

### PAST GOING FOR TWO YEARS

And This Lady Thinks She Would Have Become Helpless, but for Cardui, The Woman's Tonic.

Waldron, Ark.—Miss Gertrude Houston, of this place, authenticates the following publication: "I want to tell all ladies who suffer from any kind of womanly trouble, among them, weakness, headache, backache, hurting in sides, pains every month, nervousness, etc., to try Cardui, the woman's tonic. Get it at once, as it is what you need. After you use one bottle, you will never regret your start.

I was just about past going for over two years, with the above ailments, and had it not been for Cardui, I would have become helpless, no doubt. I took one bottle, and my health began to improve, and before the bottle was gone, I was almost well. Now, my health is perfectly all right.

So, lady friends, if you want a medicine that will do you real good, take Cardui, the woman's tonic.

If you are weak and ailing, think what it would mean to recover so rapidly and surely as did Miss Houston, in the past 60 years, this strength-building remedy has been used by more than a million ladies, who found it of untold value in relieving womanly pains and ailments.

If you are a woman, therefore, try Cardui. You will appreciate its tonic, building effect on the womanly constitution. Begin today.

### SAGE TEA DARKENS GRAY HAIR TO ANY SHADE. TRY IT!

Keep Your Locks Youthful, Dark, Glossy and Thick With Common Garden Sage and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use tonic called "Wyeth's Sage and Sulphur Hair Remedy." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age, and as we desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and look years younger.—Adv.

An Old Hymn.

I've heard the music that takes wings from pipe and horn and trembling strings. I've marveled at the glorious art whose mystery thrills the human heart. But I endeavor all in vain to recollect some splendid strain. Instead comes echoing sweet and low a simple song of long ago: "Tis but a dear, old-fashioned hymn. With memory mist my eyes grow dim. And, as I listen, there appears a face with tender smiles or tears. It is no song by genius wrought, all cunningly devised and taught. A mother's tone it soothes my ear with love unselfish and sincere. I've read some poets who amaze with splendid thought and dazzling phrase. I've read philosophers and feared their wisdom as they subtly sneered. Such words, though wondrously they may be, have small significance to me compared to that old hymn so sweet that told of mother love complete.—Phillander Johnson in Kansas City Star.

The Two Kinds. Dr. Talcott Williams, the brilliant head of the Columbia School of Journalism, said at a recent luncheon: "The sensational type of newspaper is happily going out. The exponents of this type used to defend themselves with the assertion that their scandalous articles were a natural response to a natural curiosity.

"But to this great editor once r—"There are two kinds of curiosity. Into one kind we stick our brains; into the other only our nose."

WANTED TO KNOW

The Truth About Grape-Nuts Food.

It doesn't matter so much what you hear about a thing, it's what you know that counts. And correct knowledge is most likely to come from personal experience.

"About a year ago," writes a N. Y. man, "I was bothered by indigestion, especially during the forenoon. I tried several remedies without any permanent improvement.

"My breakfast usually consisted of oatmeal, steak or chops, bread, coffee and some fruit.

"Hearing so much about Grape-Nuts, I concluded to give it a trial and find out if it had heard of it was true.

"So I began with Grape-Nuts and cream, soft boiled eggs, toast, a cup of Postum and some fruit. Before the end of the first week I was rid of the acidity of the stomach and felt much relieved.

"By the end of the second week all traces of indigestion had disappeared and I was in first rate health once more. Before beginning this course of diet, I never had any appetite for lunch, but now I can enjoy the meal at noon time."

## Co-Operative Farm Products Marketing

How It Is Done in Europe and May Be Done in America to the Profit of Both Farmer and Consumer

By MATTHEW S. DUDGEON.

### AMERICAN BANKER HAS SOMETHING TO LEARN

Berlin, Germany.—"Some of us rubes are laughing a little at the bankers," said a successful farmer to us before we left the states. "We have actually farmed successfully for years, have studied farming in agricultural colleges. We think we know our business fairly well. It's certainly funny to read speeches by bankers telling us how to farm. I have come to the conclusion that the bankers know so little about farm loans that they would do better to study and discuss their own business than to try to teach us ours." And we have concluded that there is some force in what the farmer says.

The American Bankers' association and thirty state bank associations are actively promoting agricultural advancement. The work undertaken by them includes soil surveys, experiments with fertilizers, hiring experts to make practical demonstration upon the farm, education in road matters, and so on indefinitely. The bankers are duplicating what the federal agricultural department is doing, what every agricultural college is doing, and what every farmer's institute is doing. They are going into the field of production which is important but which after all is one in which the farmer remarked, "one is led to think that the bankers of the country have unanimously concluded that they know their own business so thoroughly that their elevating educational instincts can get opportunity for expression only by doing missionary work among us lowly farmers and elevating this ignorant class to their own high plane of intelligence."

Worst Banking for Farmers. We have been going through Europe accompanied by agricultural experts. We have talked with leaders in agriculture in several countries. We have read bulletins and books galore on agricultural methods abroad. We consulted government specialists. We have seen and heard and studied about all the most scientific up-to-date farming methods. But neither in Europe nor in America do we ourselves have been able to recall a single idea on agricultural production that is not being more or less widely worked out in America by those lowly farmers whom the bankers are so benevolently and condescendingly instructing. On the other hand so far as we can discover the United States is the only country in the civilized world where banking methods have not been in any degree adjusted to the needs of the farmer. Sometimes over here in Europe the joint stock bank does the work. More often it is a co-operative credit bank that loans to farmers.

