

You Can Rely on Deering Twine

Deering twine is made in the same large plant where Deering binders are made. The manufacturers of Deering binders make twine because they want a twine used with the Deering binder that can be absolutely relied on.

Twine troubles are almost invariably blamed on the binder. In order to escape these troubles Deering twine is as perfect as human skill can make it—as reliable as the best material and skilled workmanship can make it.

Give your binder a chance to do its best work by using reliable Deering twine. We handle it in the following brands and lengths;

ANDERSON COLLEGE

00000000000000000 About forty-five of the students and faculty had the pleasure of a trip to Clemson College on Saturday afternoon to see the game of ball between Clemson and the Citadel and libel suit of William Barnes, Jr., fortween Clemson and the Citadel and the Ben Greet players in "As You Like It." leaving the college about 1 p. m. Through the generosity of people of the city, the trip was made through the country by motors. Several automobiles and the big motor truck of the Brissey Lumber Company served to carry all who cared pay and a game of college ball, there were the beauties of spring along the ably acute. Whether or not he will succeed in a cross-examination of Mr.

ty Saturday evening in their honor. About forty-five guests were present The Glee Club sang several selections. and that, with two guessing contests provided amusements at intervals provided amusements at intervals during the evening. The parlors were effectively decorated with a profusion of logwood, yellow jessamine and ferns. Delicious refreshments were serfed by several members of the faculty.

Miss Owin of the Greenville Women's College came over Schurch.

Much interest is being shown in long hikes into the woods since the leaves and wildflowers are out. Several people formed a party Monday and spent most of the day in the woods, taking lunch with them.

Mr. and Mrs. Burnett form quite a pleasant addition to the college fam-ily since their coming into the dor-

Uric Acid In Meat Clogs the Kidneys

Takea glass of Salts if your Back hurts or Bladder bothers.

If you must have your meat every authority who tells us that meat forms uric acid which almost parayzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney re-gion, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleans the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine. so it ne longer irritates, thus ending bladder veakness.

Jad Salts is inexpensive; can not

injure, and makes a delightful effer-vescent lithia water dnink.

Clover Makes Corn.

During February, 1912, I purchased some very poor land joining my farm. Some of this land had been in cotton the year before, producing about 300 pounds of seed cotton per acre. Most of it was producing a fine crop of sassafras sproducing a fine crop of served by several members of the faculty.

Miss Owin of the Greenville Wooman's College came over Saturday to be Miss Stranathan's guest through Sunday.

Much interest is being shown in long hikes into the woods since the land was prepared and langed to near and cultivated twice.

planted to peas and cultivated twice. Some peas were gathered for seed, and the vines all turned down, about seven inches deep, followed with a drag harrow and sown to rye, using

some phosphate.

The following spring, 1913, the rye was turned down about eight inches deep and followed with the drag harmitory last week.

Miss Maurine Ligon spent the last week-end in Easley visiting Miss Janet Bolt, a former student of the phosphate. This was cultivated twice, ollege. making a fine growth, which was Dr. Kinard made a visit to New-turned down with a disk plow about berry this week.

Miss Maude Wicker is visiting her sister, Mrs. Kinard.

Uric Acid In Meat

Uric Acid In Me during March, 1914. I got a fine crop of clover which was turned down about the middle of May. This was rather poorly done owing to dry weather. The land was harrowed well and planted in corn. It was so dry I did not get a good stand and during the whole growing season the land was not wet over three inches deep. Cultivation was kept up, though at times the corn looked almost dead. day, eat it, but flush your kidneys but we got a yield of 38 bushels of with salts occasionally, says a noted corn to the acre. If we had had a authority who tells us that meat been at least double.-J. L. Abernathy, in the Progressive Farmer.

NEW YORK, April 22.—Sudden im-provement in Liverpool market near its close today was followed by in-creased demand in the local market and prices were 12 to 14 points net higher shortly after midday. Fenewal of liquidation and foreign seiling previously had caused local prices to decline 6 to 11 points from yesterday's closing prices.

Grandma Used Sage Tea to Darken Hair

She Mixed Sulphur with it to Restore Color Gloss, Thickness.

Common garden sage brewed into a heavy tea with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant, remove every bit of dandruff, stop scalp itching and falling hair. Just a few applications will prove a revelation if your hair is fading, gray or dry, scraggly and thin. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the reay-to-use tonic, costing about 50 cents a large youthful appearance and attractive-ness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or your hair becomes beautifully glossy, soft and luxuriant. s beautifully dark,

Proof That He Wasn't Crazy.

Victor Murdock says that one night n Fort Scott, after a political meeting, two men who had been in the audience fell into a violent discussion about the topic of the speech of the evening, relates the Kansaz City Times. A big crowd lingered to hear the disputants out. One was named Flynn and the other Dobbins. They were evidently strangers to each other. Finally Flynn lost his head and

"You're wrong, I tell you; you're wrong. You're crazy."
"I am not," sald Dobbins hotiy; "! know what I am talking about."
"No, you don't," shouted Flynn;
"your're crazy—I tell you, you are

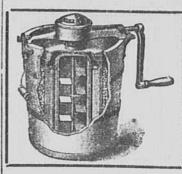

"I am not," cried Dobbins, "and I can prove it."

Flynn stopped short in surprise

and Dobbins slowly drew a fat wath of papers from his inside pocket and said slowly and convincingly. "Well-here are my discharge papers from the asylum."

Belgian Girls Must Work in the Coal Mines.

Their fathers, husbands and brothers in the war—those of them that have not been killed by the invading dermans—the girls of Belgium have been sent down into the coal mines for the roughest kind of work. Coal miners are proverbially the hardest workers, and these girls, most of whom should be in school, must take up their task. They work with nick
