The Pickens Association

This Association met with the Norris church on the 15th and continued in session for three days. The attendance the first day was not very large, but the interest was good. The senior editor of The Courier, by request, preached a very inspiring opening sermon the first day at 11 o'clock on the subject of "Christian Living."

Christian education had the right of way in the afternoon and the delegates and visitors greatly enjoyed the able presentation of the subject by Dr. D. M. Ramsay, president of G. F. C.

The subject of Religious Literature followed and was the occasion of a great speech by Dr. Cody. It is regretted that more people could not have heard it. He showed how the Mormons were scattering broadcast their pernicious doctrines through the medium of thousands of pages of innocent looking little tracts, and how Russellism was being sent into almost every home by all kinds of publications including the secular press. There are very few newspapers which do not use the plate matter of Russell's sermons, and they use it because it is furnished free to them, and do not realize what they are giving their readers. There are few parents who consider or give much thought to the class of reading matter which falls into the hands of their children.

Capt. J. T. Taylor presented a very strong report on temperance which called forth a spiritual discussion. The blind tiger, the blockader, and the man who patronized them were all breakers of the law and a menace to society, good government and religion. The increasing evil of cigarettes and the cold drink stands, especially coca cola, also received proper consideration and censure. So clear and strong was this report that the Association by a rising vote extended its thanks to Capt. Taylor.

Every church in the Association reported a good, healthy Sunday School.

The report on the Orphanage showed that this institution was a favorite with the Baptists of this section of the State. The gifts and contributions by the churches for it exceeded those for any other cause.

Dr. W. T. Derrioux, Secretary of the State Mission Board, reached the Association at noon of the second day, coming from Orangeburg. He was given the best hour in the afternoon, and presented the cause of State Missions in a forceful manner. The report showed that the Association was about \$100 short of what had been asked by the Board, but it was thought that this would be raised before December.

Rev. W. E. Wilkins, Secretary of the Laymen's Missionary Movement in this State, was present and delighted the large crowd present by a ringing speech on this subject. The report on the laymen's work, while emphasizing the importance of missions and urging an increased effort therefor by mission rallies and special meetings, also urged the churches that were having preaching only once or twice a month to take steps to move up to full time and have preaching every Sunday. It also recommended set-

Cheshire Sells His Paper

And Enters Race for Congress in the Third District.

Riedmont, S. C., Aug. 30.

Mr. V. B. Cheshire—Dear Sir: It's very common to send greetings and congratulations to parties, but I'm sending you REGRETS. I see by yesterday's Greenville News you have sold out The Intelligencer. (I suppose it will still be published, of course.) It's a paper I've stood by for many, many years; have some copies of the paper before the war. More especially have I stood by it since you have been connected with it. True, I've not said amen to everything you've said and done, but you have stood for and advocated things that I ADMIRE.

You have stood for JUSTICE and RIGHT between man and man as you saw it.

You have stood by the farmer and championed his cause when he was down.

You have stood by the poor man and his family.

You have stood by the laborer for a square deal.

Furthermore, you have advocated measures that caused you to be unpopular with some and yet the parties have been forced to acknowledge the wisdom of your stand.

I'm satisfied that a man that edits a newspaper or manages it, and does it fearlessly doesn't sail on flowery beds of ease.

I'm down on this wishy-washy-milk and cider business.

Another thing please allow me to mention. I like your mode of dealing with politics. Give every man a square deal. There's more rottenness now in politics than anything else.

There are other things I might say, but perhaps you may think it silly in me to write you as I have.

If you are actually going out of the newspaper business, I suppose you think you see something better and I hope you do.

What I have written you has been done through the kindest feelings.

Here's hoping that peace and harmony and good will may pervade our land.

I am kindly and with best wishes,
Yours,
Adv. D. E. KING.

New Times, New Things

The old fertilizer formulas are giving way to the new. At every farmers' meeting one subject should be the fertilizer formula that will furnish a balanced ration to the crop and keep up the fertility of the soil. To do this the fertilizer should contain at least as much

as Phosphoric Acid. Our note book has condensed facts essential in farmers' meetings and plenty of space to record the new things that you hear. Let us send one to you before your Institute meets.

A supply of these is furnished by request to every institute held in several states. We will be glad to send a supply delivered free of charge to every Institute, Grange or Farmers' Club Officer on request. It contains no advertising matter.
