

# WHERE Do All the People Come From?

## Who Are All the Strangers in Town?

Everybody is either asking that question or thinking it, and we confess that we wonder also. We looked for big business when we announced this sale, but land sakes, we didn't suppose that the first 10 days cash receipts would total as much as we expected for the entire sale.

### It Makes Us Feel Good and Sorry too

Such a wonderful response demonstrates the standing we have with you and we confess to you that we will be sorry to not be able to sell you the regular lines that we have for years, but most of you need and use the lines that we will carry on a bigger scale than ever, so we will be dealing with you anyway.
