Many Inquiries

A number of persons have written the contest department that they are willing to subscribe to The Sentinel, but that they desire to wait until some one from their section enters before handing in their subscription. Here is an opportunity for candidates all over the territory of the contest. This shows that there are votes to be had, not only for the asking, but simply by sending their names. These votes will come not from friends | 1 years subscription 30,000 votes | Clara Richburg, Mary Gantt, of only, but from strangers as well, $\frac{2}{3}$ who are interested and want to

Interest

hase interest is being taken the Sentinel's Great Prize Voting Contest. Nothing has ever been attempted in this part of the state that has attracted such universal attention. The contest department was busy all week answering letters and explaining the contest to the many interested residents of Pickens county. Some of the more progressive have taken a subscription book and are already calling on their friends and getting their subscriptions. The contestants that get started in the next few days are the ones that will have the easiest work. Now the field is new and subscriptions are easy to get, but later on, when the field has been canvassed, it will be much harder to procure subscriptions than at the present time.