But some bank stands ready to meet the farmer's needs everywhere, except in the United States. In America, as nowhere else, the banker takes the terms calculated to accommodate the city merchant and financier and inflicts them upon the producer. Sixty and ninety day loans are just what are needed in the city, but they are of no possible use to the farmer. A merchant or commission man gets his returns promptly and can meet ninety day paper at maturity. But the farmer cannot buy calves or pigs and fatten them, market them, and get returns short of a much longer period. The rural borrower who invests the borrowed money in seeds or fertilizers cannot hope to realize upon his investment short of six or eight months. It is not so much a question of interest as of terms and methods. In many localities interest rates are fair. In some places interest on farm loans is too high. But it is true everywhere in America that the bankers stubbornly refuse to the farmer the sort of loans which he needs. And the banker who sits behind the cashier's desk writing speeches about better farming drops his facile pen long enough to crowd down the throat of some farmer patron who should have an eight months loan, a three months loan, which is as apt to cripple as to help him.

### ENDS DYSPESIA, INDIGESTION, GAS

"Pape's Diapesin" cures sick, sour stomachs in five minutes —Time It!

"Really does" put bad stomachs in order—really does, heartburn and sourness in five minutes—that just makes Pape's Diapesin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy and aches; breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment "Pape's Diapesin" starts to work. In five minutes all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapesin will give you a hundred dollars' worth of satisfaction.

It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night. It's the quietest, surest and most harmless stomach doctor in the world.—Adv.

IF BACK HURTS CLEAN KIDNEYS WITH SALTS

Drink Lots of Water and Stop Eating Meat for a While if the Bladder Bothers You.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatism twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush of the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act like a well-oiled machine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.—Adv.

MOTHERS DUTY! Is Your Daughter in Good Health?

The responsibility for the perfect wife and mother of TOMORROW rests with the mother of TODAY.

How are YOU rearing your daughter? Are you fitting her for the responsibilities that are sure to come to her?

Are you endeavoring her with a sound body, robust health and a clear, forceful mind? Or, are you, by neglect, condemning her to a life of suffering and invalidism?

Argue as you will, plead as you will, YOU CANNOT DODGE THE RESPONSIBILITY—your daughter will be just what you make her.

STELLA-VITAE is the happy combination of harmless but wonderfully effective natural remedies that give to the budding girl that assistance so necessary to pass her successfully from girlhood to womanhood.

Are you availing yourself of its remarkable virtues for your daughter? Her assistance she needs so much.

Or are you allowing prejudice or reluctance to try a remedy you have never tried before, rob your daughter of her right to receive every help you can give her?

If it is prejudice, dismiss it as utterly unworthy of you.

If it is because YOU have never tried STELLA-VITAE, remember that untold thousands of women today bless the hand that pointed them to health through the use of this greatest of remedies for women.

It is GUARANTEED TO BENEFIT—If it doesn't you get your money back. All to gain anything to lose through this.

Do YOUR DUTY—TRY STELLA-VITAE. You do not need to BUY a second bottle if the first bottle fails to benefit.

### TRIUMPH OF GENIUS

Famous Geometrical Staircase Object of Great Interest.

Sir Christopher Wren's Great Inception in St. Paul's Cathedral in London One of the Things Always Shown to Visitors.

New York.—Visitors to St. Paul's cathedral in London are shown the geometrical staircase in the South Tower, one of the triumphs of Sir Christopher Wren's genius, says Popular Mechanics. It is a circular ascent 25 feet in diameter, with stone steps nearly six feet broad at their outer end. At one end the steps are imbedded in the wall, at the other they rest upon the edge of the next lower step, without other support from below.

Early English stairs usually consisted of flights with landings, taking up much room, restricting their use to broad halls. The women of the castle objecting to sharing these outer stairs with the rough men-at-arms, interior stairs were constructed, connecting with the living rooms, by the simple expedient of leaving out some stones when constructing interior walls, and in the wells thus made, placing bricks, short stones or even timbers to form a rude ladder. These crude stairs, and necessarily took a circular flight, and as improvements were made, the steps became more regular, longer stones being used, until at last a circular stairway was formed, each step of which depended entirely upon the support afforded by the walls, and independent of the others.

The next move was the consolidation shown in the Wren creation, the

Bewildered Young Housekeeper Felt She Could Not Be Very Wrong in Asking for That.

Her wedded days had not yet run into months, and her ambition was to become a model housekeeper, although she was so young and so very inexperienced. Her husband had had occasion to criticize the butter sent them by their grocer; therefore, determined to remedy this fault, she started, brave and eager, to discover some of a better quality.

"What is the price of your butter?" she asked severely of the man whose store she had briskly entered. "Butterine, 30 cents; dairy, 35," rattled off the storekeeper; "fancy, 38; creamery, 40, and table, 45—"

She gasped, gazing blankly at the row of tubs, to each of which he had pointed in turn.

"Haven't you any plain churned butter?" she inquired helplessly, "or I might say, creamery butter," she added, her old spirit reasserting itself.—Woman's Home Companion.

Falmouth, Ky.—"Two years ago I was troubled with skin and scalp troubles. I would have pimples that would break out and form sores on my face and head, with terrible itching. The eczema on my face and head itched and burned and when I scratched it, it made sores and I was very disfigured for the time being. My head became so sore I could not touch it with a comb; it became a mass of sores. My hair fell out gradually."
