Saved Girl's Life

"I want to tell you what wonderful benefit I have received from the use of Thedford's Black-Draught," writes Mrs. Sylvania Woods, of Clifton Mills, Ky. "It certainly has no equal for la grippe, bad colds, liver and stomach troubles. I firmly believe Black-Draught saved my little girl's life. When she had the measles, they went in on her, but one good dose of Thedford's Black-Draught made them break out, and she has had no more trouble. I shall never be without

in my home." For constipation, indigestion, headache, dizziness, malaria, chills and fever, biliousness, and all similar ailments, Thedford's Black-Draught has proved itself a safe, reliable, gentle and valuable remedy. If you suffer from any of these complaints, try Black-Draught. It is a medicine of known merit. Seventy-five years of splendid success proves its value. Good for young and old. For sale everywhere. Price 25 cents.

SENECA TO HAVE CHAUTAUQUA

Speakers From Agricultural Department of State and U. S.

At a meeting of the chamber of commerce at the Masonic hall Wednesday night the committee appointed to investigate the matter of holding a Farmers' Chautauqua here some time during the summer made a favorable report which was adopted.

It was recommended that the chautauqua be held on July 22-25. Addresses were made by Mr. R. E. Crabel of the farm department of the Southern railway, W. W. Long of the extension department of the department of agriculture and Rev. J. E. Wallace, setting forth what a farmers' chautauqua is and what it will mean to Seneca and this section.

As Mr. Crabel expressed it, "A farmers' chautauqua is a three days inspirational school for farmers." The speakers will be furnished by the Southern railway's farm development department, the department of agriculture at Washington, the State agricultural department and Clemson and Winthrop colleges.

The morning program will consist of addresses by strong men on the various subjects that pertain to industrial and community development. The afternoon program will be of a more informal nature, consisting of demonstrations and conferences, etc. In the evenings, some form of entertainment will be supplied.

Below is the tentative program that was submitted:

- First Day. Soil improvement day. Live stock. Diversified crops. Fertilizer and machinery. Second Day. Rural improvement day. Rural credits. Marketing. Good roads. Agricultural education. The home. Third Day. Cooperation day. Farmer with farmer. Farmer with the business man. Farmer with the railroads. Cooperation day. Farmer with agricultural colleges and departments of agriculture, State and national.

Church day. The relation of the church to community development and uplift.

A large crowd from Seneca attended the fair and field days exercises in Walhalla Friday. Many remained over for the oratorical contest last night and came back on the special train operated by the Blue Ridge railway. This train came almost being wrecked on this trip. Some one had placed two cross ties on the track just above the James station and had it not been that the train was running very slow there would have been a serious wreck. As it was the train was partially derailed, and delayed for some time. Both the railroad and county authorities are endeavoring to discover the culprit.

Sell Some Land to Good White Neighbors. All over the South there are thousands of men who are keeping themselves and their families in virtual want holding on to more land than they need or can profitably manage. Moreover by trying to keep to themselves land enough for three or four thirty families—or maybe very much more than this—these men are depriving themselves and their loved ones of needed fellowship and comradeship. We mean by this that they are keeping the neighborhood so sparsely settled that there cannot be the friendship, fellowship, and happy social life there ought to be, nor can churches, schools, libraries, clubs, cooperative societies, etc., exist at anything like more than a half dying rate.

Think about it and see if it wouldn't be a good idea, if half the farmers in your neighborhood would cut their farms in two, sell the extra half of the acreage to thrifty white farmers, and then all join together to have the

most progressive neighborhood possible. Many a present land owner would not only get more happiness out of life than ever before, but under the changed conditions would find the remaining half of his real estate worth as much as the whole acreage will ever be worth in a backward, sparsely settled community.—The Progressive Farmer.
