Comparative calm continues in the west. The Germans announce they repulsed French attacks in Woivre and Argonne region.

The German U-31 replaced U-28 off the West coast of England. During the day reports were received of the sinking of the Russian bark, Hermes and the steamer Olive, both small vessels.

Bulgarians have explained that the recent raid into Serbia was the work of rebels. They have promised to disarm them when they reach the Bulgarian frontier.

### If It Constitutes Violation of Rights as Neutral Nation.

WASHINGTON, April 5.—The United States government today made public its note to Great Britain announcing it could not admit either the right of the allies or their claim for jurisdiction in placing an embargo on commercial intercourse between Germany and neutral countries.

The communication said: "To admit it would be to assume an attitude of unneutrality toward the present enemies of Great Britain, which would be obviously inconsistent with the solemn obligation of this government in the present circumstances. For Great Britain to make such a claim would be for her to abandon principles for which she has constantly and earnestly contended in other times and circumstances."

### As Member American Relief Commission Operating in Belgium.

THE HAGUE, April 5.—Gifford Pinchot, ex-chief forester of the United States, who it is understood has been acting as special agent for the American state department in the war zone, has been expelled from Belgium by German authorities.

State department advices said that Gifford Pinchot reached Antwerp, but was not permitted to proceed further in his work as a member of the American Relief Commission in Belgium, although detailed as a special diplomatic agent of the United States. German authorities objected because Pinchot's sister is the wife of a former British minister to Denmark, who is still in the diplomatic service.

Zinn and his wife, who slept over the restaurant, were awakened by a crash downstairs and the proprietor went down to investigate. When he failed to return his wife called a policeman and found the restaurant keeper and his two employes in the cellar.

In the cellar was found the safe, which had been moved from the floor above and evidently thrown down the stairs. It had not been broken open.

Besides the dead men lay three bloody cleavers with which the victims' heads had been battered. The police found also a revolver and a set of burglar tools.

There was evidence, that the murderers had secreted themselves in the cellar after eating a meal in the restaurant. The porter and cook had been surprised and killed when they came down to get some coal.

WASHINGTON, April 5.—Ismael Palafox, in charge of the foreign office of the illa-Zapata government in Mexico City, yesterday telegraphed Enrique C. Lorente, Washington representative, that there was no intention of evacuating Mexico City, as reported in diplomatic dispatches several days ago.

"We have 6,000 troops in the city besides 10,000 in the suburbs," the dispatch said. "General situation good. Commerce, industry and banks are opened and all administration working harmoniously. The spread of the rumor of the evacuation caused a little alarm but as soon as denied by the government calm was restored."

The Carranza agency gave out the following: "The constitutional agency has received advices from Agua Prieta via Douglas, Ariz., that Col. Camanillo returned to Agua Prieta yesterday with his command of 1,000 men after a most successful campaign against the Maytonists in northeastern Sonora. ## JOHNSON DEFEATED BY JESS WILLARD

### KANSAS COWBOY KNOCKS OUT NEGRO AFTER LONG BATTLE

### NEITHER SUFFERED SERIOUS INJURY

### Johnson Going Back to France to Farm—With Thirty Thousand Dollars.

HAVANA, April 5.—Jess Willard, the Kansas cowboy, won the world's heavyweight championship from Jack Johnson, the negro pugilist here today by a knockout, in the twenty-sixth round, when the fast pace he had set stopped the negro's vitality. Then Willard opened a fierce attack, smashing his opponents defense with a fusillade of blows to his body and head.

In the final round the giant Kansas landed a right swing on the negro's jaw. Johnson crumpled, took the count laying on the ropes. Seventeen thousand excited people saw the fight.

As the new champion arose the crowd rushed into the ring. Soldiers protected the fighters and dispersed the mob. Willard declared Johnson never hurt him. Johnson said the better, younger man won the championship.

Johnson an exile from his own country, will sail Wednesday for France to begin farming. He is through with the ring. Willard's going back to the United States to win a fortune was denied him today when Johnson got thirty thousand dollars before the fight started. Willard taking only a small share of the net receipts. What his share was is unknown.

Rosa's fight is probably without parallel in the history of the ring. For twenty rounds Johnson punched and pounded Willard at will, but his blows grew progressively less powerful as the fight progressed until he seemed unable or unwilling to proceed. Johnson stopped landing. For three or four rounds the battle was little more than a serious of plastic poses of white and black gladiators. So it was until the twenty-fifth round, when Willard got in one, his widely swinging right hand smashing on Johnson's heart. This was the beginning of the end. When the round closed Johnson

## COUNTY TRUSTEES NOT IN FAVOR SERVICE DONE BY MISS GARRINGTON

### ADDRESS BY PROF. E. MARION RUCKER

### County Trustees Association Held Quarterly Meeting Monday. Interesting Session.

By a vote of 23 to 12, a small percentage of the membership of the Anderson County School Trustees Association, in regular quarterly session yesterday in the county court house, went on record as being opposed to the continuance after the present fiscal year of the office of the County Supervisor of Rural Schools, a splendid work which has been carried on most acceptably by Miss Maggie M. Garrington to the great good of the schools of the county.

This action was taken by the trustees at the close of the meeting, the matter being brought before the session by Prof. E. C. McCants, superintendent of city schools, who, as a member of the county board of education, asked that the trustees give some expression to their wishes on this matter. The subject of finances was gone into and County Superintendent of Education J. B. Felton stated that the money for the employment of the supervisor had been derived from two sources, the sum of \$250 coming from the Peabody fund and the county board paying her \$75 per month and expenses. After this fiscal year, he stated, it would be impossible to get any more money from the Peabody fund. If the county board were forced to come forward with this additional amount, how much would it cost each school in the county on the average, the superintendent was asked by a trustee. The superintendent replied that the supervisor cost the county board about \$500 a year, and that if the board had to pay the entire cost of the supervisor, which is about \$750, it would cost each school of the county an average of something over \$8. Several trustees remarked that they would not be in favor of taking that much off the appropriation for their respective schools for the employment of a supervisor. This brought the matter to a general discussion and finally to a vote. Though several of the trustees spoke in opposition to the discontinuance of the work, 23 members went on record as opposing the continuance of the office while 12 voted for it to be continued.

An Unappreciated Move.

Persons who are conversant with the value of the work of the supervisor and who know how the patrons of the county schools feel about it believe that were the question put to a vote of a majority of the trustees they would go on record as favoring the continuance of the office. It was also suggested that it is not from a larger percentage of the membership of the trustees association before they vote to abolish the office of the supervisor.

Trustees in Session.

The trustees met in quarterly session last night and were addressed by Prof. E. Marion Rucker, former Andersonian, who is now an instructor in the law school of the University of South Carolina. Prof. Rucker made the trustees a splendid talk, laying stress on the great need and the value of higher education for the young men and women of the land. He emphasized the importance of the trustees getting good teachers for their schools and keeping them. Frequent changes in teachers, he stated, is both bad for the schools and for the pupils attending the schools.

County Superintendent of Education Felton gave next an account of the State Teachers' association meeting in Florence recently and made a plea for full terms for the schools. He read and explained to the trustees the recently enacted compulsory school attendance law, and asked them to give the matter their serious consideration.

County Supervisor of Rural Schools Miss Maggie M. Garrington reported before the trustees and gave an exhaustive account of the work she had been doing since taking over the duties of the office.

Trustees' Visit.

After the business of the meeting had been brought to a close the trustees were treated to fruit and cigars by the county superintendent. The meeting was presided over by President W. A. Tripp. Secretary Walter Sanders was on hand to discharge his duties. The next meeting of the organization will be held in July.
