

SAVES DAUGHTER

Advice of Mother no Doubt Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months.

I cannot tell you how I suffered with my head, and with nervousness and womanly troubles.

Our family doctor told my husband he could not do me any good, and he had to give it up. We tried another doctor, but he did not help me.

At last, my mother advised me to take Cardui, the woman's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.

I think Cardui is the best medicine in the world. My weight has increased, and I look the picture of health.

If you suffer from any of the ailments peculiar to women, get a bottle of Cardui today. Delay is dangerous. We know it will help you, for it has helped so many thousands of other weak women in the past 50 years.

At all druggists.

Do You Raise Chickens

If so, here's the place to get your feed. We carry the full Cypher's line—Laying Mash, Scratch Feed, Short Cut Alfalfa, Developing Food, for little "Biddy" chicks, Meat Scraps, and Wheat Shorts, etc., etc.

ELECTRIC CITY SPARKLETS Items of Interest and Personal Mention Caught Over the Wireless on the Streets of Anderson

A Splendid Outlay On Sea Food. C. F. Power & Son, 201 South McDuffie street, received yesterday what is probably the largest and most varied shipment of sea food ever shipped into Anderson. In the consignment are all kinds of choice fish and shrimp. There are some fish in the lot which have rarely if ever been on sale here. The firm has an advertisement in The Intelligencer this morning which enumerates the kind of fish they have on sale today, and it will be worth any one's time to read it.

War on Vagrants Being Continued. The war declared on vagrants several days ago by the police is being pushed with unrelenting vigor. Yesterday four sinners were convicted in the recorder's court, each being fined \$15 or 20 days. Their names are Nick Williams, Jerry Looper, Dock Williams and Fred Rice. The day previous two convictions on the same charge were had. A seventh case for alleged vagrancy is to be tried today.

Disposed of Over Thousand Badges. Walter H. Keese & Co., yesterday distributed among school children over one thousand d&al badges, advertising the famous Elgin watch. The chaps were immensely pleased with the souvenirs and Mr. Keese stated last night that he could have disposed of five thousand such badges if he had had them on hand.

Mr. Breazeale Is In the Hospital. Mr. B. B. Breazeale, of the Eureka section, has been taken to the Anderson County Hospital for treatment. He is 78 years of age. His friends throughout the county will regret to learn that he is ill, and sincerely hope that he will soon be restored to health.

No, the War Is Not at End. A report current on the streets last night that Germany had "surrendered" spread like wild fire and prompted dozens of inquiries by telephone and in person at The Intelligencer office. Associated Press dispatches carried by the Intelligencer this morning report no such news as the war being at an end, hence the chance are about one against nine hundred and ninety-nine thousand nine hundred and ninety-nine of the report being true.

Cotton Took a Spurt Yesterday. Cotton opened yesterday on the local market at 9 cents and continued at this figure until about noon, when it jumped to 9 1-8 cents, remaining there throughout the afternoon. A local buyer stated that he would not be surprised to see the staple go to 9 1-4 cents today.

Over 1,000 Pounds of Fresh Meat. W. A. Power yesterday showed an Intelligencer reporter over 1,000 pounds of fresh meats stored away in his mammoth refrigerator. Today the meat will be put on sale at bargain prices, the very best steaks, roasts and chops selling for as low as 12 1-2 cents per pound. "We are going to almost give away meat tomorrow," he said as he banged the door of the great cooling box.

Cabbage, Carrots, Cauliflower and Celery

WASHINGTON, April 9.—In Florida and the Gulf Coast region of the other Southern States, according to the U. S. department of agriculture's new farmers' bulletin (No. 647), entitled "The Home Garden in the South," cabbage seed may be sown in the open any time from September to January. Along the Atlantic coast, from Charleston, S. C., to Florida, seed may be sown in the open in October. In all other sections of the South hotbeds or cold frames should be used for starting the plants. A canvas covered frame will be satisfactory, except in the colder regions of the South, where hotbeds should be used. The seed should be planted in the frames in November or December, or about eight weeks before time for planting in the open. Cabbage will withstand a hard freeze if the plants have been hardened off before they are planted in the field.

