turned back from the shores of the canal.

In preparing the way for their big guns to descend finally from the last range of hills seven miles from the British lines, it is stated that the Turks with great care and ingenuity method, tread and retrod and smoothed a path in the sand. The result presented a fairly hard, smooth surface, admirable for the purpose. Presumably was the series of movements which aviators and outposts reported as "aimless, walking backward and forward in the sand."
