

Why Our Store Keeps Busy:

Moderate Prices

And Another Reason:

There is another reason besides the moderate prices, that cause you to usually find our store crowded with customers--that reason is because we carry a much larger stock of all millinery goods, especially Hats, than will be found in other millinery stores. When you go to "AYERS" you know you will always find style, quality, quantity and moderate prices. Most everything made in hats, from the cheapest that's good to the best that's made.

We try always to give you, also, prompt and courteous service.

Announcing The New Typewriter OLIVER No. 7

WE ANNOUNCE AN AMAZING MODEL--THE OLIVER No. 7, a typewriter of superexcellence, with automatic devices and refinements that mark the zenith of typewriter progress. A marvel of beauty, speed and easy action. Typewriting efficiency raised to the nth power.

The OLIVER No. 7 embodies all previous Oliver innovations and new self-acting devices never before seen on any typewriter. A leap in advance which places The Oliver ten years ahead of its time. So smooth in action, so light to the touch, so easy to run, that experts are amazed. A model that means to the typist delightful ease of operation.

A model that means a higher standard of typewriting, longer and better service.

The No. 7 is now on exhibit and sale at all Oliver Branches and Agencies throughout the United States.

The new model has more improvements, refinements and new uses than we can even enumerate here.

The "cushioned keyboard" with "anchor keys" and the new automatic features mean less work for the hands, less strain on the eyes, less manual and mental effort.

With all of these masterly mechanical improvements we have made the machine more beautiful and symmetrical. From every standpoint THE OLIVER No. 7 attains superlative excellence.

Nothing you could wish for has been omitted. The new devices, refinements, improvements and conveniences found on the No. 7 represent an enormous outlay and, vastly increase its value--the price has not been raised one penny. We

shall even continue in force our popular 17-Cents-a-Day purchase plan, the same as on previous Oliver models. The OLIVER No. 7, equipped with the famous Priotype, if desired, without extra charge. You owe it to yourself to see the new machine before you buy any typewriter at any price. Note its beauty, speed and easy action, its wonderful automatic devices. Try it on any work that is ever done on typewriters. Try it on many kinds of work that no other typewriter will do. It is a significant fact that the typewriter that introduced such epoch-making innovations as visible writing, ribbon reading, Printtype, etc., should be the first to introduce automatic methods of operation.