For spring and early summer cabbage the following varieties are recommended: Jersey, Wakefield, Charleston, Wakefield, Allhead, Early, and Succession. The Copenhagen Market a new variety, has given excellent results in many localities and is well worthy of a trial. In most sections of the South it is not advisable to grow cabbage during midsummer, but a fall crop should be grown. The same varieties may be grown in the autumn as in the spring, but it is usually desirable to plant larger varieties, such as Flat Dutch or Danish Ball Head. Seed for the fall crop should be planted in a cool location in late summer and plants set out as soon as they reach the proper size and the soil contains sufficient moisture to start growth. Cabbage plants should be set 14 to 18 inches apart. The earlier varieties, which grow small heads, are usually set closer than the later ones. For further information on cabbage growing, read Farmers' Bulletin 473,

Reports of An Elopement Rife. Reports were current on the streets last night that a young couple from Lowndesville were married in the city yesterday. It was stated that the marriage was in the nature of an elopement, the young lady coming to Anderson on the train and the young man making the trip here in his car, meeting her by appointment and having the ceremony performed. The rumor could not be confirmed at the late hour it was received last night.

Local High School Team the Winner. In a fast game of base ball at Buena Vista park yesterday afternoon the team of the Anderson High school defeated the Centerville team by a score of 14 to 5. The fielding of Seligman for Anderson was the feature of the game. It was stated that Anderson would have piled up even a larger score had all the regular players been on the team.

Singing Convention At Iva This Month. The Iva singing convention will meet at the First Baptist church at Iva on the third Sunday in April, the 18th, inst., at 2:30 o'clock in the afternoon. All lovers of music are cordially invited to attend the leaders are requested to bring books.

Brisk Business In Chero-Cola. C. D. Faulk, manager of the local plant of the Chero-Cola company, stated yesterday that his business for last week was more than double that of any week for the past three weeks. This is evidently due to the advance of summer weather, when mankind generally takes on such cooling beverages to stave his thirst.

Runaway Horse Broke Into Window. A horse being driven by W. R. Duckworth yesterday morning became frightened at an automobile on the square and dashed down toward the intersection of West Benson street with the square. Falling to make the turn down Benson street, the horse crashed into one of the show windows of Dr. E. K. Parks china and jewelry store, smashing the glass and breaking a number of dishes, glass ware, etc. Dr. Parks saw the horse coming and dodged behind a counter just in time to save himself what probably would have proven serious injuries. The damage is estimated at about \$100. The owner of the building is B. O. Evans. Plate glass insurance was carried on the property and the damage will be repaired without cost to the owner of the building.

W. E. Hammond Out on Bond. W. E. Hammond, the white man who was arrested several days ago at Abbeville on charges of having swindled the Fetwell company of this city in a deal by which he secured a pair of mules, was released yesterday from the county jail on bail of \$700. There are two cases against the man, however, the second one growing out of charges that he worked a similar game on Judge J. S. Fowler several years ago. Hammond gave bond of \$200 in one of the cases before Magistrate Geiger and bond of \$500 before Magistrate Wilson in the other case. His bond was secured by some Abbeville county people.

Baseball Results in Georgia. At Athens—University of Georgia 3, Mercer 2. At Atlanta—Tech 1, University of Alabama 2. Our "Jitney" Offer—This and 5c. DON'T MISS THIS. Cut out this slip enclose with 5c to Foley & Co., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound, for coughs, colds and croup; Foley Kidney Pills for pain in sides and back, rheumatism, backache, kidneys and bladder; Foley Cathartic Tablets, a wholesome and thoroughly cleansing cathartic. Evans Pharmacy.

entitled "Cabbage." The soil and cultural requirements of carrots are practically the same as for beets. Carrot seed, however, should not be planted so deep as beet seed, and the plants can be allowed to grow closer together in the row. Carrots may be dug in the autumn and stored in banks or cellars, or they may be left in the ground to be harvested as needed. Varieties recommended: Half-Long Scarlet, Early Scarlet Horn, and Canterbury. Cauliflower. Cauliflower thrives best on a rich, moist soil. The culture of this crop is about the same as for cabbage, but it will not withstand as much frost. In order to secure well-headed heads it is necessary to protect them from the sun. The usual practice is to tie the leaves together over the heads. Cauliflower is often prepared for the table in the same way as cabbage. One of the best methods of preparing cauliflower is to boil the whole head in salt water (3 teaspoonfuls of salt to 1 quart of water) until it is tender. Drain off the water, place the cauliflower in a baking dish, and pour over it a white sauce made as follows: Melt two teaspoonfuls of butter and rub into it two tablespoonfuls of flour; add one cup of cold milk; stir until smooth; boil the milk with the flour and butter until thick. Pour the white sauce over the cauliflower, sprinkle with two tablespoonfuls each of grated cheese and buttered crumbs, and brown in an oven. Varieties recommended: Early Snowball and Dwarf Erfurt are the varieties of cauliflower most commonly grown in the South. Celery. In the lower South celery is grown as a fall crop, as it will not mature during hot weather. The seed is sown in a cool, shady place in late summer and the plants set out in the

Best Laxative For Children

When your baby is cross and fretful instead of the happy, laughing little dear you are accustomed to, in all probability the digestion has become deranged and the bowels need attention. Give it a mild laxative, dispel the irritability and bring back the happy content of babyhood.

The very best laxative for children is Dr. Caldwell's Syrup Pepsin, because it contains no opiate or narcotic drug, is pleasant tasting and acts gently, but surely, without griping or other distress. Druggists sell Dr. Caldwell's Syrup Pepsin at fifty cents and one dollar a bottle. For a free trial bottle write to Dr. W. B. Caldwell, 425 Washington St., Monticello, Ills.

autumn as soon as the soil becomes moist. The seed should be sown in rows and covered lightly (not more than one-eighth of an inch) or sown broadcast and covered with burlap, straw, or some other material, to prevent the loss of moisture while the seed is germinating. It will be necessary to water the seed bed often during dry weather.

In the upper South celery may be grown in the spring or in the autumn. As a spring crop, the seed should be started in a hotbed during the winter so that the plants may mature before midsummer. Celery does not bleach well in hot weather, but rots when banked or bearded for leaching.

Set the celery plants six inches apart in rows three feet apart for horse cultivation, or 18 to 24 inches apart when hand cultivation is to be employed.

Celery requires a deep, rich, moist soil, and frequent shallow cultivation. When grown as a fall crop celery may be planted after some other crop, such as peas, beans, cabbage, lettuce, or radishes. When the celery plants are nearly grown a little soil should be drawn around the base to hold the plants in place. About two weeks before they are wanted for the table the bleaching should begin. Soil, cards, or paper may be used for leaching, but soil should be employed only when the weather is cool. When soil is to be used for bleaching, the rows should be four feet apart. Some quick maturing crop could be grown between the rows of celery to make use of the space up to time for bleaching.

Varieties recommended: Golden Self-Blanching, Columbia, and Giant Pascal. For further information on celery growing, read Farmers' Bulletin 282, entitled "Celery" which is sent free to those who apply to the U. S. department of agriculture at Washington, D. C.

Collards. A group of non-heading cabbages differing slightly from kale, but withstanding summer heat better than either kale or cabbage, is extensively grown throughout the South under the name of Georgia collards. Collards do not make a true head, but form a rosette of leaves, which are very tender. The culture and uses of this plant are the same as those of cabbage and kale.

FOUNTAIN STOCK COMPANY Excellent Cast to Appear at The Anderson Next Week.

The Fountain Stock Co. at The Anderson theatre all next week and offered to the patrons of Anderson as a popular price attraction, is not in a sense, a popular price show at all, but owing to the necessity of a much needed rest after an extended tour, through the middle States, before opening their regular summer stock engagement in the best city of the South, the management of The Anderson has been fortunate enough to hold them over for a week's engagement. Mr. Fountain, the manager, justly boast of the best dramatic organization in the South, and is proud of an opportunity of presenting a repertoire of selected high class attractions, that he guarantees have never before show in this city, for less than one dollar and up. The opening play, on Monday night, "The Man and the Hour" tells the story of a young district attorney, who in his struggle to establish an honest government, in his beloved city, is put to the test, many have gone through, but which the public press never publishes for political reasons. This company will offer an unequalled repertoire of plays, for the first time in your city for 10, 20 and 30 cents. Offering as a special inducement so that you may be convinced one lady free with each 30c ticket purchased before 6 o'clock Monday.

Chamberlain's Cough Remedy. From a small beginning the sale and use of this remedy has extended to all parts of the United States and to many foreign countries. When you have heard of such a medicine give Chamberlain's Cough Remedy a trial and you will understand why it has become so popular for coughs, colds and croup. Obtainable everywhere.

PASSPORT REFUSED JACK JOHNSON Is Said to Be Debarred Entrance To All European Countries.

HAVANA, April 9.—The future of Jack Johnson, the former heavy-weight champion, continues uncertain. Indications he will be compelled to remain in Cuba indefinitely. Johnson Wednesday requested the American legation to issue a passport. The legation secretary issued it in the absence of Minister Gonzales, who disapproved. Gonzales then demanded and received to passport from Johnson.

Secretary Bryan cabled Gonzales to refuse the puglist a passport on the ground that he is a fugitive justice under United States laws. Johnson is now said to be debarred entrance to virtually all the European countries.

WOULD HELP U. S. SHIPPING

WASHINGTON, April 9.—Sir Richard Crawford, commercial attache of the British embassy, conferred today with Chandler Anderson, special assistant to Secretary Bryan, in regard to the treatment to be accorded American ships and cargoes under the recent British order in council. It was said later that the London foreign office was disposed to do everything possible to facilitate American commerce not inconsistent with the purpose of the allies to prevent supplies reaching Germany and Austria. Sir Richard is working out with Mr. Anderson details of a plan to eliminate as far as possible unnecessary detentions of American ships.

BELTON FAIR ASSOCIATION.

Date of Sixth Annual Fair Decided at Meeting Today.

BELTON, April 9.—The officers and stockholders of the Belton Fair Association met this morning at the Belton Journal office at 11 o'clock and reorganized.

The election of officers was the next business before the meeting, and the following were elected:

President, D. A. Geer; vice-president, H. F. Hanks; secretary, Dr. E. C. Frierson; treasurer, Hulan Campbell.

It was decided to have the fair next fall during the month of October. As will be well remembered, this next fair will be the sixth annual fair for Belton, each year interest growing. To go into the past history of the Belton fairs will not be amiss at this time. Everything is free. In other words, no admission fees are charged. The premiums, which amount to over five hundred dollars yearly, is made up in Belton by the business men of the town and everybody who wishes to be entitled to enter exhibits no county lines are drawn, no partiality is shown Mr. A. or Mr. B. and therefore the annual day's fair at Belton has always proven one of the best in South Carolina or any other State. If you think we are boasting along this line, ask those who have been coming here yearly who reside in other counties, and they will tell the same story. Belton pulls off this fair annually free of any expense to those who enter exhibits or visit the fair, and we are doing this because we wish to do it this way, and we have always made a good impression on the hundreds who have annually visited our fairs.

This year Belton proposes to have one of the best fairs ever held in any State in the Union and we invite you to be present and bring your friends along. Last year we pulled off fire works or at least the P. & N. Lines did free to all. This exhibition of fire works, cost the P. & N. Lines not a cent less than \$600, and we have assurances that this fall Belton will have another fire works exhibition, contributed by the P. & N. Lines. The committees will be appointed in the next day or so and every one connected with the fair will get down to real business and the fair. Belton will pull off next fall will be the biggest event of this section of the State. Watch Belton. Watch Belton's Sixth annual fair. Date, October, the latter part.

Misses Sarah Bailey and Miss Sue McKittrick, of Chandler, Greenville county, spent the week-end in town, guests of Mrs. J. K. Phillips.

BAD COLD? TAKE CASCARETS FOR BOWELS TONIGHT

No headache, constipation, bad cold or sour stomach by morning.

Get a 10 cent box. Sick headache, biliousness, coated tongue, head and nose clogged up with a cold—always trace this to torpid liver, delayed fermenting food in the bowels or sour, gassy stomach. Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache. Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels. A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10 cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months.
